Dear Hearing Officers and Board,

As Clifton Court, L.P. (CCLP), tries to prepare our rebuttal to the Draft Supplemental EIR/EIS, we realize that we are unable to assess the impact to our property because key details are unclear. We do not feel we will be able to participate meaningfully in the hearings nor be afforded due process without clarification of the Draft Supplemental EIR/EIS.

The project description has been modified from the original Permit Application, we are unable to find how these modifications will affect CCLP.

- Although CCLP will no longer be turned into the South Clifton Court Forebay (SCCF), many maps show both the Approved Project and the Proposed Project together. The fundamental question is: Will our farm be taken?
- It appears that in the Proposed Project Figure M3-4: Sheet 11 or 12 a Control Structure will now be built on our property off of Herdlyn Road. The map and details of the Control Structure are vague. There also is no mention of Herdlyn Road in the Transportation study regarding construction impacts. Where is specific information on this structure?
- The General Plan Land Use Designations – Proposed Project, Figure M13-4: Sheet 5 of 6, shows our farm to be Recreation Use. Furthermore our

property between Herdlyn Road and the DMC is shown as a public property. Clearly our farm at this point is not a recreation site or a public property. Where is the information that explains what will happen to our land?

We request that the State Water Resources Control Board direct DWR to clarify the new project impacts to CCLP in the Supplemental EIR/EIS. We will not be able to begin to formulate our rebuttal until we can clearly assess the new impacts on our farm.

Sincerely,

Suzanne Womack
