Conservation of Water	
11. Are you now employing water conservation efforts?	Yes
Description of water conservation efforts	The Districts objective is to maximize the beneficial use of water by implementing numerous water conservation efforts including, variable frequency drives, irrigation scheduling techniques and technologies, water conservation programs for landowners, weed management programs, canal lining, pipeline installation, and educational tools for staff and its landowners. The Districts landowners have implemented numerous water conservation efforts including, but not limited to land leveling, irrigation scheduling techniques and technologies, varietal changes, crop shifts, drainage improvements, reduced spill from rice fields, and minimum tillage techniques. The quantity water conserved through the actions taken by individual landowners and farmers has not been determined. In addition, the District operates an extensive tail water recovery and recirculation system. Absent the Districts recirculation additional water would have been diverted to meet the demands within the District.
12. Amount of water conserved	

Water Quality and Wastewater Reclamation	
13. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?	No
14. Amount of reclaimed, desalinated, or polluted water used	

Conjunctive Use of Groundwater and Surface Water	
15. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?	No
16. Amounts of groundwater used	

Additional Remarks
Purpose of Use: The acreage identified includes the total acreage irrigated in 2014 under Permit 16771, License 3165 (Application 27), and the riparian and pre-1914 rights of the District and its landowners reported under Statement Nos. S020165, S020166, S020168, S020169, and S020172. This acreage is also within the service area and receives water under Contract 14-06-200-890A-R-1 between Reclamation District No. 1004 and the U.S. Bureau of Reclamation. Conjunctive Use: Approximately 8,530acre-feet of groundwater was pumped from District owned wells to augment the water supply in 2014. In addition an undetermined amount was pumped from private landowner wells.
