Dear Ms. Townsend:

On behalf of Madera County Board of Supervisors, we are writing to express our strong concern regarding the Bay-Delta Plan (Proposed Final Amendments) and a Final Substitute Environmental Document, which includes additional instream flows February through June.

As a County with lands that are part of three critically overdrafted subbasins, we are extremely mindful of the amount of water available as we complete multiple groundwater sustainability plans. Recharge is a key component to bring the subbasins to a state of sustainability. It appears that SED and associated appendices were prepared without any regard for potential needs from agencies under the Sustainable Groundwater Management Act.

We look forward to working with you toward better water resource management.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Tom Wheeler'.

Tom Wheeler
Chairman
