

CITY OF SACRAMENTO

- Serves approximately 485,000 residents and commercial/industrial customers, plus wholesale service to other regional water suppliers
- Diverts surface water at two treatment plants on the Sacramento and American Rivers plus groundwater, to meet retail and wholesale demands, on a seasonal demand pattern
- Water rights include pre-1914 appropriative right and 5 appropriative permits (oldest permit priority date is 1920)

CITY OF SACRAMENTO

- Water rights settlement contract with Reclamation
- Sacramento maintains strong partnerships with other regional agencies and Reclamation
- Future operation of California WaterFix presents scenarios that injure Sacramento as a legal user of water:
 - Decreased reliability of Sacramento's water supply
 - Damage to Sacramento's intake infrastructure
 - Reduced water supply for wholesale water service
 - Economic impact from reduced water sales
