

State Water Resources Control Board

Informational Webinars on the New United State Environmental Protection Agency Performance Measures and Report 6 Requirements

The State Water Resources Control Board (State Water Board) is currently revising the Report 6 requirements to reflect the changes to California underground storage tank (UST) regulations and the newly mandated United States Environmental Protection Agency (U.S. EPA) performance measures. Data collection for the new U.S. EPA performance measures, the Technical Compliance Rate (TCR), will begin on October 1, 2018. The TCR data collection coincides with the implementation of the new California UST Regulations and the amended California Environmental Reporting System (CERS) violation library.

UST Leak Prevention staff, Mr. Tom Henderson, will discuss changes to the final updated CERS UST violation library, the new U.S. EPA performance measures (Technical Compliance Rate or TCR), guidance for inspectors on meeting TCR requirements, and the updated format for Report 6. The webinar content will not change between presentations. The State Water Board is providing multiple presentations to allow flexibility for attendees. The webinar dates and times are listed below.

Webinar Dates:

August 8, 2018	9:00 – 11:00 a.m.
August 23, 2018	1:00 – 3:00 p.m.
September 11, 2018	1:00 – 3:00 p.m.
September 26, 2018	1:00 – 3:00 p.m.
October 11, 2018	9:00 – 11:00 a.m.
October 23, 2018	9:00 – 11:00 a.m.

Registration is not required; however, the video capacity is limited to 125 connections, and a call-in capacity of 300 incoming telephone lines.
