## State Water Resources Control Board

### **NOTICE OF IN-PERSON LISTENING SESSION ON WATER MEASUREMENT AND REPORTING REGULATION ADOPTED PURSUANT TO 2015 SENATE BILL 88**

State Water Resources Control Board (State Water Board or Board) staff will hold an in-person listening session to receive public input on the water measurement and reporting regulation adopted pursuant to 2015 Senate Bill 88 (SB-88). During the listening session, there will be a short staff presentation on the background, purpose, and requirements of the measurement and reporting regulation followed by an opportunity for public input and questions.

**Thursday, August 10, 2023**

**12:00 – 4:00 PM**

**1001 I Street  
Sacramento, CA 95814  
2<sup>nd</sup> Floor, Coastal Hearing Room**

#### **BACKGROUND AND PURPOSE**

California's recent droughts have highlighted the need for high-quality water diversion data. Codified in the California Code of Regulations, title 23, sections 931-938, SB-88 requires that diverters above a certain size measure and report their diversion volumes to the Board. While the regulation has been in effect for several years, compliance with the requirements remains low, and the quality of diversion data submitted pursuant to the regulation is highly variable.

Board staff are evaluating ways to increase compliance and data quality. Options include developing formal guidance to clarify regulatory requirements, developing templates, and updating or modifying the current regulations. State Water Board staff are soliciting public feedback and input on the SB-88 measurement and reporting requirements, and are offering an in-person comment and listening session for the public to share their feedback.

## HOW TO PARTICIPATE

This listening session will be held in-person in the Coastal Hearing Room at the headquarters of the California Environmental Protection Agency, located at:

1001 I Street  
Sacramento, CA 95814

**If you wish to make a PowerPoint presentation during the listening session**, it must be emailed to [DWR-Measurement@waterboards.ca.gov](mailto:DWR-Measurement@waterboards.ca.gov) no later than **noon on August 7, 2023**. Presentations must be in PowerPoint format and should not include any animations, transitions, or external media sources. Please be aware that State Water Board staff will be projecting and advancing PowerPoint slides during presentations. Presentations are limited to no more than 10 minutes. If there are many commenters, speakers may be asked to shorten their comments to accommodate all speakers. If necessary, additional listening sessions may be scheduled to accommodate all individuals wishing to participate.

*State Water Board staff will also be holding a virtual listening session covering the same information for those who cannot provide comment in person. More information about that session is provided in a separate notice.*

If you have any questions regarding how to participate in the listening session, please send an email to [DWR-Measurement@waterboards.ca.gov](mailto:DWR-Measurement@waterboards.ca.gov).

## ADDITIONAL RESOURCES

For more information regarding the measurement and reporting of water diversions, visit the Board's [Water Measurement Regulation](#) website. To receive updated information, including future notices regarding this topic, it is strongly encouraged that you subscribe to the Water Measurement list on the [State Water Board's Email Lists webpage](#).

## CONTACT

Individuals who require special accommodations are requested to contact staff at [DWR-Measurement@waterboards.ca.gov](mailto:DWR-Measurement@waterboards.ca.gov) prior to the webinar. If you have any questions regarding this notice or related efforts, you may send an email to [DWR-Measurement@waterboards.ca.gov](mailto:DWR-Measurement@waterboards.ca.gov).

## LANGUAGE SERVICES

If you require interpretation or translation in a language other than English or would like to request sign language services, please contact us at (916) 341-5254 or [OPP-LanguageServices@waterboards.ca.gov](mailto:OPP-LanguageServices@waterboards.ca.gov) before July 25, 2023.
