

COMMENT LETTER - 76 STATION NO. 5658/5105 CASE CLOSURE SUMMARY

August 24, 2013

George Lockwood  
State Water Resources Control Board  
Division of Water Quality  
1001 1 Street -- P.O. Box 2231  
Sacramento, CA 95612

Dear Mr. Lockwood:

RE: Case No. 1TSRO63

I have been unable to reach you by phone and have no computer. I strongly object to discontinuing monitoring my well, located at 2075 Marlow Road, Santa Rosa, CA 95405 and request a copy of any and all information you have regarding this. My two daughters, Shera Emis and her son, and my younger daughter, Christine rent that house from me. Address correspondence to me,

Judy Emis, owner (503) 634-2398

Shera Emis

Woodburn, OR 97071

COPY TO:

Santa Rosa, CA 95405

My daughter was told by the man testing my water that he would not drink the water even with the filters on it. A short distance behind the well is a low spot created years ago by the county when they installed two large drain pipes supposedly to carry off excess water -- instead the pipes were put in at the wrong angle, never connected, resulting in excess drain water from all three gas stations on the corner -- 76 being the closest -- being channeled onto my property. I've complained numerous times to the Water Quality Control Board, the county, etc. to no avail. Perhaps you could get this accomplished now.

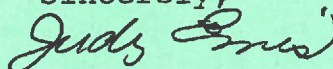

My next door neighbor, the Callisons, told me their "dirt" tested contaminated from the 76 station. Because of this, they were forced to sell their property at a considerably lowered price. I requested my dirt also be tested, but was denied.

At this time, I again request the two pipes be straightened out and connected properly to take the excess runoff water to the sewer, not channeled into my back field -- and my dirt be tested for contaminants.

Thank you in advance for helping me with this most unfortunate problem.

This ongoing problem, I believe, severely lowers the value of my property and will make it difficult to sell.

Sincerely,

Judy Emis
