Dear Gary:

I called you office before 7:30 AM, this morning, in order to set up a Friday April 4, 2003, meeting with you at our ranch. At this time (4:20 PM) I have no confirmation from you as to time.

Sincerely

Sheldon G. Moore

Sheldon,
I tried to call twice this morning. The machine is not coming on. I can be in Tracy Friday @ 11:00 AM. Please advise if this is O.K

Dear Gary:

This is to confirm our telephone conversation of this afternoon.

I enclose a check for \$25,000 to your company as authorization to start retrofitting my pump station at what I call L53.50 and you designate as T.O. # 24.50.

You will do the job properly and I will endeavor to make progress payments promptly as the job progresses.

You will attempt to keep the job under your estimate of \$85,961.16. We want you to apply for on our behalf any energy refit credits we can claim. Scott Bedford has the results of the years pump test.

Sincerely

Sheldon G. Moore

May 29, 2002

Dear Gary:

I enjoyed our phone conversation today. As you know, it is very important that I document and preserve all information on this case, as it could prove vital to my action. Thank you for taking the time to answer my questions.

The existing pump was in need of repair. I know that the pump had been cavitating when the fish screens were plugged. It is my understanding that cavitation is a major destroyer of pumping plants. Was this a problem with my pump?

What were the most probable pump performance curves on the old pump? What is the performance of the new system and what amperage will the motor draw at maximum pumping head? Using \$.14 per KWH, what would be the extra cost per acre foot to run my new pump with 1 foot extra head and with 8 foot extra head. I know that the Bureau does not clean the fish screen or the trash rack until there is at least a 3 foot loss of head.

Finally, I would like to know of any problems you experienced with the Bureau of Reclamation or their successors. Under what timeframe did the Bureau promise useable road access to the pump? I understand that you had to lay a bed of gravel to stabilize your crane, at a cost of \$2200. Please let me know any other ways your progress was hindered.

Thank you for keeping me informed of the changes the Bureau plans to make with my pump. I look forward to your reply.

Sincerely,

Sheldon G. Moore

Urgent For Review Please Reply Please Recycle

Sheldon,

Please find our attached estimate for the installation of the slant-mounted pump station. The new estimate is less the removal of the existing pump and the exclusion of the all weather egress and regresses required by the S.L.D.M.W.A.

Please call if you have any questions

Respectfully
 Don Pedro Pump

From: "Mr Sheldon Moore" <smoorerg@yahoo.com>
Subject: Drain Pump
To: FredF@donpedropump.com

Dear Fred:

After Talking with you this morning(8/28/06), I checked my files on my 10 HP drain pump located on a closed top sump next to my 40 HP drain pump.

My measurements (11/06/1989) were 213" top of sump to bottom inside. The pump at that time had a column of 194". The discharge check valve is 8" as I remember.

The top of that sump can be carefully enlarged to accommodate the Don Pedro Manure and trash pump. New pump should be set up for easy repair. It should go in and out with a minimum of difficulty.

This pump is tied into a pair of 25" pipe which discharge over the levee into Clifton Court Fore-bay.

I need this pump to be operational before repairs are made on my 40 HP. This site is not accessible during rainy weather.

Hold off on the Irrigation pump control panel repair/replacement until later in the year.

The best way to communicate with me is email. My address is smoorerg@yahoo.com

Sheldon

TERMS AND CONDITIONS OF REPAIRS:

(1) I hereby authorize the above repair work to be done along with the use of necessary materials. (2) It is understood that you assume no responsibility for loss or damage by fire, theft or accident to my (our) equipment while in your custody. (3) The amount of this repair is due and payable at Stockton, California within 30 days following date sold. (4) I agree to pay interest at the rate of 2% per month from the agreed due date until paid. (5) I agree to pay all costs and attorney fees if such action is taken to effect collection of this account. (6) Above repairs are subject to mechanic's lien and title to new parts installed remains vested in Seller until full amount is paid.
