ENVIRONMENTAL INFORMATION
FOR PETITIONS
Permit 10477 (Application 12842)

☑ Petition for Change  ☐ Petition for Extension of Time

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

☑ See Attachment No. 1
2. COUNTY PERMITS
   a. Contact your county planning or public works department and provide the following information:
      Person contacted: ____________________________ Date of contact: ____________
      Department: ____________________________ Telephone: ( )
      County Zoning Designation: ____________________________
      Are any county permits required for your project? ☐ YES ☐ NO
      If YES, check appropriate box below:
      ☐ Grading permit ☐ Use permit ☐ Watercourse ☐ Obstruction permit ☐ Change of zoning
      ☐ General plan change ☐ Other (explain): ____________________________

   b. Have you obtained any of the required permits described above? ☐ YES ☐ NO
      If YES, provide a complete copy of each permit obtained.
      ☒ See Attachment No. 2

3. STATE/FEDERAL PERMITS AND REQUIREMENTS
   a. Check any additional state or federal permits required for your project:
      ☐ Federal Energy Regulatory Commission ☐ U.S. Forest Service ☐ Bureau of Land Management
      ☐ Soil Conservation Service ☐ Dept. of Water Resources (Div. of Safety of Dams) ☐ Reclamation Board
      ☐ Coastal Commission ☐ State Lands Commission ☐ Other (specify) ____________________________

   b. For each agency from which a permit is required, provide the following information:
      | AGENCY | PERMIT TYPE | PERSON(S) CONTACTED | CONTACT DATE | TELEPHONE NO. |
      |--------|-------------|---------------------|-------------|---------------|
      [Table is partially filled out with placeholders]
      ☒ See Attachment No. 3

   c. Does your proposed project involve any construction or grading-related activity that has significantly altered or would significantly alter the bed or bank of any stream or lake? ☐ YES ☐ NO
      If YES, explain:
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ____________________________
      ☒ See Attachment No. 3
ENVIRONMENTAL INFORMATION FOR PETITIONS

d. Have you contacted the California Department of Fish and Game concerning your project? □ YES □ NO
   If YES, name and telephone number of contact: ____________________________

4. ENVIRONMENTAL DOCUMENTS
   a. Has any California public agency prepared an environmental document for your project? □ YES □ NO
      If YES, submit a copy of the latest environmental documentation(s) prepared, including a copy of the notice of
determination adopted by the California public agency. Public agency: ____________________________
   b. If NO, check the appropriate box and explain below, if necessary:
      ☑ The petitioner is a California public agency and will be preparing the environmental document.*
      □ I expect that the SWRCB will be preparing the environmental document.**
      □ I expect that a California public agency other than the State Water Resources Control Board will be preparing
the environmental document.* Public agency: ____________________________

   ☐ See Attachment No. ___

* Note: When completed, submit a copy of the final environmental document (including notice of
determination) or notice of exemption to the SWRCB, Division of Water Rights. Processing of your petition
cannot proceed until these documents are submitted.

** Note: CEQA requires that the SWRCB, as Lead Agency, prepare the environmental document. The
information contained in the environmental document must be developed by the petitioner and at the
petitioner's expense under the direction of the SWRCB, Division of Water Rights.

5. WASTE/WASTEWATER
   a. Will your project, during construction or operation, (1) generate waste or wastewater containing such things as
      sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?
      □ YES ☑ NO
      If YES, or you are unsure of your answer, explain below and contact your local Regional Water
      Quality Control Board for the following information (See instruction booklet for address and telephone no.):

      ☐ See Attachment No. ___

   b. Will a waste discharge permit be required for your project? □ YES □ NO
      Person contacted: ____________________________ Date of contact: ____________________________

   c. What method of treatment and disposal will be used?

      ____________________________

      ☐ See Attachment No. ___

6. ARCHEOLOGY
   a. Have any archeological reports been prepared on this project? □ YES ☑ NO
   b. Will you be preparing an archeological report to satisfy another public agency? □ YES ☑ NO
   c. Do you know of any archeological or historic sites located within the general project area? □ YES ☑ NO
ENVIRONMENTAL INFORMATION FOR PETITIONS

If YES, explain: ________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________
___________________________________________________________________________

☐ See Attachment No. __________

7. ENVIRONMENTAL SETTING
   Attach three complete sets of color photographs, clearly dated and labeled, showing the vegetation that exists at
   the below-listed three locations. For time extension petitions, the photographs should document only those areas of
   the project that will be impacted during the requested extension period.
   ☑ Along the stream channel immediately downstream from the proposed point(s) of diversion.
   ☑ Along the stream channel immediately upstream from the proposed point(s) of diversion.
   ☑ At the place(s) where the water is to be used.

8. CERTIFICATION
   I hereby certify that the statements I have furnished above and in the attachments are complete to the best
   of my ability and that the facts, statements, and information presented are true and correct to the best of my
   knowledge.

Date: 6/1/07   Signature: [Signature]

PET-ENV (10-04) - 4-
Re: Item 1, Description of Proposed Changes:

This project involves changes necessary to allow for an increase in the amount of the Permittee’s storage allocation diverted to underground storage from 1,000 acre-feet to 17,000 acre-feet annually. A necessary element of the proposed change is the modification of Permit Term 5 and the deletion of Permit Term 20. In addition, the changes sought by this petition involve enlarging the place of use to coincide with the enlarged boundary of the North San Joaquin Water Conservation District, and the boundaries of Stockton East Water District (SEWD), Central San Joaquin Water Conservation District (CSJWCD), and additional areas within the spheres of influence of the City of Stockton and City of Lodi. The changes seek to allow water diverted under Permit 10477 to be used for domestic, irrigation, municipal, industrial, water quality, and fish & wildlife enhancement uses within the proposed enlarged place of use.

This proposed project involves the construction of two new pump stations on the Mokelumne River. The pump station at POD 5 will divert water for release into Coyote Creek where it will be redverted to underground storage at several recharge sites along Coyote Creek. The pump station at POD 6 will divert water for release into Bear Creek where it will be 1) redverted at the proposed Alliance Canal for conveyance to SEWD and CSJWCD; 2) redverted to underground storage at several recharge sites along Bear Creek, and 3) redverted at a proposed water treatment plant to be constructed on Pixley Slough by the City of Stockton. Construction of at least 11,000 feet of new transmission pipelines will be required, the location of which are shown on the map accompanying this petition. In addition, water is proposed to be diverted at the existing Woodbridge Diversion dam (POD 7) for conveyance via the Woodbridge South Main Canal to Pixley Slough hence the City of Stockton’s proposed water treatment plant. Alternatively, if the Department of Health Services will not allow transmission through Woodbridge South Main Canal, then an approximate 5 mile pipeline may be constructed for delivery from Woodbridge Dam to the City of Stockton’s treatment plant.
ATTACHMENT 2

Re: Item 2, County Permits:

Government Code Section 53901 provides in pertinent part:

Zoning ordinances of a county or city shall not apply to the location or construction of facilities for the production, generation, storage, or transmission of water . . .

Consequently, no zoning permits or related approvals will be required from San Joaquin County for any construction to be completed on the project.
ATTACHMENT 3

Re: Item 3, State & Federal Permits:

3b. It is anticipated that the following permits and approvals will be required for this project:

- Streambed Alteration Agreement from the Department of Fish & Game pursuant to Section 1600 of the Fish & Game Code.
- Section 404 permit from the US Army Corps of Engineers.
- Section 401 Water Quality Certification from the California Regional Water Quality Control Board.

3c. The following activities will require alteration of the bed and bank of a stream:

- Construction of two pump stations on the Mokelumne River;
- Construction of diversion facilities on Coyote Creek and Bear Creek for redersion of water into groundwater recharge sites;
- Construction of diversion facilities on Bear Creek for redersion of water into the Alliance Canal.
- Construction of a diversion facility on Pixley Slough for redversion of water at the City of Stockton’s proposed water treatment plant.
