**NOTICE OF PETITION FOR TEMPORARY CHANGE
INVOLVING THE TRANSFER OF UP TO 4,377 ACRE-FEET OF WATER
FROM THE CITY OF SACRAMENTO
AND SACRAMENTO SUBURBAN WATER DISTRICT
TO EIGHT STATE WATER CONTRACTOR AGENCIES
UNDER PERMIT 11360 (APPLICATION 12622)**

Notice is hereby given that on April 20, 2010,

City of Sacramento
c/o Joe Robinson, Senior Deputy City Attorney
City Attorney's Office
915 I Street, 4th Floor
Sacramento, CA 95814

and

Sacramento Suburban Water District
c/o Joshua Horowitz
Bartkiewicz, Kronick & Shanahan
1011 22nd Street
Sacramento, CA 95816-4907

filed with the State Water Resources Control Board (State Water Board) a Petition for Temporary Change under Water Code section 1725, et seq. Pursuant to the petition, City of Sacramento (City) and Sacramento Suburban Water District (SSWD) seek to transfer up to 4,377 acre-feet (af) of water to eight State Water Contractor Agencies. Water would be used within the State Water Project (SWP) service area. Temporary changes approved pursuant to Water Code section 1725 may be effective for up to one year from the date of approval.

DESCRIPTION OF THE TRANSFER

SSWD has a long-term water service contract with the City to provide capacity within the City's water diversion and treatment works on the American River and convey the treated surface water to SSWD. SSWD and the City propose to transfer up to 4,377 af of water under Permit 11360 (Application 12622) to the Antelope Valley-East Kern Water Agency, the Dudley Ridge Water District, the Kern County Water Agency, the Metropolitan Water District of Southern California, the Napa County Flood Control and Water Conservation District, the Oak Flat Water District, the Palmdale Water District, and the San Bernardino Valley Municipal Water District (hereinafter collectively referred to as the Agencies). To facilitate this transfer, SSWD will pump additional groundwater

California Environmental Protection Agency

and reduce the amount of water the City directly diverts from the American River by approximately 24 cubic feet per second (cfs). At times when pumping capacity is available in the Delta, the additional flow in the American River thence the Sacramento River would be available for diversion at the SWP's Banks Pumping Plant or the Barker Slough Pumping Plant and delivery to the Agencies. The petition states that the physical transfer of water would occur between July 1 and September 30, 2010, and that the water would be used within the Agencies' service area within a year from the date of approval. A copy of the petition is posted with the copy of this notice on the Division of Water Rights' website at:

www.waterboards.ca.gov/waterrights/water_issues/programs/applications/transfers_tu_notices/.

In the absence of this transfer, up to 4,377 af of water would be diverted by the City and used within SSWD's service area.

PROPOSED TEMPORARY CHANGE

The proposed transfer would temporarily add the SWP's Banks Pumping Plant and Barker Slough Pumping Plant as points of diversion to Permit 11360. The service area of the SWP would also be temporarily added to the place of use under Permit 11360. The SWP points of diversion and service area are identified on Maps 1878-1, 2, 3 & 4 on file with the State Water Board Division of Water Rights under Application 5629. Domestic, industrial, irrigation, salinity control, fish and wildlife enhancement, and water quality control would be temporarily added as purposes of use under Permit 11360.

PETITIONER'S WATER RIGHTS

Permit 11360 (Application 12622), issued on May 7, 1958, authorizes the City to divert 500 cubic feet per second (cfs) from Rubicon River, 500 cfs from South Fork Rubicon River, 200 cfs from Rock Bound Creek, 75,000 af per year (afa) by storage collected from Rubicon River, 200,000 afa by storage collected from South Fork Rubicon River, 14,000 afa by storage collected from Rock Bound Creek and 25,000 afa by storage collected from Gerle Creek. This permit authorizes the direct diversion and accumulation of water in storage between November 1 of each year and August 1 of the succeeding year. The authorized purpose of use under Permit 11360 is municipal.

COMPLIANCE WITH CALIFORNIA ENVIRONMENTAL QUALITY ACT

Temporary changes involving the transfer of water pursuant to Water Code section 1725 are exempt from the requirements of the California Environmental Quality Act (CEQA). However, the State Water Board must consider potential impacts to other legal users of the water and to fish, wildlife, or other instream beneficial uses.

STATE WATER RESOURCES CONTROL BOARD'S STATUTORY PROVISIONS

Pursuant to Water Code sections 1725, et seq., the State Water Board is authorized to issue temporary change orders, allowing the transfer or exchange of water or water rights after completing an evaluation and finding that the proposed temporary changes:

1. Involve only water that would otherwise have been consumptively used, stored, or conserved pursuant to Water Code section 1011, by Permittee;
2. Would not injure any legal user of the water;
3. Would not unreasonably affect fish, wildlife, or other instream beneficial uses; and
4. Any increase in groundwater pumping associated with this transfer (i.e., groundwater substitution) is performed in compliance with Water Code sections 1745.10 and 1745.11.

If the State Water Board cannot satisfy, in a timely manner, the provisions of Water Code section 1725, et. seq., then the State Water Board may deny the petition or schedule and notice a hearing regarding the proposed transfer or exchange of water.

OPPORTUNITY FOR COMMENT

Pursuant to the requirements outlined above, the State Water Board is seeking information to assist in the evaluation of the proposed temporary change of water rights. Any person may file comments concerning the petition for temporary change. The comments must address the required findings set forth above. The petitioner has the burden of establishing that the proposed temporary change will not injure any legal user of water, or unreasonably affect fish, wildlife, or instream beneficial uses. If the State Water Board determines that the petitioner has established a prima facie case, the burden of proof then shifts to the party that has filed comments (Water Code section 1727). While such a determination has not been made in this case, commenters should provide sufficient information to support claims of injury or effects on fish, wildlife, or other instream uses.

Due to the relative brevity of the temporary transfer process, the Division of Water Rights (if necessary) may request that the petitioner submit additional information during the comment period. Any such requests and any additional information submitted by the petitioner regarding this proposed temporary change **during the comment period** will be posted with this notice on the Division of Water Rights' website at:

www.waterboards.ca.gov/waterrights/water_issues/programs/applications/transfers_tu_notices/.

Potential commenters are strongly urged to check the website for such information prior to filing a comment. Comments filed in response to this notice must be received in the office of the State Water Board's Division of Water Rights, at the first address listed below by **2:00 p.m. on June 14, 2010**. Additionally, a copy of the comments must be filed with SSWD. **Comments must be accompanied by proof of service of a separate copy of the materials on the petitioner.** Interested parties are encouraged to file comments by FAX and to notify the following contact persons by telephone of any materials that will be submitted. An original copy of all materials, however, must be received for the State Water Board to consider your comments.
