

To Interested Parties:

State Water Resources Control Board staff will be holding two meetings of Geotracker users to discuss the electronic submittal of analytical and locational data for the groundwater cleanup programs:

Date: Tuesday, May 10, 2005
Time: 1 – 4 PM, Kings Conference Room
Location: Water Quality Control Board, Fresno
1685 East Street
Fresno, CA 93706

Date: Tuesday, May 24, 2005
Time: 1 - 4 PM, Board Meeting Room
Location: Water Quality Control Board, San Diego
9174 Sky Park Court, Suite 100
San Diego, CA 92123

These meetings are similar to the other ones that we have had during the last few months in different locations. You are invited to attend and discuss the relevant issues regarding the Electronic Submittal of Information (ESI) for various groundwater cleanup programs and the implementation of the final regulations that were adopted last October. The text of the regulations can be found at:
http://www.waterboards.ca.gov/ust/cleanup/electronic_reporting/docs/final_electronic_regs_dec04.pdf

The first hour of the meeting will be more useful to those who are new to the ESI program and will cover the basic steps in collecting and submitting electronic data. More detailed aspects of the program will be discussed during the second part of the afternoon. We hope to hear from many of you who have been routinely reporting electronic data as well as people who are just getting started.

We appreciate your participation in our electronic submittal of information program. Please RSVP for one of the locations if you plan to attend by e-mailing Jessica Nunes at jnunes@waterboards.ca.gov.
