Composite map of DWR’s spring 2004 to spring 2014 groundwater elevation change for shallow aquifer zone in Sacramento Valley, wells depths less than 200 feet bgs, map Plate 1S-B, April 2014, and SACFEM2013-1990 hydrologic conditions simulations for aquifer depth approximately 35 feet shown in Figure 3.3-29, from 10-Year BOR/SLDMWA DEIS/EIR. September 2014.
