

April 12, 2013

**This is a message from the State Water Resources Control Board.**

At its April 9, 2013 meeting, the State Water Board held an informational item on next steps related to a draft summary report prepared by the State Water Board's consultant Dr. Brock Bernstein summarizing three technical workshops held in the fall of 2012 concerning the comprehensive review (Phase 2) and update of the Water Quality Control Plan for the San Francisco Bay/Sacramento-San Joaquin Delta Estuary (Bay-Delta Plan). The purpose of the informational item was to receive input on next steps in this process related to the overall summary provided at the outset of the draft report. Specifically, the State Water Board requested input on what, if any, areas of disagreement or uncertainty identified in the summary report should be resolved during the comprehensive review of the Bay-Delta Plan and what process should be used to resolve those issues. At the Board meeting the State Water Board allowed for an additional two weeks to submit written comments on this matter. Any additional comments should be emailed to [bay-delta@waterboards.ca.gov](mailto:bay-delta@waterboards.ca.gov) no later than **12 p.m. noon on Tuesday, April 23, 2013**.

The draft Workshop Summary Report and other information concerning the workshops and the State Water Board's review of the Bay-Delta Plan can be found at:
