Re: Drainage System

Dear Ms. Cavanaugh,

Yesterday, my tenant farmer advised me that DWR-DFD is finally going to fix the leaking drainage pipes on DWR's property.

You might recall, last August we received a letter from Amber Candela-Cooney dated 8-2-17 stating that Clifton Court, L.P. had met with her and that Clifton Court, L.P. could replace the 50 year old drainage pipes on DWR property adjacent to our property. Alarmed, especially since we have never met Ms Candela-Cooney, we wrote a letter dated 8-10-17 to Chief HEP Operators, John Wilson & Donna Estrada of DWR –DFD. We reminded them that DWR is responsible for fixing the drainage system installed on their property. In response, we received a letter from you dated 8-30-17 that "all drainage system equipment located on DWR property, specifically what you described as 'the south bank of Clifton Court Forebay', is in working order." I enclose these letters as well as a picture taken 7-31-18 of the leaking pipes and pool of water adjacent to the embankment of the Clifton Court Forebay.

Your letter saying everything was in working order was a fabrication. The same rusty 50 years old pipes that leaked over a year ago are still leaking. Clifton Court, L.P.'s livelihood and safety depends on DWR's ability to maintain their equipment and be truthful. You have wasted our time.

We require that a representative of Clifton Court, L.P. be present when the 50 year old drainage pipes are replaced. Furthermore, our tenant farmer and his workers will need to supervise the connection. We expect DWR to pay for everyone's time. We wish to know in writing when this leaking drainage pipe will be replaced so that we can make arrangements to be there.

Sincerely,

Suzanne Womack
General Partner, Clifton Court, L.P.

Cc: Karla Nemeth, Director DWR
