Attachment 1
Amended Petition for Change for License 9947B (Application 21429B)

This Amended Petition is for a change in the place of use and purpose of use under License 9947B. The existing 35.8 acre place of use named in License 9947B will be abandoned, as it is located on a neighboring property held by Jack Cox, and will be served by Mr. Cox under License 9947A.

This Amended Petition seeks to change the place of use to a total of 43 acres of which 37 acres are located on Petitioner’s property and 6 acres on a neighboring property owned by Claude Steiner, all as shown on the Amended Map to Accompany the Petition. Water will be served to Mr. Steiner’s lands by private agreement. The requested place of use has been agriculturally developed for many years in dry farmed hay fields and/or row crops. Additionally, the Petitioner is requesting to add frost protection and heat control as purposes of use.

The Petitioner no longer intends to excavate Round Mountain Reservoir to its original capacity of 290 acre-feet. The Petitioner understands that License 9947B will be amended to reflect Round Mountain Reservoir’s present capacity of 170 acre-feet as documented in the engineering survey submitted to the State Water Board on August 29, 2006.
ENVIRONMENTAL INFORMATION FOR PETITIONS

❖ Petition for Change

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.
