

Please indicate County where your project is located here:

Alameda and Contra Costa

MAIL FORM AND ATTACHMENTS TO: State Water Resources Control Board DIVISION OF WATER RIGHTS P.O. Box 2000, Sacramento, CA 95812-2000 Tel: (916) 341-5300 Fax: (916) 341-5400 http://www.waterboards.ca.gov/waterrights

PETITION FOR CHANGE INVOLVING WATER TRANSFERS

Separate petitions are required for each water right. Mark all areas that apply to your proposed change(s). Incomplete forms may not be accepted. Location and area information must be provided on maps in accordance with established requirements. (Cal. Code Regs., tit. 23, § 715 et seq.) Provide attachments if necessary.

- Point of Diversion, Point of Rediversion, Place of Use, Purpose of Use, Temporary Urgency, Temporary Change, Long-term Transfer, Instream Flow Dedication

Application 20245 Permit 20749 License Statement

I (we) hereby petition for change(s) noted above and described as follows:

Point of Diversion or Rediversion -- Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Present: Contra Costa Water District Old River and Victoria Canal, as described in D1629 -- see supplement
Proposed: no change

Place of Use -- Identify area using Public Land Survey System descriptions to 1/4-1/4 level; for irrigation, list number of acres irrigated.

Present: see supplement
Proposed: no change

Purpose of Use

Present: Irrigation, Domestic, Municipal, Industrial, Fish and Wildlife Enhancement, Salinity Control, Water Quality Control, Stockwatering, and Recreation
Proposed: no change

Instream Flow Dedication -- Provide source name and identify points using both Public Land Survey System descriptions to 1/4-1/4 level and California Coordinate System (NAD 83).

Upstream Location: n/a
Downstream Location: n/a

List the quantities dedicated to instream flow in either: cubic feet per second or gallons per day:

Table with 12 columns for months (Jan-Dec) and rows for flow quantities.

Will the dedicated flow be diverted for consumptive use at a downstream location? Yes No
If yes, provide the source name, location coordinates, and the quantities of flow that will be diverted from the stream.

Proposed New User(s)

Provide the names, addresses, and phone numbers for all proposed new user(s) of the water right.

Water (under CVP water rights listed in the petitions submitted by Reclamation on this matter, not the CCWD water right named in this petition) will be transferred to Alameda County Water District. Walt Wadlow, General Manager 43885 South Grimmer Boulevard Fremont, CA 94538 (510) 668-4200

Amount of Water to be Transferred

acre-feet will be transferred. If the basis of right is direct diversion, the average rate of diversion for the maximum 30-day period of use is cubic feet per second or million gallons per day.

General Information – Provide the following information, if applicable to your proposed change(s).

Have you attached an analysis which documents that the amount of water to be transferred or exchanged would have been consumptively used or stored in the absence of the proposed temporary change or long-term transfer? Yes No

Have you attached an analysis of any changes to streamflow, water quality, timing of diversion or use, return flows, or effects on legal users from the proposed temporary change or long-term transfer? Yes No

Have you attached an analysis that shows the proposed temporary change or long-term transfer will not unreasonably affect fish, wildlife, or other instream beneficial uses? Yes No

I (we) have access to the proposed point of diversion or control the proposed place of use by virtue of:
 ownership lease verbal agreement written agreement

If by lease or agreement, state name and address of person(s) from whom access has been obtained.

Give name and address of any person(s) taking water from the stream between the present point of diversion or rediversion and the proposed point of diversion or rediversion, as well as any other person(s) known to you who may be affected by the proposed change.

This transfer is a joint petition by Reclamation and CCWD. Water under CVP water rights will be bypassed by Contra Costa Water District (CCWD) at their Old River and Middle River intakes and instead diverted into the State Water Project Clifton Court Forebay for pumping at the Harvey O. Banks Pumping Plant. There will only be an increase in flows in the southern Delta between the CCWD intakes and Clifton Court Forebay from what would occur absent the transfer. Therefore, no injury to other water users will occur. In lieu of diverting this water from the Delta, CCWD will release an equal amount of water held in Los Vaqueros Reservoir that has been obtained by ACWD through an agreement with CCWD. CCWD will only refill the vacated storage in Los Vaqueros Reservoir due to this exchange when the Delta is in excess conditions, in order to avoid injury to other water users. See Attachment for more details.

All Right Holders Must Sign Below: I (we) declare under penalty of perjury that this involves only the amount of water which would have been consumptively used or stored in the absence of the proposed temporary change, and that the above is true and correct to the best of my (our) knowledge and belief.
