COMMENT: NAPA County has banned new
Vineyards and "Entertainment
Centers" because of the nightmare
traffic jams on their roads.
When will Sonoma County say
"Enough" to development. What
is the MAXIMUM allowable
population that is foreseen
for Sonoma County, and
How does being a "Destination"
affect the Quality of life here?

COMMENT: Going over the first few slides re. water conservation
measures was sooo redundant - We don't have
to us. Just harping on regs that don't apply to
us. If people take the time to attend these
meetings, they care about conserving water
How much man power to find a total of 23
non-compliant landowners? Worth it?
No confirmation that info was received
Why read some info re. informational order
Assistance?

more
time
for
comments

One day I was told my information was received.
Three days later I was told it was no longer
there when I tried to fill out info for and will

Thank you for allowing so many to make comments &
ask questions.

71 wineries out of how many actual wineries? (VDT's)
Small wineries vs large wineries - response rate?

COMMENT: It seems a ridiculous to target "emergency" areas when this water issue is statewide. People not in the "emergency regulation order" actually watering + installing lawns... Alternatives, statewide - need to be adopted by water users - not controlled by state or county. Why not address the impact the population has on water use - the real problem.
