Subject: Handouts on WaterFix used on for a recent Delta Tour with legislative staff

Les, Diane and Rich,

Please find attached three handouts that I prepared for a recent tour of the Delta by legislative staff. The handouts list problems with the Cal. WaterFix proposal, the inconsistencies between the California Water Action Plan and the WaterFix proposal, and suggestions for developing a sustainable Delta solution that achieves both coequal goals and the inherent objectives of improving water quality in the Delta and protecting the Delta as a Place.

If you have any questions about these handouts, please contact me at (510) 339-3618.

Richard Denton
