

with declining flows, my ^{future} children may not be able to experience this as adults. Further, as an environmental educator, I know the value of investing in the important ecological area of the San Joaquin and Delta. I urge you to stay solid in the knowledge that 60% flow is needed to ~~restore~~ and protect the wildlife. Please keep in mind the future generations, not just the pressures of 2015.

Sincere thanks for your work,

Miranda Mickiewicz

Dear Chair Marcus and Board Members,
I am writing to express my strong support for increasing the unimpaired flow of the San Joaquin River. I grew up attending Berkeley Tuolumne Camp, along the South Fork of the Tuolumne River, and fell in love with it. Over the past several years I have had the pleasure of canoeing along the San Joaquin River and ^{sailing} through the Bay Delta. I was moved by the natural beauty and rhythm of these areas, and couldn't help but feel dismayed that
