Dear Mr. Vincent:

Thank you for your recent correspondence to Senator Boxer. I apologize for the delay in responding to your request for assistance.

I sympathize with your concern and understand your desire to have the issue that you were kind to bring to the Senator's attention resolved. However, the matter you have outlined appears to fall under the jurisdiction of the California Environmental Protection Agency, State Water Resources Control Board. Therefore, I am forwarding your correspondence to the Chair of the Board, Felicia Marcus, for her review and consideration.

Once again, thank you for writing. Please do not hesitate to contact Senator Boxer in the future should you require assistance with a matter concerning the federal government.

Sincerely,

A large, bold, handwritten signature in black ink, appearing to read "Eric José Vizcaino". The signature is written over the typed name and title.

Eric José Vizcaino  
Director of Constituent Services

Dear Senator Barbara Boxer:

I am asking for your intervention and support in solving our water delivery/pumping problem. Crops are planted and growing based upon previous allocation numbers. We cannot just abandon these growing crops. Growers, lenders, supply companies and laborers are all at risk. Upon receiving this news, I have begun to cut hours of my employees until further notice. SWRCB staff has shown time and time again its unwillingness to work with the many agencies involved, even when they were all in agreement. Staff has no idea of the devastation that will be caused by shutting down the pumps.

Any assistance in this matter will be greatly appreciated.
