## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT (APPLICATION NO.)**

SWRCB Division of Water Rights  
2013 Term 91 Curtailment  
Term 91 Water Rights Mail Labels

Your contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 [crico@waterboards.ca.gov](mailto:crico@waterboards.ca.gov).

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 12088 (APPLICATION NO. A023343)**

Honcut Creek Ranch  
c/o Tenney & Co  
1528 Starr Dr., Ste A  
Yuba City, CA 95993

Your License 12088 A023343 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12088 A023343 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 12225 (APPLICATION NO. A024971)**

Vicky Dawley  
12480 Colyear Springs Rd  
Red Bluff, CA 96080

Your License 12225 A024971 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12225 A024971 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 11844 A025985 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT License 12479 (APPLICATION NO. A027166)**

Wallace Community Services District  
PO Box 398  
Wallace, CA 95254

Your License 12479 A027166 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER License 12479 A027166 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

The Vineyards at Cache Creek  
c/o James C. Hanson, CCE  
444 N. Third St., Ste 400  
Sacramento, CA 95811-0238

Your Permit 19074 A027781 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 19074 A027781 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 21040 (APPLICATION NO. A029550)**

Joe Marchesotti Co., Inc.  
965 Bristol Ave  
Stockton, CA 95204

Your Permit 21040 A029550 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 21040 A029550 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

If you have any questions concerning this notice, please call Christine Rico of the Delta Watermaster staff at (916) 445-5961 [crico@waterboards.ca.gov](mailto:crico@waterboards.ca.gov).

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT Permit 20933 (APPLICATION NO. A030410)**

Pelger Mutual Water Company  
c/o MBK Engineers  
1771 Tribute Rd., Ste A  
Sacramento, CA 95815-4401

Your Permit 20933 A030410 contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER Permit 20933 A030410 FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT (APPLICATION NO. \*IP - Notice Only\*)**

The following are sent copies of  
the Term 91 Notice  
AND Mailing List by  
Regular Mail:

Your \*IP - Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER \*IP - Notice Only\* FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: *If conditions change (precipitation) curtailment will immediately end.***

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT <<Interested Party>> 13315 (APPLICATION NO. A022638 \*IP - Notice Only\*)**

Ron Silva  
21365 Mission Blvd  
Hayward, CA 94541

Your <<Interested Party>> 13315 A022638 \*IP - Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> 13315 A022638 \*IP - Notice Only\* FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

## State Water Resources Control Board

November 15, 2013

### **WATER DIVERSION CURTAILMENT EXTENSION NOTICE** **WATER RIGHT <<Interested Party>> (APPLICATION NO. \*IP-Notice Only\*)**

Thuy Washburn  
U.S. Bureau of Reclamation  
2800 Cottage Way, CVO-400  
Sacramento, CA 95825-1898

Your <<Interested Party>> \*IP-Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> \*IP-Notice Only\* FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.

Your <<Interested Party>> \*IP-Notice Only\* contains a term (Standard Term 91) that prohibits diversion of water under specified conditions. These conditions occur when stored water (Supplemental Project Water) from the Central Valley Project operated by the U.S. Bureau of Reclamation or the State Water Project operated by the California Department of Water Resources is being released to meet water quality standards and other inbasin entitlements in the Sacramento-San Joaquin Delta Watershed. The Bureau is mandating that the curtailment be extended due to dry hydrology and Endangered Species Act requirements.

You are hereby notified that the State Water Resources Control Board has determined that supplemental Project water is being released in the Sacramento-San Joaquin Delta Watershed.

**YOU MUST IMMEDIATELY DISCONTINUE WATER DIVERSION UNDER <<Interested Party>> \*IP-Notice Only\* FROM NOVEMBER 17, 2013 UNTIL NOTIFIED OF AN END DATE.**

**NOTE: If conditions change (precipitation) curtailment will immediately end.**

If you are still in need of water, you must now use your alternate water supply such as groundwater or contract (purchased) water from agencies that have available water.

A determination of "no hydraulic continuity" must be made by direct personal observation and only when there is no diversion occurring under the water right listed above.

Under California Water Code (CWC) section 1052(a), unauthorized water diversions are considered a trespass against the State of California as well as a violation of the terms and conditions of your water right permit or license. Continued violation could be subject, after the appropriate notification, to enforcement action including imposition of administrative civil liability (CWC section 1052) or issuance of a cease and desist order (CWC division 2, part 2, chapter 12). The enforcement action could include monetary penalties not to exceed \$500 per day for administrative civil liability or not to exceed \$1,000 per day for violation of a final cease and desist order.
