Oct 9, 2015

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

The environment is already suffering due to adverse impacts of human activities. This is the same environment that we depend on to sustain us. People are the underlying problem; the environment cannot sustain our numbers, growth rates and lifestyles. Engineered solutions only encourage more people to use increasing amounts of water. Say NO to the proposed tunnels.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Denise Louie

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

The tunnels would divert massive amounts of water, greatly reducing Sacramento River flows, the main source of fresh water for the Delta and San Francisco Bay. Most of this water would be diverted for industrial-scale agriculture, including extremely water-intensive almond and pistachio orchards. This is irresponsible water management.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Despite four years of drought we still don't seem to be clear on the concept of protecting our water resources. We cannot drain the Delta.

We must stop building in Southern California, especially the Coachella Valley and other arid regions. We MUST protect Northern California's resources and stop providing water to water-demanding crops or ALL of California will be destroyed!!

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Every time I drive through the Central Valley I see well diggers putting in new wells and new orchards going in constantly. This is during a drought and I see it as totally irresponsible behavior on the part of farmers. Taking water from the delta to support this behavior is wrong too. The wells alone will eventually make a dust bowl of California. It is all about. Obey and greed. We no longer see modest farmhouses but mansions, which clearly illustrates the abuse.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

OMG Governor Brown!

You are suffering from a big time case of TUNNEL VISION of the worst kind!

Yes, growers need water, and so do plants and animals and people, and it would be completely stupid to sacrifice endangered species and critical and unique eco-systems, because the growers want it!\*\*\*\*\*

What do growers care????? Not much, as so many do not understand how the web of life works-----BUT just because we are in a drought doesn't mean that growers having hissy fits means that there is a real emergency for them!\*\*\*\*\*

Forget that quote "The business of America is business.." The business of you and the CA legislature is to ensure that the EUREKA ( which is different for every single Californian )REMAINS in place for the future generations!!!!!!!!!!!!\*\*\*\*\*

YOU cannot fix the drought by wrecking the state! You are acting in a very lame and silly way! STOP IT and find some real scientists to work with. YOU are supposed to HEAL the BAY-----not compromise it! SUSTAINABILITY and not knee jerk silliness!\*\*\*\*\*

Thank you for reading my letter.

I am writing to express my strong opposition to the Delta Tunnels Plan.

**From:** Joanne Vinton <jmvinton@peak.org>  
**Sent:** Monday, October 12, 2015 2:55 PM  
**To:** BDCPcomments  
**Subject:** Comments on BDCP/WaterFix

I support the Delta Independent Science Board's final comments on the recirculated draft at:  
<http://deltacouncil.ca.gov/docs/final-delta-isb-comments-partially-recirculated-draft-environmental-impact-reportsupplemental>.

In addition:

Clearly WaterFix is an attempt to push through the project without sufficient understanding of the possible outcomes. The recirculated draft leaves much of the analysis until the final draft, which is too late for public comment and demonstrates a lack of integrity.

WaterFix does not meet the requirements in the Water Code  
[http://leginfo.legislature.ca.gov/faces/codes\\_displayText.xhtml?lawCode=WAT&division=35.&title=&part=4.&chapter=2.&article](http://leginfo.legislature.ca.gov/faces/codes_displayText.xhtml?lawCode=WAT&division=35.&title=&part=4.&chapter=2.&article).

\* See specific requirements in Sections 85320-85321.

\* WaterFix no longer requires an NCCP/HCP, which the Water Code assumes.

\* WaterFix does not support regional solutions to California's water problems, as required in Section 85021: "The policy of the State of California is to reduce reliance on the Delta in meeting California's future water supply needs through a statewide strategy of investing in improved regional supplies, conservation, and water use efficiency. Each region that depends on water from the Delta watershed shall improve its regional self-reliance for water through investment in water use efficiency, water recycling, advanced water technologies, local and regional water supply projects, and improved regional coordination of local and regional water supply efforts."

\* One important benefit of regional water projects is that regional jobs would be created.

\* The mayor of Los Angeles announced that the city is weaning itself off of imported water, which decreases the need for this project. See his announcement here:  
<http://www.pbs.org/newshour/bb/la-mayor-says-drought-shaming-civic-duty/>

WaterFix is an outdated solution to regional water shortages. It would continue to support water policy as it is now, so water would continue to be underpriced and wasted.

Sincerely,

Project Re: Bay Delta Conservation Plan

Saleki Atsa,

Ohlone/Costanoan-Esselen Nation is an historically documented previously recognized tribe. OCEN is the legal tribal government representative for over 600 enrolled members of Esselen, Carmeleno, Monterey Band, Rumsen, Chalon, Soledad Mission, San Carlos Mission and/or Costanoan Mission Indian descent. Though other indigenous people may have lived in the area, the area is the indigenous homeland of our people. Included with this letter please find a territorial map by Taylor 1856; Levy 1973; and Milliken 1990, indentifying Tribal areas. At this time are unable to provide you with cultural resource information but ask that OCEN be contacted upon any findings on this project.

**Ohlone/Costanoan-Esselen Nation objects to all excavation in known cultural lands, even when they are described as previously disturbed, and of no significant archaeological value.** Please be advised that it is our first priority that our ancestor's remains be protected and undisturbed. We desire that all cultural and sacred items be left with our ancestors on site or where they are discovered. We ask for the respect that is afforded all of our current day deceased, by no other word these burial sites are cemeteries, respect for our ancestors as you would expect respect for your deceased family members in today's cemeteries. **Our definition of respect is no disturbance.**

Aware that despite our objection, disturbance continues, therefore: We request that Ohlone/Costanoan-Esselen Nation be consulted as to any planned projects that might adversely impact known or predicted cultural resources and sacred sites within our aboriginal territory. Furthermore, the Tribal leadership desires to be contacted with: 1) surveys, 2) subsurface testing, 3) presence/absence testing, 4) mitigation and recovery programs, 5) reburial of any of our ancestral remains, 6) placement of all cultural items, and 7) that a Native American Monitor of Ohlone/Costanoan-Esselen Nation, approved by the OCEN Tribal Council be used within our aboriginal territory.

We look forward to hearing more information about this project; please feel free to contact me at (408) 629-5189. Nimasianexelpasaleki. Thank you for your attention to this matter.

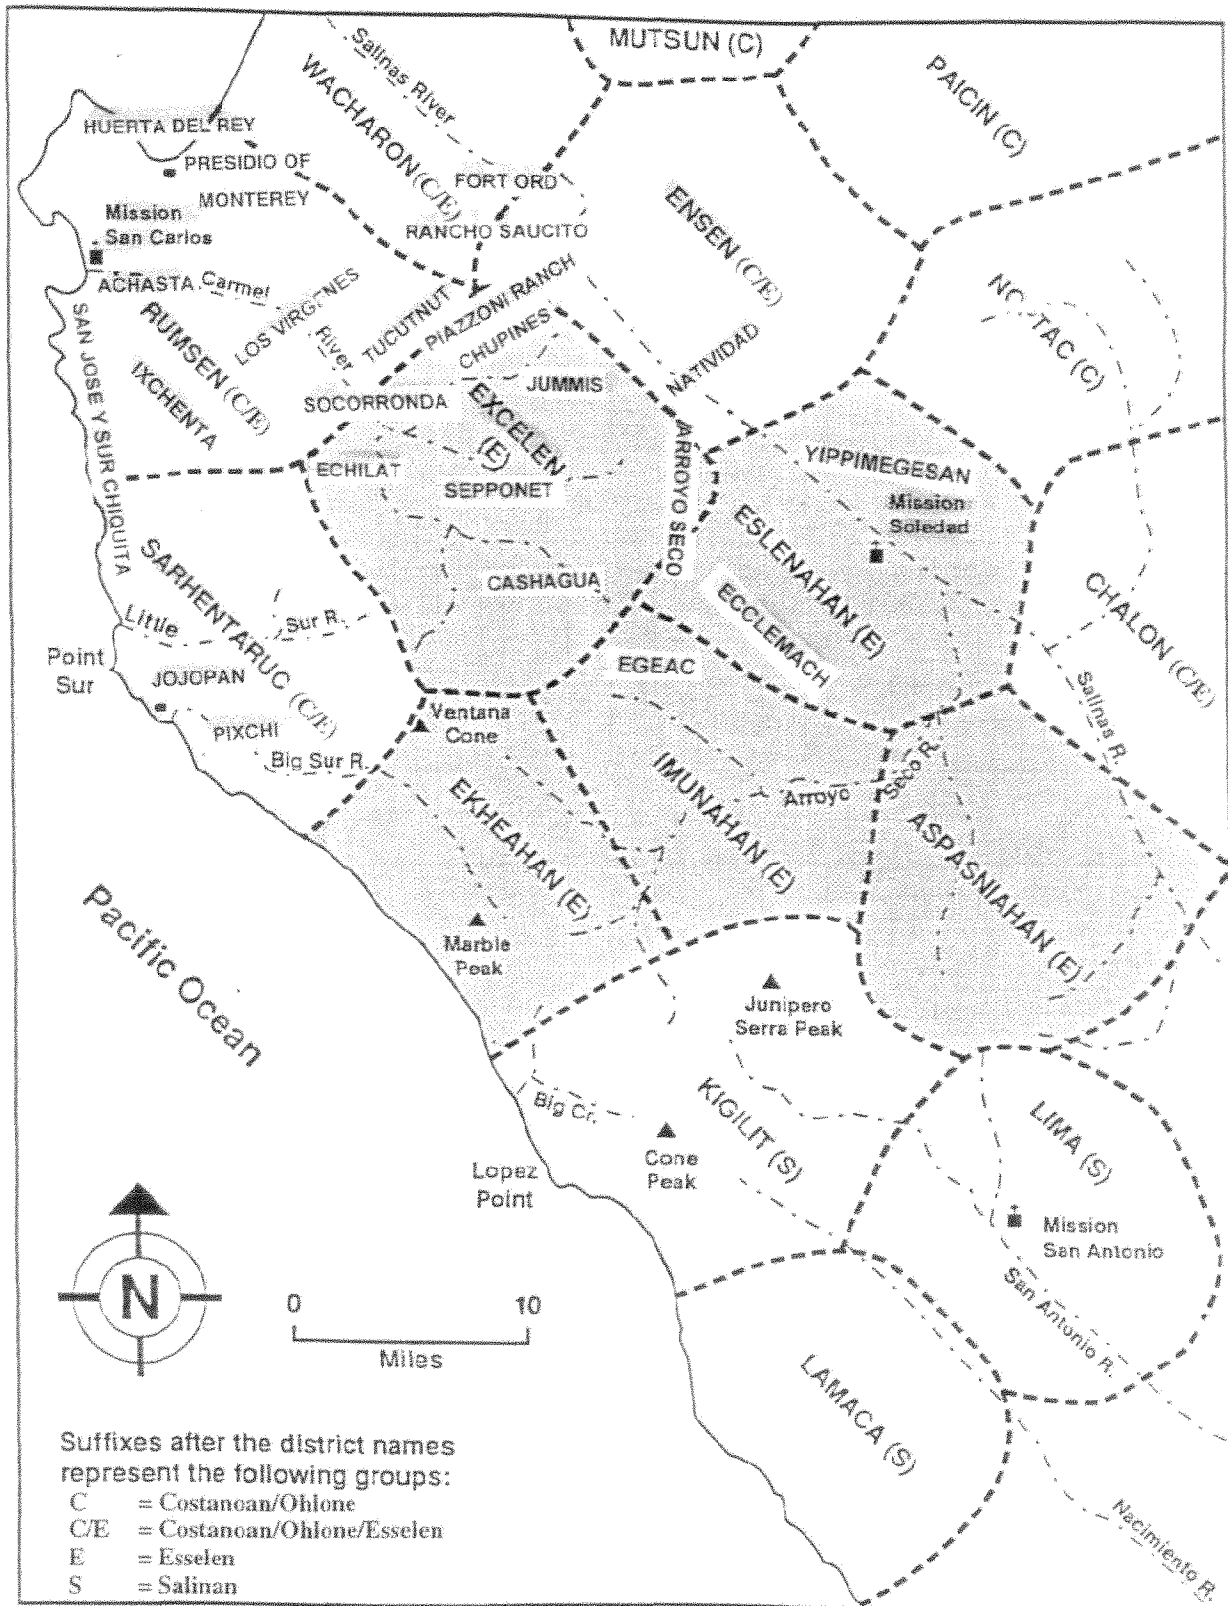

Sincerely and Respectfully Yours,

  
Louise J. Miranda Ramirez, Chairperson  
Ohlone/Costanoan-Esselen Nation

RECEIVED  
OCT 13 2015

***RE: Oppose the Delta Tunnels/California Water Fix (Alternative 4A)***

To Whom it May Concern:

I am writing to express my strong opposition to the Delta Tunnels plan.

In The Delta Reform Act of 2009, the California State Legislature committed to “coequal goals” of providing a more reliable water supply for California, as well as protecting and restoring the cultural, recreational, natural resource, and agricultural values of the Delta. Unfortunately, the intent of this legislation cannot be achieved if the Delta Tunnels come to pass.

Not only does the California Water Fix fail to meet the restoration goals of the Delta Reform Act, it will not be able to provide more reliable water, because the Delta watershed is already oversubscribed by five times its capacity in normal water years.

The plan also fails to address potential environmental, public health or economic impacts of the proposed Delta tunnels project, and has ignored proposed alternatives that would save California tax and ratepayers billions of dollars, while investing in the jobs and local water sources that would build sustainability.

For large metropolitan cities such as Los Angeles and San Jose that depend on export water, water rates and/or property taxes will go up, but they will get no additional water.

No analysis has been done on how the lack of fresh water flows will impact San Francisco Bay tourism and recreation. These industries depend on Delta fresh water flows for their crab and salmon fisheries, wildlife sighting, boating, and their restaurant economy. This industry is worth billions annually.

Salinity intrusion is already impacting the western Delta farms - removing Sacramento River freshwater from the system will only make matters worse. Delta farmers cannot irrigate crops with salt water and they will not be able to plant crops in contaminated soils. The Delta Ag economy, which consists of generations of family farms and farm workers, generates \$5.2 billion for the California economy, annually.

Far less expensive and less environmentally destructive alternatives to the Delta Tunnels have been largely ignored. **Our tax and ratepayer dollars would be much better spent on:**

- Funding water recycling and groundwater recharging projects statewide, which would allow communities to develop more sustainable and independent water sources.

- Streamlining environmental review for water storage, desalination, water recycling, and other projects that will increase our water supply.
- Developing more aggressive water efficiency programs statewide.
- Improving Delta levees in order to address potential earthquake, flooding, and future sea level rise at a cost of \$2 to \$4 billion.
- Installing fish screens at the south Delta pumps in order to reduce the current salvage of marine life.

The Delta has problems that need to be addressed, but the CA Water Fix tunnels will not produce more water, more reliable supplies, or improve environmental conditions in the Delta.

The Bureau of Reclamation and the Department of Water Resources should prepare and circulate a new Draft EIR/EIS that will include some of these alternatives. Such alternatives have a far better chance of complying with the Delta Reform Act and will do much more to increase water supply in regions throughout California.

Sincerely,

CA

Dear Conservation Plan,

Save some for the fish!

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mr. Michael Senteio  
2140 Hilda Way  
Brentwood, CA 94513-5200

Dear Conservation Plan,

The Delta Bay area is very special and unique. Let's not turn it into Mad Max: Fury Road, shall we?

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Mr. Matthew Snope  
823 55th St Apt B  
Oakland, CA 94608-3265

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

NO DELTA TUNNELS PROJECT

The tunnels would divert massive amounts of water, greatly reducing Sacramento River flows, the main source of fresh water for the Delta and San Francisco Bay. Most of this water would be DIVERTED for industrial-scale agriculture, INCLUDING extremely water-intensive almond and pistachio orchards.

THIS IS ANOTHER BLATANT OBVIOUS PUSH BY CORPORATE LOBBYING/BRIBERY POWER MEANT TO FAVOR THE AGRICULTURAL INDUSTRY AS THEY WRITE THE LAWS FOR THEIR GREEDY SELFISH INTERESTS WITH THE POLITICIANS ALLOWING IT TO HAPPEN

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

It sounds so easy, just shuffle things from here to there, problem solved! Unfortunately, it is not that easy. Displaced harm is still harm. Sometimes we need to take the tough actions, and this is one such time. A delta tunnel will not solve our water use needs, and will cause harm to the basic operating system of California's environment. Please reject this pipe dream. Thank you.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Further, the plan ignores alternatives that would save California tax- and ratepayers billions of dollars, while investing in jobs and local water sources that build sustainability, instead of severely damaging the Delta and Bay ecosystems.

I urge you not to permit the Delta Tunnels/California Water Fix (Alternative 4A) project to move forward.

Sincerely,

Ms. Katherine Cleary  
PO Box 651  
Carlsbad, CA 92018-0651

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Knock...it...off!!! The level of graft & corruption permeating EVERY aspect of this proposal is COMMON KNOWLEDGE!!  
STOP IT!!! The Bay-Delta system is MORE important in the long term!!!

I am writing to express my strong opposition to the Delta Tunnels Plan.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Governor, please do not do this. Years from now we will all be glad we did everything we could to restore and protect our fish species.

I am writing to express my strong opposition to the Delta Tunnels Plan.

The deceptively named "California Water Fix" does not address the multitude of adverse environmental, public health, and economic impacts the proposed Delta tunnels project would cause. Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

This is not a good idea...we need to safeguard all out water resources including aquifers from fracking contamination.

I am writing to express my strong opposition to the Delta Tunnels Plan.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Please protect the species and ecosystem of the Delta. We've already done enough damage. Please say no to the water export tunnels. It's nothing but damaging to the Delta environment.

I am writing to express my strong opposition to the Delta Tunnels Plan.

Bay Delta Conservation Plan  
CA

Dear Conservation Plan,

Please take action against a major ecological catastrophe. Better safe NOW than "I told you so" later. It's time to change the way you "we" do things and I'd like to think you would be a leader of positive change NOW.... than later. Thank you.  
Sara Bachmeier
