ENVIRONMENTAL INFORMATION
FOR PETITIONS

☒ Petition for Change  ☐ Petition for Extension of Time

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED
For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

Petition for Change
Silverado Sonoma Vineyards, LLC – Windsor Hills Ranch #76

License 8077 (Application 20557)

Attachment #1

3. Project Description

Petitioner has recently purchased the property and proposes to increase the place of use to the 78 acres of existing vineyards on the Windsor Hills Ranch. Petitioner also seeks to add frost protection as a purpose of use. The 78 acre vineyard was developed prior to 1993 and the previous owner has irrigated and frost protected the vineyard from the reservoir for over 16 years. The Licensed place of use is located on an adjacent parcel not owned by the Petitioner. No water from the reservoir is currently used on those lands or is contemplated in the future. The amount of water to be used on the requested 78 acre place of use will not exceed the 49 acre-feet authorized by the License.

The entire project, including the requested place of use, reservoir, and water distribution system are existing and fully developed (see attached aerial photograph). No further development is requested pursuant to this Petition.

The proposed project involves no changes relative to historical conditions (see aerial photograph dated July 11, 1993). Accordingly, this Petition qualifies for a Categorical Exemption under Title 14, California Code of Regulations, Section 15301, Existing Facilities, which states the following:

"Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency’s determination."

Based on the foregoing, we are requesting that the State Water Board grant a Categorical Exemption to this Petition and proceed with further processing as necessary for issuance of an amended License.
