NOTICE OF TEMPORARY LIFTING OF CURTAILMENTS FOR DIVERSIONS SPECIFIED IN THE SCOTT RIVER ADJUDICATION IN THE SCOTT RIVER WATERSHED

The State Water Resources Control Board (State Water Board) is temporarily lifting the water right curtailment for junior priority class rights in the Scott River watershed beginning on December 3 at 10:00 am continuing until further notice. The temporary authorization for diversion is based on this week's rain event and associated projected runoff in excess of the flows required to satisfy senior priority class rights.

The junior priority class rights are identified as either: (1) a Priority 2 Class Right in Schedule D-4 of the Decree, (2) a Post-1914 Appropriative Right in Schedule E of the Decree, or (3) a "Surplus Class" right in the Decree.

During this diversion opportunity, you must comply with all terms and conditions of your water right, especially season of diversion and bypass conditions. You should keep a record of your diversions since such diversions are still subject to prior rights. Any diversion in violation of terms and conditions or of these notices is subject to enforcement.

The State Water Board will be monitoring weather forecasts and stream gages to determine if the temporary diversion opportunity should continue. Please monitor your email and our website for further updates on when diversions are authorized, and when curtailments are in place. If an email list notice is issued on the weekend, the website will not be updated until the following Monday due to service limitations.
