The notice indicated the work could be completed in four stages:

1. Bay-Delta Plan review and update of the San Joaquin River flow and southern Delta salinity objectives and their program of implementation;
2. Amendment of water rights and other measures to implement the San Joaquin River flow and southern Delta salinity objectives;
3. Review and update of other components of the Bay-Delta Plan and their program of implementation;
4. Amendment of water rights and other measures to implement other components of the Bay-Delta Plan.

The purpose of this item is for the State Water Board to receive comments regarding the Board's overall schedule of Bay-Delta Plan actions and the relationship of these actions to the Bay Delta Conservation Plan (BDCP).
