Department of Water Resources’ Objectives

Objective 1: The California Department of Water Resources will ensure that the terms and conditions for the proposed Contract Amendments allow for the continued financial integrity of the State Water Project (SWP). The terms and conditions will: 1) be made in compliance with all legal requirements, 2) provide a fair and equitable approach for repayment of SWP Contractor costs to address the addition of the California WaterFix facilities to the SWP, and 3) confirm and supplement DWR’s position on water management actions available to the State Water Project Contractors under the contracts.

State Water Project Public Water Agencies’ Objectives (Desired Outcomes)

Objective 1: Enhance management tools to facilitate greater flexibility for the Public Water Agencies to meet current and future water supply challenges.

Objective 2: Implement CA WaterFix to equitably allocate costs and benefits to the SWP Public Water Agencies.
