PETITION FOR EXTENSION OF TIME

WATER USERS:

Application 24868B    Permit 17837B

Water Code section 1396 requires an applicant to exercise due diligence in developing a water supply for beneficial use. The State Water Resources Control Board (State Water Board), in considering requests for extension of time, will review the facts presented to determine whether there is good cause for granting an extension of time to complete the project. Where diligence in completing the project is not fully substantiated, the State Water Board may set the matter for hearing to determine the facts upon which to base formal action relating to the permit. Formal action may involve:

1. Revoking the permit for failure to proceed with due diligence in completing the project.

2. Issuing a license for the amount of water heretofore placed to beneficial use under the terms of the permit.

3. Granting a reasonable extension of time to complete construction work and/or full beneficial use of water.

The time previously allowed in your permit within which to complete construction work and/or use of water has either expired or will expire shortly.

Please check below the action you wish taken on this permit.

☐ The project has been abandoned and I request revocation of the permit.

☐ Full use of water has been made, both as to amount and season, and I request license be issued.

☐ The project is not yet complete. I request the State Water Board's consideration of the following petition for an extension of time.

PETITION FOR EXTENSION OF TIME
If START of construction has been delayed

Complete items 1, 2, and 3.

1. What has been done since permit was issued toward commencing construction?

2. Estimate date construction work will begin.

3. Reasons why construction work was not begun within the time allowed by the permit.
PETITION FOR EXTENSION OF TIME
If construction work is proceeding

If construction work and/or use of water is proceeding but is not complete, an extension of time may be petitioned by completing items 4 through 16. Statements must be restricted to construction or use of water only under this permit.

4. A _______ year extension of time is requested to complete construction work and/or beneficial use of water. (Must be consistent with the time frame allowed in California Code of Regulations sections 840 through 844) * for 2008 only. Permitee did not own property prior to 2008.

5. How much water has been used? 3.7 acre-feet/year 0 cfs

6. How many acres have been irrigated? 28

7. How many houses or people have been served water? N/A

8. Extent of past use of water for any other purpose. Irrigation pursuant to P17837A

9. What construction work has been completed during the last extension? Additional vineyard planted.

10. Approximate amount spent on project during last extension period. $ Permittee has recently purchased the property, amount spent by prior owner unknown.

11. Estimate date construction work will be completed. Spring 2011

12. Estimated year in which water will be fully used. 2013

13. Reasons why construction and/or use of water were not completed within time previously allowed. Petitioner recently purchased the property and wishes to develop the project in accordance with the permit and to plant additional lands as described in the attached Petition for Change and Redistribution of Storage between the reservoirs.

If the use of water is for municipal (including industrial) and irrigation supplies and is provided or regulated by public agencies and use of the water has commenced, but additional time is needed to reach full use contemplated, the following information must be provided.

14. What water conservation measures are in effect or feasible within the place of use? N/A

15. How much water is being conserved or is it feasible to conserve using these conservation measures? N/A acre-feet per annum.

16. How much water per capita is used during the maximum 30-day period? N/A gpd.

I (we) declare under penalty of perjury that the above is true and correct to the best of my (our) knowledge and belief.

ENVIRONMENTAL INFORMATION FOR PETITIONS

.Permission for Change

Before the State Water Resources Control Board (SWRCB) can approve a petition to change your water right permit or a petition for extension of time to complete use, the SWRCB must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

1. DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition to change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

See Attachment No. 1
ENVIRONMENTAL INFORMATION FOR PETITIONS

2. COUNTY PERMITS
   a. Contact your county planning or public works department and provide the following information:
      Person contacted: [Contact information] Date of contact: 6-17-2009
      Department: Planning & Building Telephone: (707) 433-4281

      Are any county permits required for your project? ☐ YES ☐ NO If YES, check appropriate box below:
      ☐ Grading permit ☐ Use permit ☐ Watercourse ☐ Obstruction permit ☐ Change of zoning
      ☐ General plan change ☐ Other (explain):

      b. Have you obtained any of the required permits described above? ☐ YES ☐ NO
         If YES, provide a complete copy of each permit obtained.
         ☐ See Attachment No. ___

3. STATE/FEDERAL PERMITS AND REQUIREMENTS
   a. Check any additional state or federal permits required for your project:

      ☐ See Attachment No. ___

   c. Does your proposed project involve any construction or grading-related activity that has significantly altered or
      would significantly alter the bed or bank of any stream or lake? ☐ YES ☐ NO
      If YES, explain: Enlargement of existing Reservoir #2

      ☐ See Attachment No. ___
4. ENVIRONMENTAL DOCUMENTS
   a. Has any California public agency prepared an environmental document for your project? ☐ YES ☒ NO
      If YES, submit a copy of the latest environmental document(s) prepared, including a copy of the notice of
determination adopted by the California public agency. Public agency: ____________________________
   b. If NO, check the appropriate box and explain below, if necessary:
      ☐ The petitioner is a California public agency and will be preparing the environmental document.*
      ☒ I expect that the SWRCB will be preparing the environmental document.**
      ☐ I expect that a California public agency other than the State Water Resources Control Board will be preparing
      the environmental document.* Public agency: ____________________________

      ☐ See Attachment No. ___

      * Note: When completed, submit a copy of the final environmental document (including notice of
determination) or notice of exemption to the SWRCB, Division of Water Rights. Processing of your petition
      cannot proceed until these documents are submitted.

      ** Note: CEQA requires that the SWRCB, as Lead Agency, prepare the environmental document. The
      information contained in the environmental document must be developed by the petitioner and at the
      petitioner’s expense under the direction of the SWRCB, Division of Water Rights.

5. WASTE/WASTEWATER
   a. Will your project, during construction or operation, (1) generate waste or wastewater containing such things as
      sewage, industrial chemicals, metals, or agricultural chemicals, or (2) cause erosion, turbidity or sedimentation?
      ☐ YES ☒ NO
      If YES, or you are unsure of your answer, explain below and contact your local Regional Water
      Quality Control Board for the following information (See instruction booklet for address and telephone no.):

      ☐ See Attachment No. ___

   b. Will a waste discharge permit be required for your project? ☐ YES ☒ NO

3. Project Description

Petitioner recently purchased the subject property and proposes to develop additional lands within the Permitted place of use that were not developed by the previous owner. Petitioner also proposes to develop lands outside of the Permitted place of use. The total acreage requested for development is being increased from 50 acres to 53 acres.

Approximately 28 acres of vineyard have been developed by the previous land owner within the Permitted place of use and are currently irrigated by the three existing permitted reservoirs. The 25 acre proposed place of use consists of about 3 acres of existing vineyard and 22 acres of grasslands that will be developed in vineyard (see attached photos and map).

Petitioner also proposes to redistribute storage between the reservoirs at Points of Diversion #2 and #3. Reservoirs #2 and #3 are authorized for storage of 15 acre-feet each. As constructed Reservoir #2 holds 18 acre-feet and Reservoir #3 holds 1 acre-foot. Petitioner proposes to enlarge Reservoir #2 to 29 acre-feet and to maintain Reservoir #3 at 1 acre-foot. Existing Reservoir #1 holds 5 acre-feet as permitted and will not change. The total amount of water requested for diversion to storage under Permit 17837A (A 24868A) will remain at the 35 acre-feet authorized by the Permit.

All lands proposed for development are in cleared grassland areas and no tree removal is expected. Vineyard development will require the installation of water transmission, frost protection and irrigation systems. Petitioner understands that all impacts will be evaluated in the required environmental document pursuant to CEQA.
