ENVIRONMENTAL INFORMATION FOR PETITIONS

(This is not a CEQA Document)

APPLICATION NO. 28473 PERMIT NO. 19895 LICENSE NO.

The following information will aid in the environmental review of your change petition as required by the California Environmental Quality Act (CEQA). **In order for your change petition to be accepted as completed, answers to the questions listed below must be completed to the best of your ability.** Failure to answer all questions may result in your change petition being returned to you, causing delays in processing. If you need more space, attach additional sheets. Additional information may be required from you to amplify further or clarify the information requested in this form.

**Description of Changes to Project**

1. Provide a description of the proposed changes to your project, including but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, changes in land use, and project operational changes, including changes in how the water will be used.

Construction changes to the Lower Day Basin include:

| a. | Shaping of the basin floor and side walls |
| b. | Installation of two intermediate berms with slide gates |
| c. | Installation of pedestrian and vehicular access ramps |
| d. | New pipe headwalls and protective rip rap |
| e. | Rubber dam in Day Creek Channel, w/control house |
| f. | Inlet structure and diversion pipeline |
| g. | Flow measuring equipment, water depth measurement. |
GOVERNMENTAL REQUIREMENTS

Before a final decision can be made on your change petition, we must consider the information contained in an environmental document prepared in compliance with the requirements of CEQA. If an environmental document has been prepared for your proposed changes by another agency, we must consider it. If one has not been prepared, a determination must be made as to who is responsible for the preparation of the environmental document for your change petition. The following questions are designed to aid us in that determination.

2. Contact your county planning or public works department for the following information:
   a. Person contacted ___________________________ Date of contact ____________
      Department ___________________________ Telephone (____) _________
      SBC Flood Control District 387-7995
   b. Assessor's Parcel No. ___________________________
   c. County Zoning Designation ___________________________
   d. Are any county permits required for your proposed changes? Yes __________
      If yes, check appropriate space below:
      ______________ Grading Permit, F20040040 ______________ Use Permit, ______________ Watercourse
      ______________ Obstruction Permit, ______________ Change of Zoning, ______________ General Plan
      Change, Other (explain): SCADA system (P-12003078) ______________
      Construction Permits for Basins (P-12002068), Rubber Dam (P-12002137) ______________
   e. Have you obtained any of the required permits described above? Yes, see attached __________
      If yes, provide a complete copy of each permit obtained.

3. Are any additional state or federal permits required for your proposed changes? No __________ (i.e.,
   from Federal Energy Regulatory Commission, U.S. Forest Service, Bureau of Land Management,
   Soil Conservation Service, Department of Water Resources (Division of Safety of Dams),
   Reclamation Board, Coastal Commission, State Lands Commission, etc.) For each agency from
   which a permit is required provide the following information:

      Permit type ___________________________

      Person(s) contacted ___________________________ Agency ___________________________
      Date of contact ___________________________ Telephone (____) ___________________________

4. Has any public agency prepared an environmental document for any aspect of your proposed
   changes? Inland Empire Utilities Agency ___________________________

   If so, please submit a copy of the latest environmental document(s) prepared, including a copy of
   the notice of determination adopted by the public agency. If not, explain below whether you
   expect that a public agency other than the State Water Resources Control Board will be preparing
   an environmental document for your change petition or whether the applicant, if it is a California
   public agency, will be preparing the environmental document for your change petition:
1) Final Program Environmental Impact Report (500 + pp), available on request.

2) Notice of Determination, attached.

Note: When completed, please submit a copy of the final environmental document (including notice of determination) or notice of exemption to the State Water Resources Control Board. Processing of your change petition cannot proceed until such documents are submitted.

5. Will your proposed changes, during construction or operation, generate waste or wastewa ter containing such things as sewage, industrial chemicals, metals, or agricultural chemicals, or cause erosion, turbidity or sedimentation? No If so, explain: __________________________

If yes or you are unsure of your answer, contact your local Regional Water Quality Control Board for the following information (See attachment for address and telephone number):

Will a waste discharge permit be required for your petition? __________________________

Person contacted __________________________ Date of contact __________________________

What method of treatment and disposal will be used? __________________________

6. Have any archeological reports been prepared on this project, or will you be preparing an archeological report to satisfy another public agency? Yes Basic archeological inventory

Do you know of any archeological or historic sites located within the general project area? No If so, explain: __________________________

ENVIRONMENTAL SETTING

7. Attach THREE COMPLETE SETS of color photographs, clearly dated and labeled, showing the vegetation currently existing at the following locations:

No vegetation exists within concrete flood control channel or recharge basin.
a. Along the stream channel immediately downstream from the proposed point(s) of diversion
b. Along the stream channel immediately upstream from the proposed point(s) of diversion
c. At the place(s) where the water is to be used

Note: It is very important that you submit no less than three complete sets of photographs as required above. If less than three sets are submitted, processing of your change petition will be delayed until you furnish the remaining sets!

8. From the list given below, mark or circle the general plant community types which best describe those which occur within your project area (Note: See footnote denoted by * under Question 11 below):

Tree Dominated Communities
- Subalpine Conifer
- Red Fir
- Lodgepole Pine
- Mixed Conifer
  - Sierran Mixed Conifer
  - White Fir
  - Klamath Mixed Conifer
- Douglas-Fir
- Jeffrey Pine
- Ponderosa Pine
- Eastside Pine
- Redwood
- Pinyon-Juniper
- Juniper
- Aspen
- Closed-Cone Pine-Cypress
- Montane Hardwood-Conifer
- Montane Hardwood
- Valley Foothill Hardwood
  - Blue Oak Woodland
  - Valley Oak Woodland
  - Coastal Oak Woodland
- Valley Foothill Hardwood-Conifer
  - Blue Oak-Digger Pine
- Eucalyptus
- Montane Riparian
- Valley Foothill Riparian
- Desert Riparian
- Palm Oasis
- Joshua Tree

Shrub Dominated Communities
- Alpine Dwarf-Shrub
- Low Sage
- Bitterbrush
- Sagebrush
- Montane Chaparral
- Mixed Chaparral
- Chamise-Redshank Chaparral
- Coastal Scrub
- Desert Succulent Shrub
- Desert Wash
- Desert Scrub
- Alkali Desert Scrub

Herbaceous Dominated Communities
- Annual Grassland
- Perennial Grassland
- Wet Meadow
- Fresh Emergent Wetland
- Saline Emergent Wetland
- Pasture

Aquatic Communities
- Riverine
- Lacustrine
- Estuarine
- Marine

Developed Communities
- Cropland
- Orchard-Vineyard
- Urban

Literature source: Mayer, K.E., and W.F. Laudenslayer, Jr., (eds). 1988. A Guide to Wildlife Habitats of California. California Department of Forestry and Fire Protection, Sacramento. 166 pp. (Note: You may view a copy of this document at our public counter at the address given...
at the top of this form or you may purchase a copy by calling the California Department of Fish and Game, Wildlife Habitat Relationships (WHR) Program at (916) 653-7203.

9. Provide below an estimate of the type, number, and size (trunk/stem diameter at chest height) of trees and large shrubs that are planned to be removed or destroyed due to implementation of the proposed changes. Consider all aspects of your change petition, including changes in diversion structures, water distribution and use facilities, and changes in the place of use due to additional water development.

None

FISH AND WILDLIFE CONCERNS

10. Identify the typical species of fish which occur in the source(s) from which you propose to divert water and discuss whether or not any of these fish species or their habitat has been or would be affected by your proposed changes. (Note: See footnote denoted by * under Question 11 below):  

None

11. Identify the typical species of riparian and terrestrial wildlife in the area and discuss whether or not any of these species and/or their habitat has been or would be affected by your proposed changes through construction of additional water diversion and distribution works and/or changes in land use in the place of water use. (Note: See footnote denoted by * below):

The wildlife of the Upland shrub lands consists of a variety of reptiles, mammals, and birds characteristic of open areas and grasslands. Mammals include rodents, pocket gophers, ground squirrels, and coyotes. Of the 171 species of birds observed in 1984, 100 were
associated with riparian and open-water habitats. The construction of the new water diversion and recharge basins will occur in areas already extensively disturbed by prior construction of flood control facilities.

*Note: The purposes of Question 10 and 11 are to provide a preliminary assessment of the presence of typical plant and animal species in the area and whether these species might be affected by your proposed changes. Detailed site surveys to quantify populations of specific species or determine the presence of rare or endangered species may be required at a later date. It is very important that you answer these questions accurately. If you are unable to obtain appropriate answers from your local California Department of Fish and Game biologists (See attachment for address and telephone number) or you do not have adequate information or expertise to complete your answers, you should hire a fishery consultant and/or a wildlife consultant to review your project and prepare suitable answers for you. For information on available qualified fishery or wildlife consultants near you, consult your local telephone directory yellow pages under Environmental and Ecological Services, or call the California Environmental Protection Agency, Registered Environmental Assessor (REA) Program, at (916) 324-6881 or the University of California, Cooperative Extension Service (See your local telephone directory white pages).

12. Do your proposed changes involve any construction or grading-related activity which has significantly altered or would significantly alter the bed or bank of any stream or lake? No.
   
   If so, explain:

CERTIFICATION

I hereby certify that the statements I have furnished above and in the attached exhibits are complete to the best of my ability, and that the facts, statements, and information presented are true and correct to the best of my knowledge.

Date 4/30/04  Signature

San Bernardino, CA 92415-0835
(909) 387-7995 - FAX (909) 387-8043

PERMIT

Permit Issued: June 10, 2003  Permit Expires: June 10, 2004
File: 1-606/2.04  Permit No: P-12002068

Permittee: Inland Empire Utilities Agency
9400 Cherry Avenue, Building A
Fontana, CA 92335
Contact/Phone: Garth Morgan / (909) 357-0241
Water Resources Engineer

Permit Activity: Perform the following improvements for the purpose of Chino Basin groundwater recharge:
1) basin excavation and grading, 2) construct two berms with concrete and rock slope protection,
3) construct two 36-inch RCPs with gate inlets and appurtenances, and 4) remove existing 42-inch RCP inlet riser and replace with a 54-inch RCP inlet riser

Facility: Day Creek Basin Nos. 1 and 2
Location: South of Highland Avenue
City/Community: City of Ontario

Filing Fee: NO FEE
Inspection Fee: $2,000.00
(Nonrefundable) TOTAL: $2,000.00

1. The proposed permit activity shall be in accordance with the Plans (Exhibit "A"), and the Special, Standard and General Provisions, all of which are attached and made a part of this permit.

2. AT LEAST 48-HOURS NOTICE SHALL BE GIVEN TO THE DISTRICT BEFORE STARTING ANY WORK UNDER THIS PERMIT. Contact the District's inspector at (909) 387-8014; failure of notification is cause for revocation of this permit.

3. This permit, or a certified copy thereof, shall be kept at the job site throughout the period of operations within District right-of-way and shall be shown to any District Representative or any law enforcement officer upon demand. Exercise of this permit shall indicate acceptance of and agreement to comply with all provisions included herein. Violation of any provision shall be cause for immediate revocation of permit.

PERMITTEE'S ACCEPTANCE:
Signature by the Permittee or Permittee's Authorized Agent of this Permit shall indicate acceptance of all of the provisions of the permit.

DISTRICT APPROVAL:

[Signature]
KEN A. MILLER
Flood Control Engineer

cc: Fish and Game
FC Operations Supt
Inspector
SPECIAL PROVISIONS

1. The operation and maintenance of recharge facilities constructed under this permit shall be in accordance with Agreement for Operation and Maintenance of Facilities to Implement the Chino Basin Recharge Basin Master Plan, Agreement No. 03-0083, between the District, Inland Empire Utilities Agency, Chino Basin Water Conservation District and Chino Basin Watermaster approved by the Board of Supervisors of San Bernardino County on January 14, 2003. Should conflicts arise between the provisions of this permit and the provisions of the above referenced agreement on operation and maintenance matters, the provisions of the agreement shall govern.

STANDARD PROVISIONS

1. The term for construction completion of the permitted activity is one year. The District will coordinate an extension(s) to the permit construction term upon receipt of a completed Flood Control permit amendment application at least 30 days prior to the expiration date. Said extension(s) will not be unreasonably withheld.

2. No revisions to the approved plans for work within District right-of-way shall be made during construction without review, written approval and/or permit amendment from the District.

3. No floatable materials or stockpiling shall be maintained in the basin area, and equipment shall be kept out of the basin except when in use during working hours.

4. The existing access gates shall be locked after hours and on weekends by interlocking Permittee’s or contractor’s lock with the District’s lock to allow continued District access.

5. The proposed activity within District right-of-way shall be in compliance with all City ordinances for noise and operating hours.

6. An access gate with locks shall be installed, if needed, to control public access during the evenings and on weekends. The Permittee shall ensure that the gate remains locked at all times except when authorized access is required.

7. The Permittee shall not have exclusive use of the permitted area. The District may allow other Permittees access to the area to engage in other permitted activities.

8. All existing asphalt or concrete surfacing removed for the basin improvements shall be sawcut at the removal limits. Any settlement in the future shall be maintained by the Permittee.

9. Backfill in all areas having flood control facilities shall be similar to the existing material and shall not contain organic material, broken concrete or pavement, or other material unsuitable for compaction. All backfill shall be compacted to at least 90% relative density as determined by ASTM test Method D-1557, Method C and certified evidence thereof submitted. Compaction tests shall be performed at locations specified and to the satisfaction of the District.
All construction and material testing for facilities constructed within District right-of-way will be performed by the Permittee and/or Permittee's authorized agent and certified evidence thereof shall be furnished to the District at the Permittee's expense.

The Permittee will submit "Record Drawings" at the time of the final inspection.

No more than one-third of any flood control facility may be obstructed during the period October 15 to April 15, nor more than two-thirds of any facility may be obstructed during the remaining period. The term "obstruction" shall include all temporary or permanent structures, falsework, excavated material, and equipment connected with the construction. For the purpose of computing the area of an obstruction, dimensions shall be taken normal to the channel flow of the actual physical outline of the obstruction.

The inspection fee for this permit is based on the Schedule of Fees Ordinance No. 3820 (copy attached). Upon completion of the permitted activity, the District will compile all District costs as outlined on the Schedule of Fees. If the costs exceed $2,000, the Permittee will be billed for the overage and hereby agrees to pay such amount to the District. In the event that the costs are less than $2,000, the excess will be refunded to the Permittee.

Concrete for rock inlet and outlet structures, bottom controls, splash pad and other proposed structures shall be 560-B or C-3250.

Concrete mix designs shall be submitted to the District for review and approval at least 72 hours prior to concrete placement within District right-of-way.

All reinforcing steel shall conform to the requirements of ASTM A-615 and shall be Grade 60.

All structural concrete shall be 4000 psi with "A" gradation in all inverts and 4000 psi with "B" gradation for all walls.

No shotcrete or gunite concrete placement will be allowed within existing or future District right-of-way. All concrete structures shall be cast-in-place.

The Permittee shall provide to the District a point of contact and a schedule for discharge into the basin 30 days prior to any flows entering into the basin.

A modified concrete apron, attached herewith as Exhibit "B", shall be required around all above ground structures.

This permit will expire one year from the date of issuance. The District and Inland Empire Utilities Agency are parties to an agreement to continue water spreading activities after the permit expiration.

Should maintenance activities be required during construction, especially during the period of October 15 to April 15, the Permittee shall coordinate the permit activity with the District in accordance with Agreement for Operation and Maintenance of Facilities to Implement the Chino Basin Recharge Basin Master Plan, Agreement No. 03-00-0005.
23. Permittee shall be responsible for security and surveillance of the areas used for ponding, conveying, and spreading of imported water when water is present. Permittee may employ guards for this purpose.

GENERAL PROVISIONS

1. Exercise of this permit, by Permittee or Permittee’s authorized agent, shall indicate acceptance of all of the provisions of this permit. Permittee shall make all contractors doing work on this project familiar with all of the requirements of this permit. Violation of any provisions of this permit shall be cause for immediate revocation of the permit.

2. INSURANCE - This permit shall not become valid until the Certificate of Insurance has been completed by your contractor's insurance company and approved by the Flood Control District. If the permit activity is to be completed by Permittee's forces, the Certificate of Insurance shall be completed by Permittee's insurance company and approved by the Flood Control District.

3. The Permittee shall indemnify and hold the District and all officers, employees and agents of said public body free and harmless from any and every claim, demand or action for damages, or injury to any person or persons or property of any kind whatsoever, and any cost or expense in connection therewith, and agrees to defend the Flood Control District, the County of San Bernardino, and all officers, employees and agents of said public body against any claims or demands which may arise out of or result from Permittee's construction, operation, use or activities on District right-of-way.

4. A copy of this permit will be sent to the State Department of Fish and Game, who may require a permit for this type of activity. It is the responsibility of the Permittee to obtain any required permits and approvals prior to starting any activity authorized in the permit. State Department of Fish and Game may be contacted at the address below.

   Department of Fish and Game
   Attn: Environmental Services
   330 Golden Shore Drive, Suite 50
   Long Beach, CA 90802
   (562) 590-5126

   A completely executed copy of the State Department of Fish and Game permit shall be kept at the permit site at all times while work is being performed. Permittee shall make all contractors doing work on this project familiar with all of the requirements of the State Department of Fish and Game permit.

5. Prior to beginning any activity authorized in this permit, the Permittee and/or Permittee's authorized agent, shall notify Underground Service Alert (USA) at 1-800-422-4133 at least 48 hours in advance to coordinate the permit activity on District right-of-way.

6. In accepting this permit, the Permittee agrees to replace any existing improvements which may include but not be limited to access road pavement, irrigation pipelines, chain link fencing and landscaping with acceptable products, installed to size, line and grade as the existing products removed and as approved by the District.

7. Work done in the absence of prescribed inspection may be required to be removed and replaced under the proper inspection, the entire cost of removal and replacement, including the cost of all materials used in the work thus removed, shall be borne by the Permittee, regardless of whether the work removed is found to be defective or not. Work covered up without the authority of the District, shall upon order of the District, be uncovered to the extent required, and the Permittee shall bear the entire cost of performing all the work and furnishing all the equipment and materials necessary for the removal and subsequent replacement of the covering, as directed by the District.

8. Should construction activities be required during the period October 15 to April 15, work shall be undertaken within a 5-day clear weather forecast. Permittee shall maintain and provide for a flood watch when storm conditions threaten, and have personnel and equipment available on a 24-hour schedule and provide the District with the names and after-hours phone numbers of responsible supervisory personnel.
Any survey monuments which will be disturbed or destroyed shall be located, referenced and a corner record filed with the County Surveyor prior to the start of construction. The monuments shall be reset in a surface of the new construction, with a suitable monument box placed thereon, or set with permanent witness monuments. A corner record shall be filed with the County Surveyor for reset of monuments and evidence submitted prior to finalizing the permit. All work shall be performed under the direction of a licensed land surveyor or registered civil engineer at the expense of the Permittee.

Access to the District's levees, channels and patrol roads shall remain open and free to vehicular traffic at all times. Alternate access to the facilities shall be provided when existing access is severed or impaired. Permittee must prevent the public or unauthorized persons from entering the construction area or the District's right-of-way.

The Permittee shall perform, at Permittee's own expense, all construction surveying and engineering necessary to control construction to limits defined in the Plans and Exhibit "A". The construction surveying and engineering will be performed to the District's satisfaction.

Permittee shall, at all times, exercise proper dust control and dust abatement.

At any time during the life of this permit, the District may revise, modify or add provisions to this permit as may be required to meet the flood control, water conservation and safety responsibilities of the District.

The location of any temporary construction roadways or ramps which the Permittee may wish to build within District right-of-way shall be subject to the approval of the District. Roads shall be constructed so as to wash out during any appreciable flows.

This permit is valid only to the extent of the Flood Control District's jurisdiction. Permits or other approvals required by other cognizant agencies or underlying fee owners of District easement lands shall be the responsibility of the Permittee. Nothing contained in this permit shall be construed as a relinquishment of any rights now held by the Flood Control District.

If the Permittee should refuse or neglect to comply with the provisions of the permit, or the orders of the District, the District may have such provisions or orders carried out by others at the expense of the Permittee.

If the Permittee fails to comply with any obligation contained herein, Permittee shall be liable to the District for any administrative expenses and attorney's fees incurred in obtaining compliance with this permit and any such expenses and fees incurred in processing any action for damages or for any other remedies permitted by law.

No part of the activities authorized under this permit shall be accepted in phases. All work within District right-of-way must be completed prior to District acceptance of improvements within District right-of-way.

At the completion of the construction activities, the area shall be cleaned, graded and dressed to the satisfaction of the District. A joint inspection (Permittee/District) shall be made to determine if the work has been completed in accordance with permit requirements.

This permit is valid only for the purpose specified herein. All proposed changes shall be submitted, in writing, for District review and approval.

Activities under this Permit are subject to any instructions of the Flood Control Engineer or his representative. ALL INSTRUCTIONS MUST BE STRICTLY OBSERVED.

District activities shall take precedence at all times and, when any work or activity must be performed to carry out the functions and purposes of the District, Permittee must allow same to be done without interference.

Any damage caused to District facilities or structures by reason of the exercise of the Permit shall be repaired at the cost of the Permittee to the satisfaction of the District. Permittee will be billed for the actual cost to the District should Permittee neglect to make such repairs promptly.
Any District right-of-way monuments that are removed, disturbed, or destroyed as a result of activity under permit will be replaced by the District. Permittee will be billed and agrees to immediately pay all costs of such replacement.

Unless otherwise specified herein, this permit is subject to all prior permits, agreements, easements, privileges or other rights, whether recorded or unrecorded, in the area specified in this permit. Permittee shall make his own arrangements with holders of such prior rights.

The permitted activities shall be in accordance with:

a. The San Bernardino County Department of Public Works, Transportation and Flood Control Standard Specifications, available at the Department of Public Works, 825 E. Third Street, San Bernardino, California; and
b. all applicable provisions of the "Construction and Safety Orders" issued by the State Division of Industrial Safety and "Manual of Accident Prevention in Construction" issued by the Associated General Contractors, Inc.

All work associated with the activities authorized under this permit shall conform with all Cal-OSHA requirements. Prior to any shoring activity, the Permittee or Permittee's authorized agent shall submit shoring plans, signed and approved by a registered engineer, and copies of required permits.

It shall be the responsibility of the Permittee and/or the Permittee's authorized agent to insure that all personnel performing work authorized under this permit are adequately trained and have appropriate safety gear and equipment before entering any confined spaces.

The Permittee shall comply with the District's Stormwater Ordinance 3588 and all applicable National Pollutant Discharge Elimination System (NPDES) requirements to reduce or eliminate pollution of stormwater discharges into waters of the United States. In this regard, the Permittee shall utilize best management practices in the operation and storage of equipment, machinery, fuels, etc., to prevent any pollutants from being discharged into any storm drain and/or channel systems. In addition, pollutants (including sediment) generated as a result of the activity authorized by this permit shall not be discharged into the drainage system.

Should future activities of the Corps of Engineers and/or the District so require, the Permittee shall, at Permittee's expense, relocate all or any part of the subject works as so required.

The District will consider time extensions to the permit upon receipt of a written request from the Permittee thirty (30) days prior to expiration.

The area disturbed by permitted activities shall be kept to minimum and shall be limited to that area actually being worked.

No nuisance shall be allowed on any of the premises and the Permittee shall exercise diligence in precluding any dumping operations in the area by patrolling or installing barriers to deter unauthorized access when the premises are not supervised.

Any unauthorized structure or portions thereof placed on District right-of-way or which affect District structures, must be removed by Permittee without cost to the District.

Violation of any provision contained therein, without written consent of the District, shall be cause for immediate revocation of this permit after written notice to the Permittee of any violation not remedied within thirty (30) days following said written notice.

Upon cancellation or revocation of this permit, for any cause whatsoever, Permittee shall immediately cease all activities authorized hereunder, shall restore District right-of-way, structures and facilities to the satisfaction of the District, and shall vacate the District's premises. Should Permittee neglect to restore the premises, structures and facilities to a condition satisfactory to the District, the District will perform such work and Permittee agrees to reimburse the District for all actual costs of work performed.
37. If the permit term is extended, an annual inspection fee shall be due each year on the anniversary date of the permit. The annual inspection fee shall be based on the District's current Schedule of Fees Ordinance in effect on the anniversary date of the permit.

38. It is expressly understood that the area involved under this permit is subject to inundation from storm, flood and/or conservation flows at any time, and that the District shall not, in any way, be obligated to afford protection against said flows, or to assume any cost for damages. The District reserves the right to divert any storm or flood flows upon any land under this permit any time, and no diversion of such shall be made by the Permittee without the consent of the District.

39. All concrete shall conform to Section 201-1 of the Standard Specification for Public Works Construction, latest edition, unless otherwise specified in this permit. Curing compound shall conform to the provisions of Section 201-4.1 of the Standard Specifications for Public Works Construction, latest edition, Type 1-clear or translucent with red fugitive dye.

Title: Flood Control Engineer
1. The operation and maintenance of recharge facilities constructed under this permit shall be in accordance with Agreement and Operation and Maintenance of Facilities to Implement the Chino Basin Recharge Basin Master Plan, Agreement No. 03-0083 between the District, Inland Empire Utilities Agency, Chino Basin Water Conservation District and Chino Basin Watermaster approved by the Board of Supervisors of San Bernardino County on January 14, 2003. Should conflicts arise between the provisions of this permit and the provisions of the above referenced agreement on operation and maintenance matters, the provisions of the agreement shall govern.

**STANDARD PROVISIONS**

1. **The term for construction completion of the permitted activity is one year.** The District will coordinate an extension(s) to the permit construction term upon receipt of a completed Flood Control permit amendment application at least 30 days prior to the expiration date. Said extension(s) will not be unreasonably withheld.

2. No revisions to the approved plans shall be made during construction without review, written approval and/or permit amendment from the District.

3. No floatable materials or stockpiling shall be maintained within District right-of-way, and equipment shall be kept out of District right-of-way except when in use during working hours.

4. The existing access gates shall be locked after hours and on weekends by interlocking Permittee’s lock with the District’s lock to allow District access.

5. The proposed activity within District right-of-way shall be in compliance with all City ordinances for noise and operating hours.

6. An access gate with locks shall be installed, if needed, to control public access during the evenings and on weekends. The Permittee shall ensure that the gate remains locked at all times except when authorized access is required.

7. The Permittee shall not have exclusive use of the permitted area. The District may allow other Permittees access to the area to engage in permitted activities.

8. All existing asphalt or concrete surfacing removed for the basin improvements shall be sawcut at the removal limits. Any settlement in the future shall be maintained by the Permittee.

9. Backfill in all areas having flood control facilities shall be similar to the existing material and shall not contain organic material, broken concrete or pavement, or other material unsuitable for compaction. All backfill shall be compacted to at least 90% relative density as determined by ASTM test Method D-1557, Method C and certified evidence thereof submitted. Compaction tests shall be performed at locations specified and to the satisfaction of the District.

10. All construction and material testing for facilities constructed within District right-of-way will be performed by the Permittee and/or Permittee’s authorized agent and certified evidence thereof shall be furnished to the District at the Permittee’s expense.

11. The Permittee will submit "Record Drawings" at the time of the final inspection.
12. No more than one-third of any flood control facility may be obstructed during the period October 15 to April 15, nor more than two-thirds of any facility may be obstructed during the remaining period. The term "obstruction" shall include all temporary or permanent structures, falsework, excavated material, and equipment connected with the construction. For the purpose of computing the area of an obstruction, dimensions shall be taken normal to the channel flow of the actual physical outline of the obstruction.

13. The inspection fee for this permit is based on the Schedule of Fees Ordinance No. 3820 (copy attached). Upon completion of the permitted activity, the District will compile all District costs as outlined on the Schedule of Fees. In the event that the costs exceed $3,000, the Permittee will be billed for the overage and hereby agrees to pay such amount to the District. In the event that the costs are less than $3,000, the excess will be refunded to the Permittee.

14. Concrete for rock inlet and outlet structures, bottom controls, splash pad and other proposed structures shall be 560-B or C-3250.

15. Concrete mix designs shall be submitted to the District for review and approval at least 72 hours prior to concrete placement within District right-of-way.

16. All reinforcing steel shall conform to the requirements of ASTM A-615 and shall be Grade 60.

17. All structural concrete shall be 4000 psi with "A" gradation in all inverts and 4000 psi with "B" gradation for all walls.

18. No shotcrete or gunite concrete placement will be allowed within existing or future District right-of-way. All concrete structures shall be cast-in-place.

19. The Permittee shall provide to the District a point of contact and a schedule for discharge into the basin or channel 30 days prior to any flows entering into the basin or channel.

20. A modified concrete apron, attached herewith as Exhibit "B", shall be required around all above ground structures.

21. This permit will expire one year from the date of issuance. It is the intent of the District and Inland Empire Utilities Agency to enter into an agreement to continue water spreading activities after the permit expiration.

22. At any time during the life of this permit, the District may revise, modify or add provisions to this permit as may be required to meet the flood control, water conservation and safety responsibilities of the District.

23. Either the District or Permittee may terminate this permit by giving the other party sixty days written notice of its election to terminate.

24. Permittee shall be responsible for security and surveillance of the areas used for ponding, conveying and spreading of imported water. Permittee may employ guards for this purpose.

25. Should maintenance activities be required during construction, especially during the period of October 15 to April 15, the Permittee shall coordinate the permit activity with the District in accordance with the Agreement and Operation and Maintenance of Facilities to Implement the Chino Basin Recharge Basin Master Plan, Agreement No. 03-0083.
GENERAL PROVISIONS

1. Exercise of this permit, by Permittee or Permittee's authorized agent, shall indicate acceptance of all of the provisions of this permit. Permittee shall make all contractors doing work on this project familiar with all of the requirements of this permit. Violation of any provisions of this permit shall be cause for immediate revocation of the permit.

2. INSURANCE - This permit shall not become valid until the Certificate of Insurance has been completed by your contractor's insurance company and approved by the Flood Control District. If the permit activity is to be completed by Permittee's forces, the Certificate of Insurance shall be completed by Permittee's insurance company and approved by the Flood Control District.

3. The Permittee shall indemnify and hold the District and all officers, employees and agents of said public body free and harmless from any and every claim, demand or action for damages, or injury to any person or persons or property of any kind whatsoever, and any cost or expense in connection therewith, and agrees to defend the Flood Control District, the County of San Bernardino, and all officers, employees and agents of said public body against any claims or demands which may arise out of or result from Permittee's construction, operation, use or activities on District right-of-way.

4. A copy of this permit will be sent to the State Department of Fish and Game, who may require a permit for this type of activity. It is the responsibility of the Permittee to obtain any required permits and approvals prior to starting any activity authorized in the permit. State Department of Fish and Game may be contacted at the address below.

Department of Fish and Game
Attn: Environmental Services
330 Golden Shore Drive, Suite 50
Long Beach, CA 90802
(562) 590-5126

A completely executed copy of the State Department of Fish and Game permit shall be kept at the permit site at all times while work is being performed. Permittee shall make all contractors doing work on this project familiar with all of the requirements of the State Department of Fish and Game permit.

5. Prior to beginning any activity authorized in this permit, the Permittee and/or Permittee's authorized agent, shall notify Underground Service Alert (USA) at 1-800-422-4133 at least 48 hours in advance to coordinate the permit activity on District right-of-way.

6. In accepting this permit, the Permittee agrees to replace any existing improvements which may include but not be limited to access roads, pavement, irrigation pipelines, chain link fencing and landscaping with acceptable products, installed to size, line and grade as the existing products removed and as approved by the District.

7. Work done in the absence of prescribed inspection may be required to be removed and replaced under the proper inspection, the entire cost of removal and replacement, including the cost of all materials used in the work thus removed, shall be borne by the Permittee, regardless of whether the work removed is found to be defective or not. Work covered up without the authority of the District, shall upon order of the District, be uncovered to the extent required, and the Permittee shall bear the entire cost of performing all the work and furnishing all the equipment and materials necessary for the removal and subsequent replacement of the covering, as directed by the District.

8. Should installation or maintenance activities be required during the period October 15 to April 15, work shall be undertaken within a 5-day clear weather forecast. Permittee shall maintain and provide for a flood watch when storm conditions threaten, and have personnel and equipment available on a 24-hour schedule and provide the District with the names and after-hours phone numbers of responsible supervisory personnel.

9. Any survey monuments which will be disturbed or destroyed shall be located, referenced and a corner record filed with the County Surveyor prior to the start of construction. The monuments shall be reset in a surface of the new construction, with a suitable monument box placed thereon, or set with permanent witness monuments. A corner record shall be filed with the County Surveyor for reset of monuments and evidence submitted prior to finalizing the permit. All work shall be performed under the direction of a licensed land surveyor or registered civil engineer at the expense of the Permittee.

10. Access to the District's levees, channels and patrol roads shall remain open and free to vehicular traffic at all times. Alternate access to the facilities shall be provided when existing access is severed or impaired. Permittee must prevent the public or unauthorized persons from entering the construction area or the District's right-of-way.
11. The Permittee shall perform at Permittee’s own expense, all construction, surveying and engineering necessary to control construction to limits defined in the Plans and Exhibit "A". The construction surveying and engineering will be performed to the District’s satisfaction.

12. Permittee shall, at all times, exercise proper dust control and dust abatement.

13. At any time during the life of this permit, the District may revise, modify or add provisions to this permit as may be required to meet the flood control, water conservation and safety responsibilities of the District.

14. The location of any temporary construction roadways or ramps which the Permittee may wish to build within District right-of-way shall be subject to the approval of the District. Roads shall be constructed so as to wash out during any appreciable flows.

15. This permit is valid only to the extent of the Flood Control District’s jurisdiction. Permits or other approvals required by other cognizant agencies or underlying fee owners of District easement lands shall be the responsibility of the Permittee. Nothing contained in this permit shall be construed as a relinquishment of any rights now held by the Flood Control District.

16. If the Permittee should refuse or neglect to comply with the provisions of the permit, or the orders of the District, the District may have such provisions or orders carried out by others at the expense of the Permittee.

17. If the Permittee fails to comply with any obligation contained herein, Permittee shall be liable to the District for any administrative expenses and attorney’s fees incurred in obtaining compliance with this permit and any such expenses and fees incurred in processing any action for damages or for any other remedies permitted by law.

18. No part of the activities authorized under this permit shall be accepted in phases. All work within District right-of-way must be completed prior to District acceptance of improvements within District right-of-way.

19. At the completion of the construction activities, the area shall be cleaned, graded and dressed to the satisfaction of the District. A joint inspection (Permittee/District) shall be made to determine if the work has been completed in accordance with permit requirements.

20. This permit is valid only for the purpose specified herein. All proposed changes shall be submitted, in writing, for District review and approval.

21. Activities under this Permit are subject to any instructions of the Flood Control Engineer or his representative. ALL INSTRUCTIONS MUST BE STRICTLY OBSERVED.

22. District activities shall take precedence at all times and, when any work or activity must be performed to carry out the functions and purposes of the District, Permittee must allow same to be done without interference.

23. Any damage caused to District facilities or structures by reason of the exercise of the Permit shall be repaired at the cost of the Permittee to the satisfaction of the District. Permittee will be billed for the actual cost to the District should Permittee neglect to make such repairs promptly.

24. Any District right-of-way monuments that are removed, disturbed, or destroyed as a result of activity under permit will be replaced by the District. Permittee will be billed and agrees to immediately pay all costs of such replacement.

25. Unless otherwise specified herein, this permit is subject to all prior permits, agreements, easements, privileges or other rights, whether recorded or unrecorded, in the area specified in this permit. Permittee shall make his own arrangements with holders of such prior rights.

26. The permitted activities shall be in accordance with:

a. The San Bernardino County Department of Public Works, Transportation and Flood Control Standard Specifications, available at the Department of Public Works, 825 E. Third Street, San Bernardino, California; and

b. all applicable provisions of the "Construction and Safety Orders" issued by the State Division of Industrial Safety and "Manual of Accident Prevention in Construction" issued by the Associated General Contractors, Inc.

27. All work associated with the activities authorized under this permit shall conform with all Cal-OSHA requirements. Prior to any shoring activity, the Permittee or Permittee's authorized agent shall submit shoring plans, signed and approved by a registered engineer, and copies of required permits.
28. It shall be the responsibility of the Permittee and/or the Permittee's authorized agent to insure that all personnel performing work authorized hereunder are adequately trained and have appropriate safety gear and equipment before entering any confined space.

29. The Permittee shall comply with the District's Stormwater Ordinance 3588 and all applicable National Pollutant Discharge Elimination System (NPDES) requirements to reduce or eliminate pollution of stormwater discharges into waters of the United States. In this regard, the Permittee shall utilize best management practices in the operation and storage of equipment, machinery, fuels, etc., to prevent any pollutants from being discharged into any storm drain and/or channel systems. In addition, pollutants (including sediment) generated as a result of the activity authorized by this permit shall not be discharged into the drainage system.

30. Should future activities of the Corps of Engineers and/or the District so require, the Permittee shall, at Permittee's expense, relocate all or any part of the subject works as so required.

31. The District will consider time extensions to the permit upon receipt of a written request from the Permittee 30 days prior to expiration.

32. The area disturbed by permitted activities shall be kept to minimum and shall be limited to that area actually being worked.

33. No nuisance shall be allowed on any of the premises and the Permittee shall exercise diligence in precluding any dumping operations in the area by patrolling or installing barriers to deter unauthorized access when the premises are not supervised.

34. Any unauthorized structure or portions thereof placed on District right-of-way or which affect District structures, must be removed by Permittee without cost to the District.

35. Violation of any provision contained herein, without written consent of the District, shall be cause for immediate revocation of this permit after written notice to the Permittee of any violation not remedied within 30 days following said written notice.

36. Upon cancellation or revocation of this permit, for any cause whatsoever, Permittee shall immediately cease all activities authorized hereunder, shall restore District right-of-way, structures and facilities to the satisfaction of the District, and shall vacate the District's premises. Should Permittee neglect to restore the premises, structures and facilities to a condition satisfactory to the District, the District will perform such work and Permittee agrees to reimburse the District for all actual costs of work performed.

37. If the permit term is extended, an annual inspection fee shall be due each year on the anniversary date of the permit. The annual inspection fee shall be based on the District's current Schedule of Fees Ordinance in effect on the anniversary date of the permit.

38. It is expressly understood that the area involved under this permit is subject to inundation from storm, flood and/or conservation flows at any time, and that the District shall not, in any way, be obligated to afford protection against said flows, or to assume any cost for damages. The District reserves the right to divert any storm or flood flows upon any land under this permit any time, and no diversion of such shall be made by the Permittee without the consent of the District.

39. All concrete shall conform to Section 201-1 of the Standard Specification for Public Works Construction, latest edition, unless otherwise specified in this permit. Curing compound shall conform to the provisions of Section 201-4.1 of the Standard Specifications for Public Works Construction, latest edition, Type 1-clear or translucent with red fugitive dye.

Rev. 12/00
April 15, 2003

Permittee: Inland Empire Utilities Agency
9400 Cherry Avenue, Building A
Fontana, CA 92335
Attention: Garth Morgan
Water Resources Engineer

Permit Activity: Perform the following improvements for the purpose of the Chino Basin Groundwater Recharge: 1) Install a rubber dam, 2) construct a control house and 3) a gated 36-inch RCP turnout structure

Facilities: Day Creek Channel and Day Creek Basin No. 1
Location: South of Highland Avenue
City/Community: City of Rancho Cucamonga

File: 1-601, 1-606/2.04
Permit No: P-12002137

The District has reviewed your request and can recommend a permit for this activity after the following comments have been addressed:

1. Indicate how to protect the rubber dam from being damaged by District equipment driving over the deflated dam. The rubber dam shall be able to handle H2O loading.

2. Written confirmation from Southern California Edison is required for clearance underneath the power lines prior to construction within their easement area.

3. Existing channel improvements at Day Creek Channel (i.e., fencing, access road, etc.) shall be shown on the plans.

4. Per your response, indicate on the plans that the gate will be electronically activated and connected to the SCADA system.

5. Provide area dimensions for the proposed control house on the plans. The control house shall be located as to not interfere with routine District maintenance activities for the channel. The District requires a minimum of 20-foot drivable width between the control house and the channel.

6. Remit the inspection fee in the amount of $3,000. Please make your check payable to San Bernardino County Flood Control District and reference the above permit and file numbers. Attached for your use is the District’s Permit Fee Schedule No. 3820.

7. As noted in previous review comments, provide all necessary environmental approvals for District review.

Wally Hill
8. Prior to starting any work within District right-of-way, the attached certificate of insurance form shall be completed by your contractor and submitted to the District for review and approval. If an Acord form is used in lieu of the attached certificate of insurance form, the above permit and file numbers must be referenced on the form and both San Bernardino County and San Bernardino County Flood Control District need to be named as additional insured.

9. Four sets of signed and approved plans incorporating comment nos. 1, 3, 4 and 5 above are required for permit issuance.

10. A preconstruction meeting is required between the Permittee or the Permittee's authorized representative and the District's inspector to discuss any District concerns prior to the issuance of the permit. Please contact Larry Brock at (909) 387-8014 to schedule the meeting.

11. Two copies of the permit are attached for signature by Permittee or Permittee's authorized agent. The appropriate individual shall sign, date and return both copies to the District for processing by the approving authority. The permit is not valid until both copies have been signed and formally issued by the District with all applicable exhibits.

If you have any questions regarding the above, please contact the undersigned at (909) 387-7995.

Sincerely,

KENNETH C. EKE, P.E., Chief
Flood Control Operations Division

DESCRIPTION OF OPERATIONS/LOCATIONS/VEHICLES/EXCLUSIONS ADDED BY ENDORSEMENTS/SPECIAL PROVISIONS
The Certificate Holder is named as an additional insured with respects to Permit Nos. P-199256, P-12002137 (Lower Day Creek Channel and Day Creek Basin No. 1), P-12002138 (Dadez Channel), 12002139 (Cucamonga Channel, C/E, and Turner Basin No. 1), and P-12021067 (Turner Basin Nos. 3, 4, and 5)

IMPORTANT
If the certificate holder is an ADDITIONAL INSURED, the policy(ies) must be endorsed. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s). If SUBROGATION IS WAIVED, subject to the terms and conditions of the policy, certain policies may require an endorsement. A statement on this certificate does not confer rights to the certificate holder in lieu of such endorsement(s).

DISCLAIMER
The Certificate of Insurance on this form does not constitute a contract between the issuing insurer(s), authorized representative or producer, and the certificate holder, nor does it affirmatively or negatively amend, extend or alter the coverage afforded by the policies listed herein.

CERTIFICATE HOLDER
San Bernardino County Flood Control Agency and County of San Bernardino
825 East Third Street
San Bernardino, CA 92415-0835
Attn: Flood Control Permit Section

CANCELLATION
SHOULD ANY OF THE ABOVE DESCRIBED POLICIES BE CANCELLED BEFORE THE EXPIRATION DATE THEREOF, THE ISSUING COMPANY WILL ENDEAVOR TO MAIL 30 DAYS WRITTEN NOTICE TO THE CERTIFICATE HOLDER NAMED TO THE LEFT, BUT FAILURE TO DO SO SHALL IMPOSE NO OBLIGATION OR LIABILITY OF ANY KIND UPON THE COMPANY, ITS AGENTS OR REPRESENTATIVES.

AUTHORIZED REPRESENTATIVE

Linda Lum
It is hereby agreed that Waiver of Subrogation number 8 is deleted in its entirety and replaced with the following:

Waiver of Subrogation

In consideration of the premium charged, the Company agrees that the Insured may, prior to an occurrence for Bodily Injury or Occupational Disease, waive their right to recovery from the following:

Chino Basin Water Conservation District
San Bernardino County Flood Control District

Nothing herein contained shall vary, alter, waive or extend any of the terms, representations, conditions or agreements of the policy other than as above stated.

Attached to and forming a part of Policy No. H35-0401989 of the Insurance Corporation of Hannover

**DISTRICT APPROVAL:**  
**Signature:** Patrick J. Mead  
Interim Flood Control Engineer
1. The operation and maintenance of recharge facilities constructed under this permit shall be in accordance with Agreement for Operation and Maintenance of Facilities to Implement the Chino Basin Recharge Basin Master Plan, Agreement No. 03-0083 between the District, Inland Empire Utilities Agency, Chino Basin Water Conservation District and Chino Basin Watermaster approved by the Board of Supervisors of San Bernardino County on January 14, 2003. Should conflicts arise between the provisions of this permit and the provisions of the above referenced agreement on operation and maintenance matters, the provisions of the agreement shall govern.

2. All above ground structures installed for the SCADA system within District right-of-way shall be field coordinated in areas where they will not impede District personnel or equipment.

3. The minimum depth of cover for any underground utilities installed within District right-of-way shall be 36-inches.

4. All overhead utilities shall have a minimum of 25-feet of vertical clearance.

**STANDARD PROVISIONS**

1. The term for construction completion of the permitted activity is one year. The District will coordinate an extension(s) to the permit construction term upon receipt of a completed Flood Control permit amendment application at least 30 days prior to the expiration date. Said extension(s) will not be unreasonably withheld.

2. No revisions to the approved plans for work within District right-of-way shall be made during construction without review, written approval and/or permit amendment from the District.

3. No floatable materials or stockpiling shall be maintained within District right-of-way, and equipment shall be kept out of District right-of-way except when in use during working hours.

4. The existing access gates shall be locked after hours and on weekends by interlocking Permittee’s or contractor’s lock with the District’s lock to allow continued District access.

5. The proposed activity within District right-of-way shall be in compliance with all County ordinances for noise and operating hours.

6. An access gate with locks shall be installed, if needed, to control public access during the evenings and on weekends. The Permittee shall ensure that the gate remains locked at all times except when authorized access is required.

7. The Permittee shall not have exclusive use of the permitted area. The District may allow other Permittees access to the area to engage in other permitted activities.

8. All existing asphalt or concrete surfacing removed for the installation of the SCADA system shall be sawcut at the removal limits. Any settlement in the future shall be maintained by the Permittee.
1. Exercise of this permit, by Permittee or Permittee’s authorized agent, shall indicate acceptance of all of the provisions of this permit. Permittee shall make all contractors doing work on this project familiar with all of the requirements of this permit. Violation of any provisions of this permit shall be cause for immediate revocation of the permit.

2. **INSURANCE** - This permit shall not become valid until the Certificate of Insurance has been completed by your contractor’s insurance company and approved by the Flood Control District. If the permit activity is to be completed by Permittee’s forces, the Certificate of Insurance shall be completed by Permittee’s insurance company and approved by the Flood Control District.

3. The Permittee shall indemnify and hold the District and all officers, employees and agents of said public body free and harmless from any and every claim, demand or action for damages, or injury to any person or persons or property of any kind whatsoever, and any cost or expense in connection therewith, and agrees to defend the Flood Control District, the County of San Bernardino, and all officers, employees and agents of said public body against any claims or demands which may arise out of or result from Permittee’s construction, operation, use or activities on District right-of-way.

4. A copy of this permit will be sent to the State Department of Fish and Game, who may require a permit for this type of activity. It is the responsibility of the Permittee to obtain any required permits and approvals prior to starting any activity authorized in the permit. State Department of Fish and Game may be contacted at the address below.

   Department of Fish and Game  
   Attn: Environmental Services  
   330 Golden Shore Drive, Suite 50  
   Long Beach, CA 90802  
   (562) 590-5126

A completely executed copy of the State Department of Fish and Game permit shall be kept at the permit site at all times while work is being performed. Permittee shall make all contractors doing work on this project familiar with all of the requirements of the State Department of Fish and Game permit.

5. Prior to beginning any activity authorized in this permit, the Permittee and/or Permittee’s authorized agent, shall notify Underground Service Alert (USA) at 1-800-422-4133 at least 48 hours in advance to coordinate the permit activity on District right-of-way.

6. In accepting this permit, the Permittee agrees to replace any existing improvements which may include but not be limited to access road pavement, irrigation pipelines, chain link fencing and landscaping with acceptable products, installed to size, line and grade as the existing products removed and as approved by the District.

7. Work done in the absence of prescribed inspection may be required to be removed and replaced under the proper inspection, the entire cost of removal and replacement, including the cost of all materials used in the work thus removed, shall be borne by the Permittee, regardless of whether the work removed is found to be defective or not. Work covered up without the authority of the District, shall upon order of the District, be uncovered to the extent required, and the Permittee shall bear the entire cost of performing all the work and furnishing all the equipment and materials necessary for the removal and subsequent replacement of the covering, as directed by the District.

8. Should construction activities be required during the period October 15 to April 15, work shall be undertaken within a 5-day clear weather forecast. Permittee shall maintain and provide for a flood watch when storm conditions threaten, and have personnel and equipment available on a 24-hour schedule and provide the District with the names and after-hours phone numbers of responsible supervisory personnel.

9. Any survey monuments which will be disturbed or destroyed shall be located, referenced and a corner record filed with the County Surveyor prior to the start of construction. The monuments shall be reset in a surface of the new construction, with a suitable monument box placed thereon, or set with permanent witness monuments. A corner record shall be filed with the County Surveyor for reset of monuments and evidence submitted prior to finalizing the permit. All work shall be performed under the direction of a licensed land surveyor or registered civil engineer at the expense of the Permittee.
Access to the District levees, channels and patrol roads shall remain open and free to vehicular traffic at all times. Alternate access to the facilities shall be provided whenever access is severed or impaired. Permittee must prevent the public or unauthorized persons from entering the construction area or the District's right-of-way.

The Permittee shall perform, at Permittee's own expense, all construction surveying and engineering necessary to control construction to limits defined in the Plans and Exhibit "A". The construction surveying and engineering will be performed to the District's satisfaction.

Permittee shall, at all times, exercise proper dust control and dust abatement.

At any time during the life of this permit, the District may revise, modify or add provisions to this permit as may be required to meet the flood control, water conservation and safety responsibilities of the District.

The location of any temporary construction roadways or ramps which the Permittee may wish to build within District right-of-way shall be subject to the approval of the District. Roads shall be constructed so as to wash out during any appreciable flows.

This permit is valid only to the extent of the Flood Control District's jurisdiction. Permits or other approvals required by other cognizant agencies or underlying fee owners of District easement lands shall be the responsibility of the Permittee. Nothing contained in this permit shall be construed as a relinquishment of any rights now held by the Flood Control District.

If the Permittee should refuse or neglect to comply with the provisions of the permit, or the orders of the District, the District may have such provisions or orders carried out by others at the expense of the Permittee.

If the Permittee fails to comply with any obligation contained herein, Permittee shall be liable to the District for any administrative expenses and attorney's fees incurred in obtaining compliance with this permit and any such expenses and fees incurred in processing any action for damages or for any other remedies permitted by law.

No part of the activities authorized under this permit shall be accepted in phases. All work within District right-of-way must be completed prior to District acceptance of improvements within District right-of-way.

At the completion of the construction activities, the area shall be cleaned, graded and dressed to the satisfaction of the District. A joint inspection (Permittee/District) shall be made to determine if the work has been completed in accordance with permit requirements.

This permit is valid only for the purpose specified herein. All proposed changes shall be submitted, in writing, for District review and approval.

Activities under this Permit are subject to any instructions of the Flood Control Engineer or his representative. ALL INSTRUCTIONS MUST BE STRICTLY OBSERVED.

District activities shall take precedence at all times and, when any work or activity must be performed to carry out the functions and purposes of the District, Permittee must allow same to be done without interference.

Any damage caused to District facilities or structures by reason of the exercise of the Permit shall be repaired at the cost of the Permittee to the satisfaction of the District. Permittee will be billed for the actual cost to the District should Permittee neglect to make such repairs promptly.

Any District right-of-way monuments that are removed, disturbed, or destroyed as a result of activity under permit will be replaced by the District. Permittee will be billed and agrees to immediately pay all costs of such replacement.

Unless otherwise specified herein, this permit is subject to all prior permits, agreements, easements, privileges or other rights, whether recorded or unrecorded, in the area specified in this permit. Permittee shall make his own arrangements with holders of such prior rights.

The permitted activities shall be in accordance with:

a. The San Bernardino County Department of Public Works, Transportation and Flood Control Standard Specifications, available at the Department of Public Works, 825 E. Third Street, San Bernardino, California; and
b. all applicable provisions of the "Construction and Safety Orders" issued by the State Division of Industrial Safety and "Manual of Accident Prevention in Construction" issued by the Associated General Contractors, Inc.

27. All work associated with the activities authorized under this permit shall conform with all Cal-OSHA requirements. Prior to any shoring activity, the Permittee or Permittee's authorized agent shall submit shoring plans, signed and approved by a registered engineer, and copies of required permits.

28. It shall be the responsibility of the Permittee and/or the Permittee's authorized agent to insure that all personnel performing work authorized under this permit are adequately trained and have appropriate safety gear and equipment before entering any confined space.

29. The Permittee shall comply with the District’s Stormwater Ordinance 3588 and all applicable National Pollutant Discharge Elimination System (NPDES) requirements to reduce or eliminate pollution of stormwater discharges into waters of the United States. In this regard, the Permittee shall utilize best management practices in the operation and storage of equipment, machinery, fuels, etc., to prevent any pollutants from being discharged into any storm drain and/or channel systems. In addition, pollutants (including sediment) generated as a result of the activity authorized by this permit shall not be discharged into the drainage system.

30. Should future activities of the Corps of Engineers and/or the District so require, the Permittee shall, at Permittee’s expense, relocate all or any part of the subject works as so required.

31. The District will consider time extensions to the permit upon receipt of a written request from the Permittee thirty (30) days prior to expiration.

32. The area disturbed by permitted activities shall be kept to minimum and shall be limited to that area actually being worked.

33. No nuisance shall be allowed on any of the premises and the Permittee shall exercise diligence in precluding any dumping operations in the area by patrolling or installing barriers to deter unauthorized access when the premises are not supervised.

34. Any unauthorized structure or portions thereof placed on District right-of-way or which affect District structures, must be removed by Permittee without cost to the District.

35. Violation of any provision contained herein, without written consent of the District, shall be cause for immediate revocation of this permit after written notice to the Permittee of any violation not remedied within thirty (30) days following said written notice.

36. Upon cancellation or revocation of this permit, for any cause whatsoever, Permittee shall immediately cease all activities authorized hereunder, shall restore District right-of-way, structures and facilities to the satisfaction of the District, and shall vacate the District’s premises. Should Permittee neglect to restore the premises, structures and facilities to a condition satisfactory to the District, the District will perform such work and Permittee agrees to reimburse the District for all actual costs of work performed.

37. If the permit term is extended, an annual inspection fee shall be due each year on the anniversary date of the permit. The annual inspection fee shall be based on the District’s current Schedule of Fees Ordinance in effect on the anniversary date of the permit.

38. It is expressly understood that the area involved under this permit is subject to inundation from storm, flood and/or conservation flows at any time, and that the District shall not, in any way, be obligated to afford protection against said flows, or to assume any cost for damages. The District reserves the right to divert any storm or flood flows upon any land under this permit any time, and no diversion of such shall be made by the Permittee without the consent of the District.

39. All concrete shall conform to Section 201-1 of the Standard Specification for Public Works Construction, latest edition, unless otherwise specified in this permit. Curing compound shall conform to the provisions of Section 201-4.1 of the Standard Specifications for Public Works Construction, latest edition, Type 1-clear or translucent with red fugitive dye.
GENERAL NOTES:
1. Place #4 rebar 45.72cm on center both ways.
2. Rebar shall be Grade 60.
3. Concrete shall be Class A.
1/4" x 1" Galvanized bolts with lock washers and double nuts. Peen all exposed threads after fabrication. (6 total)

See Detail "A" below (typ.)

SAN BERNARDINO COUNTY FLOOD CONTROL DISTRICT

PERMIT NO. P-2003078

EXHIBIT MAP "C" ATTACHED TO

FILE NO. S.P. 204
FLOOD CONTROL PERMIT APPLICATION

The undersigned hereby applies for permission to encroach upon District right-of-way to perform the following work. It is understood that completing this application does not constitute permission to commence the work on District right-of-way.

Fully describe work to be performed within District right-of-way.

The temporary egress permit is to enter into the County's properties in Zone 1 to assess the cable lengths, etc. for the CBFIP Bid Package No. 5, SCADA System. No excavation will take place under this permit.

CHECK ALL THAT APPLY:
- [ ] Access/Encroachment
- [ ] Channel Improvement
- [ ] Soil Removal/Disposal
- [ ] Sand & Gravel Operations
- [ ] Side Drain Connection
- [x] Utility Xing
- [ ] Monitoring Well
- [ ] Landscape
- [ ] Street Xing
- [ ] Other

Location of Work: All SBCFCD channels and flood control basins in Zone No. 1 affiliated with the CBFIP.

Area (city/community): Chino Basin

District Facility: See location of work.

APN (Assessor's Parcel Number):

The full 13-digit APN of the parcel(s) owned by the District that will be affected by this permit must be listed above for permit processing. The District will not process this application without a valid APN. A copy of the applicable Assessor's map(s), highlighting the affected parcel(s), must also be submitted.

Project Title
China Basin Optimum Basin Management Program

SCH#2000041047 Mr. Richard Atwater (909) 357-0241
State Clearinghouse Number Lead Agency Contact Person Telephone Number

Project Location
The OBMP will be implemented within the Chino Basin which is bounded on the north by the San Gabriel Mountains and the Cucamonga Basin; on the east by the Rialto-Colton Basin, Jurupa Hills and the Pedley Hills; on the south by the La Sierra area, the Santa Ana River and the Temescal Basin; and on the west by the Chino Hills, Puente Hills, and the Pomona and Claremont Basins. The Chino Basin is one of the principle subbasins contributing flow to the Santa Ana River which flows approximately 69 miles from the San Bernardino Mountains to the Pacific Ocean.

Project Description
The Optimum Basin Management Program (OBMP) implements a groundwater management program for the Chino Basin that is designed to enhance the safe yield and the water quality of the basin, enabling all groundwater users to produce water from the basin in a cost-effective manner. To carry out this purpose, the OBMP consists of four primary management goals. Goal number one is to enhance basin water supplies. Goal number two is to protect and enhance water quality. Goal number three is to enhance management of the basin. Goal number four is to equitably finance the OBMP. The OBMP will be implemented as a program with future specific projects over the next 20-30 years.

This is to advise that the Inland Empire Utilities Agency approved the above described project on July 12, 2000 and has made the following determinations regarding the above described project:

1. The project [ ] will [ ] will not have a significant effect on the environment.
2. A Program Environmental Impact Report (PEIR) was prepared for this project, and the Agency determined that the project has a potential to cause significant adverse environmental effects with implementation of proposed mitigation measures. The PEIR was certified by the Agency Board.
3. Mitigation measures identified in the PEIR were made a condition of the approval of the project.

This is to certify that the PEIR and record of project approval are available to the general public at the Inland Empire Utilities Agency office in Fontana.
