STATE OF CALIFORNIA
STATE WATER RESOURCES CONTROL BOARD

In the Matter of Permits 12947, 12948, 12949, and 12950 (Applications 12919A, 12920A, 15736, and 15737) of SONOMA COUNTY WATER AGENCY and MENDOCINO COUNTY RUSSIAN RIVER FLOOD CONTROL AND WATER CONSERVATION IMPROVEMENT DISTRICT

Permittees

ORDER FOR PERMITTEE TO PRESENT PLAN FOR ACCOUNTING FOR USE OF PROJECT WATER BY INDIVIDUAL USERS

These permits were issued pursuant to Decision 1030 of the former State Water Rights Board, adopted August 17, 1961. Included as one of the terms of the permits is condition 3 of the Order of said decision which provides in part as follows:

"... Provided, however, that there shall be neither direct diversion nor rediversion of stored water pursuant to these permits, except at Wohler, Mirabel Park, Monte Rio and Healdsburg Intakes, until a description of the location of each point of diversion and statement of the quantity of water to be diverted at each point is filed with the State Water Rights Board; ... ."

Although these permits were issued in 1961 and the annual progress reports of Sonoma County Water Agency claim use
of water under the permits by users other than from any of the four intakes named in Decision 1030, no statement has been filed with the Board either identifying the location of the points of diversion of said users or of the quantity of water used therefrom. Although the Mendocino District reported use of water under Permits 12947 and 12948 through 1963, this District likewise has not complied with the provisions of said condition 3. No progress report has been filed on behalf of the Mendocino District since 1963.

IT IS THEREFORE ORDERED that a hearing be scheduled at an early date to afford the permittees an opportunity to explain why said condition 3 of Decision 1030 has not been complied with and to present a satisfactory plan for accounting for use of project water by individual users, not only for the Coyote Valley Project, but for the Dry Creek Project, as well.
