## **NOTICE OF PETITION FOR TEMPORARY CHANGE INVOLVING THE TRANSFER OF UP TO 10,000 ACRE FEET OF WATER FROM THE SOUTH SUTTER WATER DISTRICT TO SEVERAL STATE WATER CONTRACT AGENCIES UNDER LICENSE 11118 (APPLICATION 14804)**

Notice is hereby given that on April 11, 2008

South Sutter Water District  
c/o Marc Van Camp  
MBK Engineers  
2450 Alhambra Boulevard, 2<sup>nd</sup> Floor  
Sacramento, CA 95817-1125

filed with the State Water Resources Control Board (SWRCB) a Petition for Temporary Change under Water Code section 1725, et seq. South Sutter Water District's (SSWD) petition requests the transfer of up to 10,000 acre-feet (af) of water to several State Water Contract agencies (hereinafter collectively referred to as the SWC Agencies) for use within the State Water Project (SWP) service area. Temporary changes approved pursuant to Water Code section 1725 may be effective for up to one year from the date of approval.

### **DESCRIPTION OF THE TRANSFER**

SSWD proposes to transfer up to 10,000 af of water under License 11118 (Application 14804) to the SWC Agencies. The SWC Agencies involved in this water transfer are the Dudley Ridge Water District, the Kern County Water Agency, the Napa County Flood Control and Water Conservation District, the Metropolitan Water District of Southern California, the San Bernardino Valley Municipal Water District, the Antelope Valley East Kern Water Agency, the Palmdale Water District, and the Tulare Lake Basin Water Storage District. To facilitate the transfer, SSWD proposes to release 10,000 af of water currently stored in Camp Far West Reservoir to the Bear River thence the Feather River thence the Sacramento River thence the San Francisco Bay/Sacramento-San Joaquin Delta for rediversion at the Clifton Court Forebay or the Barker Slough Pumping Plant.

SSWD's petition states that its landowners receive their base water supply from groundwater pumping and receive supplemental water from Camp Far West Reservoir.

---

*California Environmental Protection Agency*

The petition states that landowners will not change their cropping patterns due to the transfer. The petition states that in the absence of this transfer, the subject 10,000 af of water would either remain in storage within Camp Far West Reservoir or be released for use within SSWD.

### **PROPOSED TEMPORARY CHANGE**

The proposed transfer would temporarily add the Clifton Court Forebay and the Barker Slough Pumping Plant as points of rediversion under License 11118. The service areas of the SWP (as shown on maps 1878-1, 2, 3 & 4 on file with Application 5629) would be temporarily added to the place of use of License 11118. Industrial, salinity control, fish and wildlife enhancement, water quality control, and stockwatering would be temporarily added as purposes of use under License 11118.

### **PETITIONER'S WATER RIGHT**

License 11118 (Application 14804) authorizes the diversion to storage of up to 58,370 af of water per annum from the Bear River between October 1 and June 30. License 11118 also authorizes the direct diversion from the Bear River of up to 330 cubic feet per second (cfs) between May 1 and September 1 of each year. The point of diversion to storage for License 11118 is located at the Camp Far West Dam. Additionally, the Camp Far West Diversion Dam (located about one mile downstream of the Camp Far West Dam) is an authorized point of direct diversion and rediversion to storage. The water is used for irrigation and domestic purposes within the authorized place of use, as well as incidental power generation. The authorized place of use under License 11118 is a net of 59,000 acres within a gross area of 65,796 acres within SSWD, a net of 4,180 acres within the Camp Far West Irrigation District (including 102 acres outside its boundaries served under contract), and a power generation plant located on SSWD's conveyance canal.

In order to protect fish resources downstream of the Camp Far West Diversion Dam, SSWD is required to bypass 25 cfs between April 1 and June 30 of each year and 10 cfs between July 1 and March 31 of the succeeding year. Additionally, SSWD (with other parties within the Bear River watershed) has entered into an agreement (referred to as the Bear River Agreement) with the Department of Water Resources (DWR) to meet the Bear River watershed's responsibilities for Bay-Delta flow objectives. This agreement requires SSWD to make up to 4,400 af of water available to DWR during dry and critical water years. SSWD's petition states that the water intended for transfer is in addition to the water released to DWR pursuant to the Bear River Agreement. Additional information regarding the Bear River Agreement is on file with the State Water Board under Application 14804.

## **COMPLIANCE WITH CALIFORNIA ENVIRONMENTAL QUALITY ACT**

Temporary changes involving the transfer of water that was previously stored are exempt from the requirements of the California Environmental Quality Act (CEQA). However, the State Water Board must consider potential impacts to other legal users of the water and to fish, wildlife, or other instream beneficial uses.

## **STATE WATER RESOURCES CONTROL BOARD'S STATUTORY PROVISIONS**

Pursuant to Water Code sections 1725, et seq., the State Water Board is authorized to issue temporary change orders, allowing the transfer or exchange of water or water rights after completing an evaluation and finding that the proposed temporary changes:

1. Involve only water that would otherwise have been consumptively used, stored, or conserved pursuant to Water Code section 1011, by Permittee;
2. Would not injure any legal user of the water;
3. Would not unreasonably affect fish, wildlife, or other instream beneficial uses; and
4. Any increase in groundwater pumping associated with this transfer (i.e., groundwater substitution) is performed in compliance with Water Code sections 1745.10 and 1745.11.

If the State Water Board cannot satisfy, in a timely manner, the provisions of Water Code section 1725, et. seq., then the State Water Board may deny the petition or schedule and notice a hearing regarding the proposed transfer or exchange of water.

## **OPPORTUNITY FOR COMMENT**

Pursuant to the requirements outlined above, the State Water Board is seeking information to assist in the evaluation of the proposed temporary change of water rights. Any person may file comments concerning the petition for temporary change. The comments must address the required findings set forth above. The petitioner has the burden of establishing that the proposed temporary change will not injure any legal user of water, or unreasonably affect fish, wildlife, or instream beneficial uses. If the State Water Board determines that the petitioner has established a prima facie case, the burden of proof then shifts to the party that has filed comments (Water Code section 1727). While such a determination has not been made in this case, commenters should provide sufficient information to support claims of injury or effects on fish, wildlife, or other instream uses.

Due to the relative brevity of the temporary transfer process, the Division (if necessary) may request that the petitioner submit additional information during the comment period. Any such requests and any additional information submitted by the petitioner regarding this proposed temporary change **during the comment period** will be posted with this notice on the Division of Water Rights' website at [www.waterrights.ca.gov](http://www.waterrights.ca.gov), Water Transfer Program, Notices of Transfers and Temporary Urgency Actions. Potential commenters are strongly urged to check the website for such information prior to filing a comment.

Comments filed in response to this notice must be received in the office of the State Water Board's Division of Water Rights, at the first address listed below by **2:00 p.m. on June 23, 2008**. Additionally, a copy of the comments must be filed with SSWD. **Comments must be accompanied by proof of service of a separate copy of the materials on the petitioner.** Interested parties are encouraged to file comments by FAX and to notify the following contact persons by telephone of any materials that will be submitted. An original copy of all materials, however, must be received for the State Water Board to consider your comments.
