Additional Remarks
The electronic data are submitted provisionally, as an attempt to discretize diversions and storage among

individual permits. The provisional attachment shows the break down between diversions to storage and direct diversions, which are combined in this submittal. Storage and diversion were distributed in order of permit/license priority. Individual contractors implement conservation measures. Reclamation also maintains an annual grant program to support conservation activities. Attached files represent official submittal of Reclamation. The irrigated acreage numbers do not include Districts which did not timely report. Municipal use figures not provided by contractors. Transfer information pertains to authorized maximum quantities and authorized periods of transfer for Orders issued 7/11/14, 3/18/14, and 8/27/14. CVP summary attached.
