Dear Governor Brown, Chair Marcus, & Board,

I am writing as a voting constituent, & mother who has raised children in Tuolumne County for the past 19 years to urge you increase flows into the San Joaquin River and its tributaries. It is imperative that minimum flows are increased in order to protect the ecosystem and maintain a reliable water supply.

At least half of the San Joaquin River's natural flow should reach the Delta during the first 6 months of each year. Flows in the summer and fall should be sufficient to maintain fish and wildlife, water quality, & recreational opportunities.

Please consider the future of fish, wildlife, and our children when making your decision and raise the minimum flows in the San Joaquin River & its tributaries.
