

**Statement of Qualifications for Paul Philley, AICP
SACO-11**

I have been the Program Supervisor of Sacramento Metropolitan Air Quality Management District's CEQA and Land Use section since January 2016. In that position, I supervise the section and am responsible for promoting clean air and public health by providing technical assistance and advocacy in the land use and transportation sectors. Prior to assuming my current position, I worked as a Planner/Analyst in the CEQA and Land Use section since October 2008. I have a Bachelor of Science in Geology with minors in Public Policy Administration and Mathematics from California State University Bakersfield. I have a Master of Arts in Urban Planning from the University of California, Los Angeles. I am a member of the American Institute of Certified Planners, certified planner number 025365.
