Subject: Water Needed

To Whom It May Concern;

I heard you will have a meeting on Wednesday to make decision about water. This is to remind you we have Pistachio farms in Five Point near Fresno and last few years we try to spend a lot of money to bring our farm using new technology to use least water for our ranches, but unfortunately last couple years we did not receive any water. Please remember just from our business we feed over 200 people and if I calculate the family of these worker I could say over 400 people feed from our business. Please, Please when you are making decision remember all this 400 people.

Thanks For cooperation

Mo Chehrzad
