Dear Felicia Marcus & Board Members,

My name is Daniel Chen and I currently live in the San Francisco Bay Area. My parents are immigrants from Taiwan and they raised us in the Bay Area because California ~~is~~ one of the best places to live in the world! Growing up, our family vacations would consist of inexpensive trips to the nearby national parks and reservations. Carrying these memories have made me appreciate how ~~beautiful~~ beautiful our state is. I would hope that one day, my kids would be able to enjoy and have these memories as well. This is why I am writing to you today. I am aware that the Water Board is currently updating the Bay Delta Quality Control plan. I am hoping that the plan will consist of something that will allow the preservation of the ecosystem. I would feel very sad if the next generation would not be able to enjoy the outdoors the same way I did because of policies we put in place today. Thank you for your time to read this letter.

Sincerely,
Daniel Chen
