REGISTRATION FOR
SMALL DOMESTIC USE APPROPRIATION

Registration No. ________________

Please leave the Registration No. field blank unless you have a current registration and are filing an amended form for the purpose of changing either the point of diversion or place of use.

The following information is provided to help you understand the general process necessary for you to register your water use with the Division of Water Rights.

1. The section titled Program Limitations contained within the Process Guide at the end of this form contains information about the Registration program. You should review that section to determine whether or not a registration will be accepted for your project. If you have questions about the Registration program, call the telephone number at the top of this page.

2. To submit a registration for your project, complete this form and include any attachments. The Process Guide at the end of this form may be helpful. If you have questions about this form, call the telephone number at the top of this page.

3. Review the Division of Water Rights’ general conditions for this registration at http://www.waterboards.ca.gov/waterrights/publications_forms/forms/docs/sdulsu_conditions.pdf.

4. Send the following to the address at the top of this page: (1) completed form; (2) required attachments; and, (3) a check or money order made payable to the Division of Water Rights for a $250 filing fee. Please note that the $250 filing fee is non-refundable.

5. The Division of Water Rights will review the form for completeness and eligibility for the registration program. Once complete, the Division of Water Rights will send the form and attachments to the California Department of Fish and Wildlife, who will have a 90-day period to review the information to determine whether any lawful conditions are necessary for your registration. Staff from the California Department of Fish and Wildlife may contact you to arrange for a site visit or ask for any other information.

6. If the California Department of Fish and Wildlife develops lawful conditions for your registration, they will provide the conditions to the Division of Water Rights. The Division of Water Rights will issue you a certificate that establishes your water right.

7. Once your certificate is issued, you will be required to comply with all conditions, including the Division of Water Rights’ general conditions and all lawful conditions required by the California Department of Fish and Wildlife. You will be required to submit annual reports electronically and pay a renewal fee every five years. Your certificate will be subject to revocation if you fail to comply with all conditions, fail to divert and use the water, fail to renew your certificate, or if you are found to have made a false statement or knowingly concealed a material fact when completing this form.
1. PRIMARY OWNER INFORMATION
Each registration must designate a Primary Owner. The Primary Owner is either the sole owner or a co-owner of the registration who will act on the behalf of all of the co-owners, unless an Agent is designated.

(Name of Primary Owner)  
(Company)  
(Email Address)  
(Phone Number between 8 am and 5 pm)  
(Mailing Address)

2. NON-PRIMARY OWNER INFORMATION
Additional co-owners of the registration may be designated as Non-Primary Owners. Attach additional sheets if more than three Non-Primary Owners are designated.

(Name of Non-Primary Owner)  
(Company)  
(Email Address)  
(Phone Number between 8 am and 5 pm)  
(Mailing Address)

(Name of Non-Primary Owner)  
(Company)  
(Email Address)  
(Phone Number between 8 am and 5 pm)  
(Mailing Address)

(Name of Non-Primary Owner)  
(Company)  
(Email Address)  
(Phone Number between 8 am and 5 pm)  
(Mailing Address)

3. AGENT INFORMATION
A registration may designate an Agent to act on the behalf of owner(s) of a registration.

(Name of Agent)  
(Company)  
(Email Address)  
(Phone Number between 8 am and 5 pm)  
(Mailing Address)
4. PROJECT DESCRIPTION

a. What is the address of the property where the project is located?

________________________________________________________________________________
(Property Address) (City) (State) (Zip Code)

b. Is your project ☐ complete, ☐ partially complete, or ☐ proposed?

c. Does your project include storage of water in one or more ponds? ☐ Yes ☐ No

If you answered Yes above, does your project include storage of water in at least one onstream pond? ☐ Yes ☐ No

d. Provide a detailed description of your project, including but not limited to method of water diversion, type of construction activity, area to be graded or excavated, and a general overview of how you will operate the project. Identify the features of your project that are complete, partially complete, or proposed. If you have a pond, a pond survey prepared by a registered civil engineer or land surveyor should be submitted, if available. Attach additional pages and documents as necessary.

______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________
______________________________________________________________________________

5. COMPLETION SCHEDULE

a. Have you diverted and used water using any of the features of this project? ☐ Yes ☐ No  If you answered Yes, provide the year that water was first diverted and used:

b. If your project is partially complete or proposed, provide the following:

Year work will start _________ Year work will be completed _________
6. LOCATION OF PROJECT

Your registration may not be acceptable without accurate information showing the source of water and location of water diversion, storage and use. You must submit a topographic map or aerial photograph with this form that clearly indicates the location of (1) the point(s) of diversion and (2) the place of use, including all structures and equipment related to diversion and use of water under this registration.

a. Indicate whether you have submitted a ☐ topographic map or an ☐ aerial photograph.

b. For the point(s) of diversion, provide the following:

County ______________________ Assessor’s Parcel Number(s) ___________________________
_____________________________________________________________________________

c. For the place of use, provide the following:

County ______________________ Assessor’s Parcel Number(s) ___________________________
_____________________________________________________________________________

7. SOURCE OF WATER

a. The name of the stream or the source of the water for your project is:

__________________________________________ tributary to ____________________________

(If unnamed, state that it is an unnamed stream, spring, etc.)

b. In a normal year, does the stream dry up at any point downstream from your project? ☐ Yes ☐ No

If Yes, during what months is it usually dry? From ________________ to ________________

c. Do you claim an existing right for the point of diversion or place of use identified in this registration? ☐ Yes ☐ No

If Yes, describe the existing right (include record numbers assigned by the State Water Board):
_____________________________________________________________________________
_____________________________________________________________________________

d. Do you have other sources of water available to support this registration’s purpose of use (e.g. domestic) if water diverted and used under this registration is insufficient? ☐ Yes ☐ No

If Yes, describe the sources (include record numbers assigned by the State Water Board):
_____________________________________________________________________________
_____________________________________________________________________________
8. PURPOSE OF USE, AMOUNT, SEASON AND DIVERSION WORKS

In the table below, check the box next to each of the purposes of use for water diverted under this registration, and enter the information requested for rate, amount, and season. If you do not indicate Domestic as a purpose of use, any of the other purposes of use must be associated with a dwelling or other facility for human occupation. Your registration may not exceed a direct diversion rate of 4,500 gallons per day or a diversion to storage amount of 10 acre-feet per year. You may apply for both direct diversion and diversion to storage on the same registration. Provide the requested information regarding the capacities of your diversion works.

<table>
<thead>
<tr>
<th>Purpose of Use</th>
<th>Direct Diversion</th>
<th>Diversion to Storage</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Rate</td>
<td>Amount</td>
</tr>
<tr>
<td></td>
<td>gallons per day</td>
<td>acre-feet per year</td>

</tbody>
</table>

Maximum Rate and Amount by Direct Diversion

Maximum Amount by Diversion to Storage

a. **Direct Diversion.** If you entered information for Direct Diversion in the table above, provide the information requested below:

The method of diversion is:

- Gravity by means of ________
- Pumping from ________

b. **Diversion to Storage.** If you entered information for Diversion to Storage in the table above, provide the information requested below:

(1) If your registration includes tanks or ponds, complete the appropriate section below:

**Tank Characteristics**

<table>
<thead>
<tr>
<th>Existing Tanks</th>
<th>Proposed Tanks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Number</td>
<td>Total Capacity</td>
</tr>
<tr>
<td>Number</td>
<td>Total Capacity</td>
</tr>
</tbody>
</table>

**Pond Characteristics**

<table>
<thead>
<tr>
<th>Name (if any)</th>
<th>Depth, maximum feet</th>
<th>Surface Area, when full acre</th>
<th>Capacity* acre-feet</th>
</tr>
</thead>
</table>

*If necessary, use this formula: Capacity = Depth x Surface Area x 0.7
(2) For tanks or offstream ponds only, provide the information requested below:

The maximum rate of diversion to storage is ____________ gallons per day.

The method of diversion is:

☐ Gravity by means of _________________ dam, pipe, etc.
☐ Pumping from _________________ channel, well, etc.

9. JUSTIFICATION OF AMOUNT

a. If use is DOMESTIC, complete the following:

(1) Describe the use of water for human habitation (e.g. human consumption, cooking, sanitary use, etc):

Provide the number of establishments to be served by the water:

___ Home  ___ Cabin  ___ Resort  ___ Motel  ___ Organization Camp
___ Camp Grounds  ___ Other (Describe: ________________________________)

Are any of the establishments separately owned? ☐ Yes ☐ No

Total number of people to be served is ____. Estimated use per person is ____ gallons/day.

(2) Will the water be used for the incidental watering of domestic stock for family sustenance or enjoyment? ☐ Yes ☐ No

If you answered Yes, provide a description, including the number and type of domestic stock to be served:

________________________________________________________________________

________________________________________________________________________

(3) Will the water be used for incidental irrigation not to exceed one-half acre in lawn, ornamental shrubbery, or gardens? ☐ Yes ☐ No

If you answered Yes, provide the following:

Total area for irrigation is ____________ square feet.

Will water be used for the production of irrigated crops? ☐ Yes ☐ No

If you answered Yes, describe the production of irrigated crops:

________________________________________________________________________

________________________________________________________________________

________________________________________________________________________
Describe how irrigation use is incidental (secondary) to the primary use for human habitation (e.g. human consumption, cooking, sanitary use, etc):

__________________________________________________________________________

Important! Please be aware incidental irrigation under small domestic use registrations can only cover irrigation associated with growing cannabis for personal use (6 plants or less, without any sale or trade). If you are seeking to cover any commercial agricultural operation, including for cannabis, this type of registration is not appropriate. Please see the small irrigation use registration program for more information on options. You can still pursue a small domestic use registration for the domestic needs of your residence.

(4) Will any of water diverted for incidental irrigation be used for cultivation of cannabis (including personal use)? □ Yes □ No

If yes, answer all of the following:

Provide the total amount of water that will be used under this water right (if granted) for cannabis cultivation during a typical calendar year. Quantity: ________ Gallons □ Acre-Feet □

<table>
<thead>
<tr>
<th>Provide the typical amount of cannabis cultivation anticipated under this water right during the calendar year by lighting conditions type. If project not yet built, provide estimate for full build out.</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Indoor</strong></td>
</tr>
<tr>
<td>Cultivated canopy size in square feet</td>
</tr>
<tr>
<td>Total number of plants harvested during the calendar year</td>
</tr>
<tr>
<td>Number of Harvests</td>
</tr>
</tbody>
</table>

Watering Method: Check all irrigation methods that you intend to use to cultivate cannabis (check all that apply)?

Hand water □ Drip/micro-spray irrigation □ Flood irrigation □ Row Irrigation □ Other: ________ □

Will your cultivation of cannabis include any commercial activity? □ Yes □ No Any trade or barter? □ Yes □ No

b. If use is not DOMESTIC, the diversion of water is required to be associated with a dwelling or other facility for human occupation. Describe how your project meets this requirement:

__________________________________________________________________________

__________________________________________________________________________

__________________________________________________________________________
10. RIGHT OF ACCESS

a. Do you own all of the land where the water will be diverted, stored, and used? Yes ☐ No ☐

If you answered No to item (a), complete item (b) below.

b. Do you have a recorded easement or written authorization allowing access? Yes ☐ No ☐

If you answered Yes to item (b), provide the name and mailing addresses of the person(s) allowing access in below. If you answered No to item (b), provide the names and mailing addresses of all affected landowners and describe your process for obtaining access:

____________________________________________________________________________
____________________________________________________________________________
____________________________________________________________________________

11. LAKE OR STREAMBED ALTERATION AGREEMENT

For informational purposes only, if you have submitted to the California Department of Fish and Wildlife a notification to obtain a lake or streambed alteration agreement for the project covered by this registration, please provide the notification number below, if assigned.

Notification No. __________________________________________

Please note that a California Department of Fish and Wildlife notification is not necessary for the Division of Water Rights to accept your registration form.

12. PHOTOGRAPHS

Your registration may not be acceptable unless you provide one complete set of color photographs, clearly dated and labeled, showing the following:

☐ Point(s) of Diversion  ☐ Diversion Works  ☐ Tank(s) or Pond(s)  ☐ Place of Use

The source (stream), both ☐ Upstream and ☐ Downstream of the Point(s) of Diversion

13. CERTIFICATION AND SIGNATURE

By initialing below and signing and submitting this form to the State Water Resources Control Board, I certify that:

_____ If this registration includes Domestic use, I understand only incidental irrigation is allowed, and further I will not use the diverted water to irrigate a crop (including cannabis) for commercial purposes or trade.

_____ I understand that the Division of Water Rights will, on my behalf, contact the California Department of Fish and Wildlife for the region in which my project is located;

_____ I understand that the Division of Water Rights will, on my behalf, provide the information set forth in this registration form to the California Department of Fish and Wildlife for the region in which my project is located; and,
I will comply with all lawful terms and conditions, including terms and conditions identified in the Division of Water Rights’ general conditions and any conditions required by the California Department of Fish and Wildlife.

I declare under penalty of perjury that the information provided in this form and attachments is true and correct to the best of my knowledge and belief.

Signature of (select one):  □ Primary Owner or  □ Agent  
Date of Signature  

CHECKLIST FOR SUBMISSION OF A REGISTRATION FOR SMALL DOMESTIC USE APPROPRIATION

Before you submit your registration, be sure to:

☐ Answer each question completely.

☐ Number, label, and include all necessary attachments.

☐ Include the required topographic map(s) or aerial photograph(s) – see section 6.

☐ Include one complete set of color photographs – see section 12.

☐ Include payment of the required fee of $250, payable to the Division of Water Rights.

☐ Complete the certification (section 13 above), including signature and date of signature.

Submit the registration packet to the following address:

Division of Water Rights
State Water Resources Control Board
PO Box 2000
Sacramento CA 95812-2000
### PROGRAM LIMITATIONS

If you have questions regarding the Registration program, contact the Division of Water Rights at (916) 341-5300.

California law allows for the registration of appropriations of water for small domestic uses. Small Domestic Use is defined as: "that use is defined by board rule, or use for aesthetic, fire protection, recreational, or fish and wildlife purposes that is associated with a dwelling or other facility for human occupation that does not exceed direct diversion of 4,500 gallons per day or diversion to storage of 10 acre-feet per annum." (Wat. Code, § 1228.1, subd. (b)(1).)

Registrations cannot be approved under any of the following conditions:

1. The diversion of water will be from a stream segment for which the Director of the California Department of Fish and Wildlife has established minimum streamflow requirements;

2. The diversion of water will be from a stream declared by the State Water Resources Control Board to be fully appropriated during the season of proposed use. A list of fully appropriated streams is available here:

3. The facility included in the registration is already served by or used pursuant to a small domestic use registration or a water right permit or license for domestic or municipal purposes;

4. The facility included in the registration is already used pursuant to a small irrigation use registration, unless the total combined water use does not exceed 20 acre-feet per year; or,

5. The place of use exceeds a total irrigated lawn and garden area of ½ acre per establishment.

Once a water right registration is issued for your project, you will not be able to (1) change the purpose of use; (2) increase the amount of water diverted; or, (3) increase the season of diversion of the water. If you need to change the purpose of use, divert more water or increase your season of diversion, you will need to obtain a valid basis of right.

You may change the point of diversion or place of use at any time by completing this form and submitting it to the Division of Water Rights with a $250 fee.

### CONDITIONS

Diversion and use of water subject to water right registrations is conditioned upon compliance with both (1) the Division of Water Rights’ general conditions and (2) the California Department of Fish and Wildlife conditions.

The Division of Water Rights maintains a list of current general conditions, which apply to all new and renewed Small Domestic Use registrations. When your registration is approved and a certificate is issued for the water right, diversion and use of water under that right will be subject to the general conditions. When your water right is renewed every five years, the general conditions that are in effect at the time of renewal will be incorporated into your water right. The general conditions are available here:

- [http://www.waterboards.ca.gov/waterrights/publications_forms/forms/docs/sdu_conditions_s.pdf](http://www.waterboards.ca.gov/waterrights/publications_forms/forms/docs/sdu_conditions_s.pdf)

The California Department of Fish and Wildlife may impose lawful conditions upon the diversion subject to your water right registration. They may impose an initial set of conditions at any time, and may revise those conditions when your water right is renewed every five years.

The California Department of Fish and Wildlife has developed general conditions, to be applied in lieu of site specific special conditions, for registrations meeting certain criteria, as described below.

### CAUSE FOR REJECTION

Your registration may not be accepted if: (1) this form is not completed in a bona fide attempt to conform to the rules and regulations of the Division of Water Rights; (2) the $250 filing fee is not included; or, (3) the registration otherwise does not meet the entrance requirements for the Registration program as described in the Program Limitations section above.

If your project is located within the watershed of any river designated as part of the California Wild and Scenic River System, the Division of Water Rights will need to review the project in accordance with California Code of Regulations, title 23, section 734. A registration which proposes to construct a dam, reservoir or other water impoundment facility on a designated river will not be accepted. The following registration types will be accepted, but will be subject to review by the California Natural Resources Agency: (1) the registration proposes to construct a water diversion facility other than a dam, reservoir or other water impoundment facility on a designated river; or (2) the registration could affect a designated river will be accepted, but will be subject to a special notice to the California Natural Resources Agency for review of the project.

### CAUSE FOR REVOCATION

Once you have received a water right for your registration, your water right will be subject to revocation if any of the following occur:

1. You abandon or forfeit the right for nonuse pursuant to Water Code section 1241;

2. The Division of Water Rights finds that you knowingly made a false statement, or knowingly concealed any material fact, in the registration;

3. You fail to renew the registration, including failure to complete the report form and pay the renewal fee; or,

4. You fail to comply with the conditions of the water right, including the Division of Water Rights general conditions and any lawful conditions required by the California Department of Fish and Wildlife.

### INSTRUCTIONS

1. **PRIMARY OWNER INFORMATION**
   
   Each registration must designate a Primary Owner. The Primary Owner is either the sole owner or a co-owner of the registration who will act on the behalf of all of the co-owners. The Primary Owner is the de facto Agent for the registration, unless an Agent is designated.

2. **NON-PRIMARY OWNER INFORMATION**
   
   Additional co-owners of the registration may be designated as Non-Primary Owners. Attach additional sheets if more than three Non-Primary Owners are designated.

3. **AGENT INFORMATION**
   
   A registration may designate an Agent to act on the behalf of the owner(s) of a registration.

4. **PROJECT DESCRIPTION**
   
   Enter the address for the property where the project is located. Identify whether your project is complete, partially complete, or proposed. Indicate whether your project includes storage of water in a pond, and if so, whether one of the ponds is onstream. A reservoir is considered either onstream if the dam is located on a natural channel. Provide a detailed description of your project, including identification of features of the project that are complete, partially complete, or proposed. Attach project plans or surveys that were prepared and submitted for other agency approvals, and additional pages as necessary.

5. **COMPLETION SCHEDULE**
   
   Provide the requested information. If you have diverted and used water using any of the features of the project, regardless of whether the project is complete, provide the
year that water was first diverted and used. You may provide an estimate, if necessary. If your project is partially complete or proposed, provide the dates that work will start and be completed.

6. LOCATION OF PROJECT
Your registration may not be acceptable without accurate information showing the source of water and location of water diversion and use. You must submit a topographic map or aerial photograph with this form that clearly indicates the location of (1) the point(s) of diversion and (2) the place of use, including all structures and equipment related to diversion and use of water under this registration.

A topographic map can be obtained from sporting goods stores or through the internet at http://store.usgs.gov. If you are unable to obtain a topographic map, you may obtain an aerial photograph from an online source or a local resource (such as a farm advisor).

The point of diversion is the point (or points) where water diverted under this registration is first captured. If you are diverting through a pump or other means from a stream, the location where the pump withdraws water is the point of diversion. If you have an onstream reservoir, the midpoint of the dam is the point of diversion.

The place of use is the area where water diverted under this registration will be used. Depending on the purpose of use, the place of use may include, but is not limited to, the following: structures, campgrounds, gardens, area served by stockwatering troughs, or a reservoir.

Provide the County and Assessor's Parcel Number(s) for the parcels where the point(s) of diversion and place of use are located.

7. SOURCE OF WATER
Indicate the name of the body of water from which you are diverting water and the body of water it flows into (tributary to). Answer the questions regarding the availability of water, whether you have or claim any water rights related to the features of the project, and any alternate sources of water.

8. PURPOSE OF USE, AMOUNT, SEASON AND METHOD OF DIVERSION

PURPOSE OF USE
Provide the purpose of use, amount of water requested and the season of diversion (dates that water may be diverted) under this registration. For a Small Domestic Use registration, the purpose of use may be DOMESTIC or the following purposes provided they are associated with a dwelling or other facility for human occupation: AESTHETIC, FIRE PROTECTION, RECREATIONAL, or FISH AND WILDLIFE PRESERVATION AND ENHANCEMENT.

DOMESTIC use means the use of water in homes, resorts, motels, organization camps, camp grounds, etc., including the incidental watering of domestic stock for family sustenance or enjoyment and the irrigation of not to exceed one-half acre in lawn, ornamental shrubbery, or gardens at any single establishments. The use of water at a camp ground or resort for human consumption, cooking or sanitary purposes is a domestic use. Use of water for either commercial livestock or the production of irrigated crops that is not incidental (secondary) to the primary use for human habitation (e.g. human consumption, cooking, sanitary use, etc) is not a domestic use.

AESTHETIC use means the use of water for aesthetic purposes, such as maintenance of a pond for decoration.

FIRE PROTECTION use means the use of water to fight fires or prevent fires from spreading.

RECREATIONAL use means the use of water for recreational establishments, boating, swimming, and fishing, and may include water which is appropriated by storage and either retained in the reservoir or released downstream to support these purposes. Use of water at a camp ground or resort for human consumption, cooking or sanitary purposes is a domestic use and irrigation of golf courses is an irrigation use.

FISH AND WILDLIFE PRESERVATION AND ENHANCEMENT use means using water to maintain or provide habitat or other benefit for fish and wildlife by taking water under control as in the following examples:

(a) The collection or diversion of water to storage for either retention in the reservoir or release downstream for the purpose of preservation or enhancement of fish or wildlife; or
(b) Direct diversion of water for the purpose of preservation or enhancement of fish or wildlife.

This category of water use includes the use of water for the raising of fish or other organisms for scientific purposes or release in the waters of the state.

AMOUNT, SEASON AND METHOD OF DIVERSION
Indicate whether you will be diverting water by Direct Diversion or Diversion to Storage. For a Small Domestic Use registration, the amount may not exceed direct diversion of 4,500 gallons per day or diversion to storage of 10 acre-feet per year.

Your registration should not request more water than will be required for the identified purposes. Typical rates of use for domestic purposes can be estimated by using the Suggested Water Duty available below.

Direct Diversion means you (1) divert water for immediate use or (2) divert water for short term collection into a sump, pond, or tank from which it will be used at a more convenient rate.

For direct diversion, provide the rate of diversion, total annual amount, and the beginning and ending dates of your diversion season for each purpose of use.

Annual amounts for direct diversion may be estimated by converting the daily diversion rate to acre-feet and then multiplying by the number of days available during the specified season of diversion. For more information regarding conversion factors, please refer to the Table of Equivalents available below.

Indicate the method of diversion and provide the requested information.

Diversion to Storage means you plan to collect water in your pond or tank and keep it for use during a time of deficient streamflow.

For diversion to storage, provide the total annual amount, and the beginning and ending dates of your diversion season for each purpose of use.

Provide the requested information regarding the tank and/or pond characteristics and the known or estimated capacity. If you have a pond survey, provide a copy with the registration.

If your project involves diversion to offstream storage, indicate the method of diversion and provide the requested information.

SUGGESTED WATER DUTY
The suggested daily water duties provided below are maximum rates that the Division considers reasonable. If you apply for a greater rate, you must justify your request.

Generally, the annual amount of water should be calculated as: (1) for personal use or domestic stock, multiply the duty by 365, and (2) for irrigation, multiply the duty by 150.

Personal Use
(Gallons per Day per Person)

Homes, motels, resorts and camping areas equipped with:

<table>
<thead>
<tr>
<th>Equipment</th>
<th>Suggested Duty</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full plumbing</td>
<td>55-75</td>
</tr>
<tr>
<td>Sink and flush toilet only</td>
<td>40</td>
</tr>
<tr>
<td>Sink and shower only</td>
<td>35</td>
</tr>
<tr>
<td>Sink only</td>
<td>25</td>
</tr>
<tr>
<td>Outside supply only</td>
<td>15</td>

</tbody>
</table>

Campgrounds equipped with:

<table>
<thead>
<tr>
<th>Equipment</th>
<th>Suggested Duty</th>
</tr>
</thead>
<tbody>
<tr>
<td>Faucets only</td>
<td>5</td>
</tr>
<tr>
<td>Washbowls, showers, flush toilets and laundry trays</td>
<td>30</td>
</tr>
</tbody>
</table>
Domestic Stock
(Gallons per Day per Head)
Dairy cows 30
Horses 15
Goats and hogs 2.5
Rabbits, poultry and
other small animals 0.25

Lawn, Shrubbery, or Gardens
(Gallons per Day per 100 sq ft)
Irrigation of lawn,
shrubbery and gardens 18.5
Sprinkling to allay dust 7.5-10

TABLE OF EQUIVALENTS
ONE CUBIC FOOT PER SECOND (cfs) is a
rate of flow passing any point equal to a
volume of one cubic foot of water every
second (sometimes referred to as second-foot) and is equivalent to:
= 7.48 U.S. gallons per second (gps)
= 448.8 U.S. gallons per minute (gpm)
= 646,317 U.S. gallons per day (gpd)
= 1.9835 acre-feet per day
= 40 standard (statute) miners' inches
= 28.32 liters per second

ONE ACRE-FOOT (af) is the amount
(volume) of water which will cover one acre
to a depth of one foot, and is equivalent to:
= 43,560 cubic feet
= 325,851 U.S. gallons
= 1,233.45 cubic meters

1,000,000 U.S. GALLONS PER DAY is
equivalent to:
= 1.55 cubic feet per second
= 43.81 liters per second
= 3.07 acre-feet per day
= 3,786 cubic meters per day

9. JUSTIFICATION OF AMOUNT
If you indicated that DOMESTIC is a
purpose of use for water diverted under this
registration, complete portion a. of this
section. Domestic use requires that the
primary use of water be for human
habitation (e.g. human consumption,
cooking, sanitary use, etc). Provide a
description of how the project meets that
requirement, including the requested
information. If water will be used for the
incidental use of livestock watering or
irrigation, provide a description, including the
requested information. For incidental
irrigation, provide a description of how the
use of water for irrigation is incidental to the
primary use of domestic (e.g irrigation of
lawn for aesthetic purposes related to a
house).

If you indicated that DOMESTIC is not a
purpose of use for water diverted under this
registration, complete portion b. of this
section. In order to register the diversion
and use of water with the Small Domestic
Use Registration Program for purposes
other than DOMESTIC, the diversion and
use of water is required to be associated
with a dwelling or other facility for human
occupation. Provide a description of how
your project meets this requirement.

10. RIGHT OF ACCESS
Provide information regarding ownership. If
you do not own all of the land where the
water will be diverted, stored, and used, complete item (b). Property owners who
may be affected by this registration will be
provided notice of the registration.

11. LAKE OR STREAMBED ALTERATION AGREEMENT
If you have submitted a notification to obtain
a lake or streambed alteration, provide the
notification number, if assigned. This is
requested for informational purposes only,
and is not necessary for the Division of
Water Rights to accept your form.

12. PHOTOGRAPHS
Your registration may not be acceptable
unless you provide one complete set of
photographs, clearly dated and labeled, that
show the requested features of your project
and the source (stream) upstream and
downstream.

13. CERTIFICATION AND SIGNATURE
Either the Primary Owner or Agent must
initial where indicated and provide a
signature and date of signature. Indicate
whether the signature is of the Primary
Owner or Agent.

SUBMITTING YOUR REGISTRATION
Review the checklist for submission of a
Registration for Small Domestic Use
Appropriation. Once you have confirmed
that you have completed the requested
information and gathered the required
attachments, send the following to the
address in the box below: (1) completed
form; (2) required attachments; and, (3) a
check or money order made payable to the
Division of Water Rights for a $250 filing
fee.

Division of Water Rights
State Water Resources Control Board
PO Box 2000
Sacramento, CA 95812-2000

Once your registration is submitted, you
may use the Division of Water Rights
electronic Water Rights Information
Management System (eWRIMS) to check
on the status of the registration by following
the steps below:

1. Go to
http://www.waterboards.ca.gov/ewrims
2. Select “eWRIMS Database System”
under the heading “eWRIMS Database
(View Water Rights)
3. Accept the Public Records Act disclaimer
