

To Interested Parties:

State Water Resources Control Board staff will be holding two meetings of Geotracker users to discuss the electronic submittal of analytical and locational data for the groundwater cleanup programs.

Date: Thursday, January 13, 2005
Time: 10AM - 4 PM
Location: Water Quality Control Board Auditorium
1515 Clay Street
Oakland, CA 94612

Date: Monday, January 24, 2005
Time: 10AM - 4 PM
Location: Irvine Civic Center
1 Civic Center Plaza
Irvine, CA 92606

These meetings are open to the public and you are invited to attend and discuss the relevant issues regarding the Electronic Submittal of Information (ESI) for groundwater cleanup programs and the implementation of the final regulations that were recently adopted. The text of the regulations can be found at: http://www.waterboards.ca.gov/ust/cleanup/electronic_reporting/docs/final_electronic_regs_dec04.pdf

The morning session of each meeting (10am–12pm) is intended for those who are new to the ESI program and will be very basic. The afternoon sessions (1-4pm) will be directed toward experienced users and will discuss more detailed aspects of the program. We hope to hear from many of you who have been routinely reporting electronic data as well as people who are just getting started.

We appreciate your participation in our electronic submittal of information program. This is one of the largest e-reporting programs nationally for either analytical or field measurement data. Your participation is making the program a success.

Since the room's capacity is limited, please RSVP for one of the locations if you plan to attend by e-mailing Hamid Foolad at: hfoolad@waterboards.ca.gov.
