

University of California
Agriculture and Natural Resources

California Agriculture is a quarterly, peer-reviewed journal reporting research and reviews, published by University of California Agriculture and Natural Resources (ANR). The first issue appeared in 1946, making *California Agriculture* one of the oldest, continuously published, land-grant university research journals in the country. There are about 10,000 print subscribers.

Mission and audience. *California Agriculture* publishes refereed original research in a form accessible to a well-educated audience. In the last readership survey, 33% worked in agriculture, 31% were university faculty or research scientists, and 19% worked in government agencies or were elected office holders.

Electronic version of record. In July 2011, the electronic journal became the version of record; it includes printed and electronic-only articles. When citing or indexing articles, use the electronic publication date.

Indexing. The journal is indexed by AGRICOLA, Current Contents (Thomson ISI's Agriculture, Biology and Environmental Sciences and the SCIE databases), Commonwealth Agricultural Bureau (CAB), EBSCO (Academic Search Complete), Gale (Academic One-File), Proquest and others, including open-access databases. It has high visibility on Google and Google Scholar searches. All peer-reviewed articles are posted to the ANR and California Digital Library eScholarship repositories. In the 2015 Thomson JCR, the journal's 5-year impact factor was 1.02.

Authors and reviewers. Authors are primarily but not exclusively from ANR; in the past 2 years, 25% were based at other UC or CSU campuses, in government agencies or at other universities and research institutions. In the same period, 39% of reviewers came from outside ANR.

Rejection rate. In the past 2 years, roughly 40% of submitted papers that have entered our peer-review process have been rejected. Roughly 50% of submissions are rejected by the editors without peer review due to a mismatch with the journal's scope or clear weaknesses in the research.

Peer-review policies. Manuscripts that pass the initial screening by the editors undergo double-blind, anonymous peer review. An associate editor evaluates the paper and then nominates two qualified reviewers. If the first two reviews are affirmative, the article is accepted. If one is negative, the manuscript is sent to a third reviewer. The associate editor makes the final decision, in consultation with the managing and executive editors.

Editing. After peer review and acceptance, all manuscripts are extensively edited by the *California Agriculture* staff to ensure readability for an educated lay audience and multidisciplinary academics.

Submissions. *California Agriculture* manages the peer review of manuscripts online. Please read our Writing Guidelines before submitting an article; see: calag.ucanr.edu/submitarticles/.

Letters. The editorial staff welcomes letters, comments and suggestions. Please write to us at the

address below. Include your full name and address. Letters may be edited for space and clarity.

Subscriptions. These are free within the United States and \$24 per year abroad. Single copies are \$5 each. Go to: calag.ucanr.edu/subscribe/ or write us. International orders must include check or money order in U.S. funds, payable to UC Regents. Credit cards are accepted online.

Permissions. Material in *California Agriculture*, excluding photographs, is licensed under the Creative Commons CC BY-NC-ND 4.0 license. Please credit *California Agriculture*, University of California, citing volume, number and page numbers. Indicate ©[year] The Regents of the University of California.

To request permission to reprint a photograph published in *California Agriculture* in print or online, please complete the UC ANR Permissions Request Form (<http://ucanr.edu/survey/survey.cfm?surveynumber=5147>). In general, photos may be reprinted for non-commercial purposes.
