**Subject:** Restore flows to San Francisco Bay to prevent species

[extinctions&cc=Carl.Wilcox@wildlife.ca.gov,Maria.Rea@noaa.gov,Will.Stelle@noaa.gov,Ren\\_Lohoefener@fws.gov,Chuck.Bonham@wildlife.ca.gov,dan\\_castleberry@fws.gov&body=Dear](#) State Water Resources Control...

Waterboard Members,

1. Reverse the decision to suspend the D-1641 March requirements for inflows to San Francisco Bay and ensure that these flows critical to the continued existence of Delta smelt, winter-run Chinook salmon and other species are actually provided for the rest of March and on through the ecologically important spring period.
2. Reverse its decision to partly suspend the D-1641 limits on export pumping, in order to prevent devastating impacts on the last remaining Delta smelt and winter-run salmon.
3. Reject any new petitions to suspend the flow requirements and export limits for April and May 2015, and give the endangered species of the Bay-Delta estuary their last, best chance for survival.

Thank You,  
James Volberding
