

POD Workshop

Ken Landau
Assistant Executive Officer

Potential Sources of Toxicity

- Pesticides
- Agricultural Wastewater
- San Joaquin River DO
- Wastewater Treatment Plants

Possible Regional/State Board Actions

- Delta Project Team
- POD Contaminant Work Team
- Implement TMDLs faster
- Notify permittees to take precautions against spills
- Assess impacts of low DO in the San Joaquin River

Possible External Actions

- Analyze Existing Contaminant Data – External Peer Review
- Encourage DPR to reevaluate pyrethroid pesticides faster
- Encourage State Board to complete sediment quality objectives work
