ENVIRONMENTAL INFORMATION FOR PETITIONS

This form is required for all petitions.

Before the State Water Resources Control Board (State Water Board) can approve a petition, the State Water Board must consider the information contained in an environmental document prepared in compliance with the California Environmental Quality Act (CEQA). This form is not a CEQA document. If a CEQA document has not yet been prepared, a determination must be made of who is responsible for its preparation. As the petitioner, you are responsible for all costs associated with the environmental evaluation and preparation of the required CEQA documents. Please answer the following questions to the best of your ability and submit any studies that have been conducted regarding the environmental evaluation of your project. If you need more space to completely answer the questions, please number and attach additional sheets.

DESCRIPTION OF PROPOSED CHANGES OR WORK REMAINING TO BE COMPLETED

For a petition for change, provide a description of the proposed changes to your project including, but not limited to, type of construction activity, structures existing or to be built, area to be graded or excavated, increase in water diversion and use (up to the amount authorized by the permit), changes in land use, and project operational changes, including changes in how the water will be used. For a petition for extension of time, provide a description of what work has been completed and what remains to be done. Include in your description any of the above elements that will occur during the requested extension period.

In accordance with California Water Code Section 1441, this Petition requests renewal of the Temporary Urgency Change of Permit 21185 (A028609) granted by the Division of Water Rights by order dated August 25, 2014. Refer to the Petition for Temporary Urgency Change submitted to the Division of Water Rights for Permit 21185 on May 20, 2014. June Lake Public Utility District (Petitioner) is continuing to study the biological resources in Fern Creek to support a permanent change in the bypass requirement. Information obtained from the studies will be included in the California Environmental Quality Act (CEQA) document being prepared for the Petitions requesting a permanent change of the bypass requirement. The Petitioner is the lead agency responsible for compliance with CEQA for this Petition. The Petitioner's Notice of Exemption pursuant to CEQA is attached.
