

# Emergency Conservation Regulation Update

Max Gomberg, Katheryn Landau, Mark  
Emmerson, David Rose, Eric Oppenheimer  
Office of Research, Planning, and Performance  
April 7, 2015

# Status of Implementation

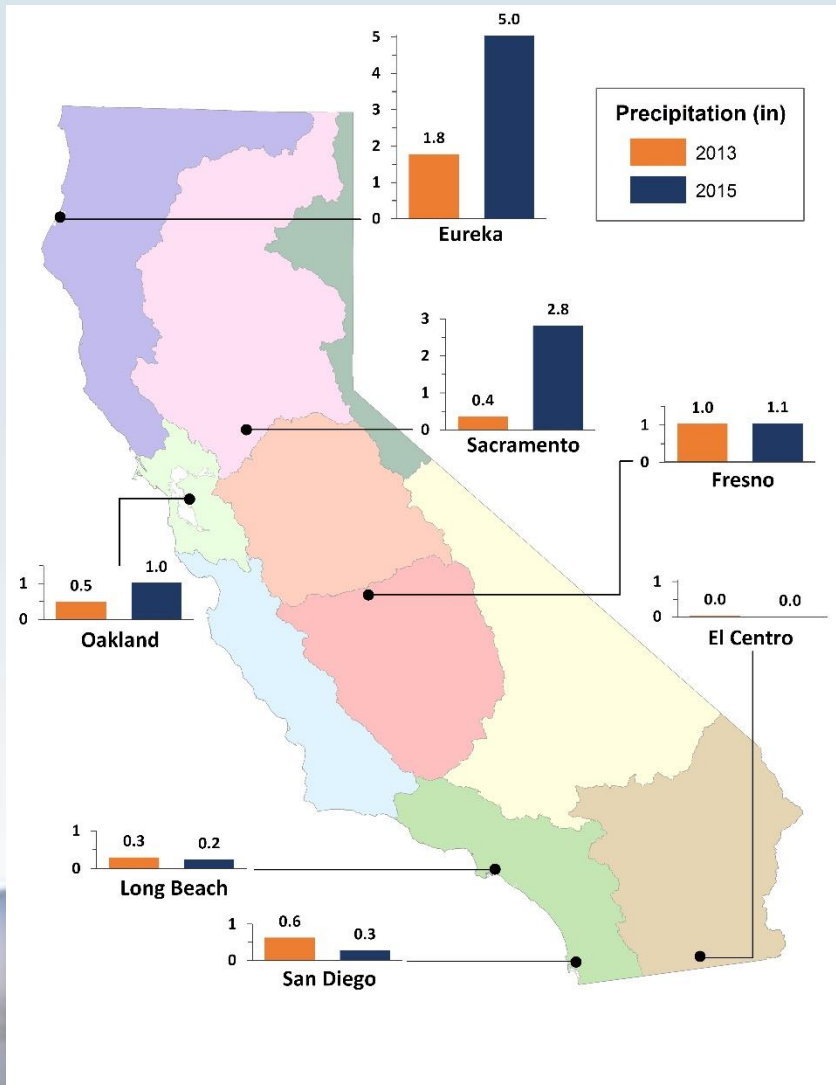

- Water production data collected from June 2014 through February 2015 (9 months)
- 390 (of 411) Retail Urban Water Suppliers provided February production numbers
- Updated emergency regulation effective March 27, 2015

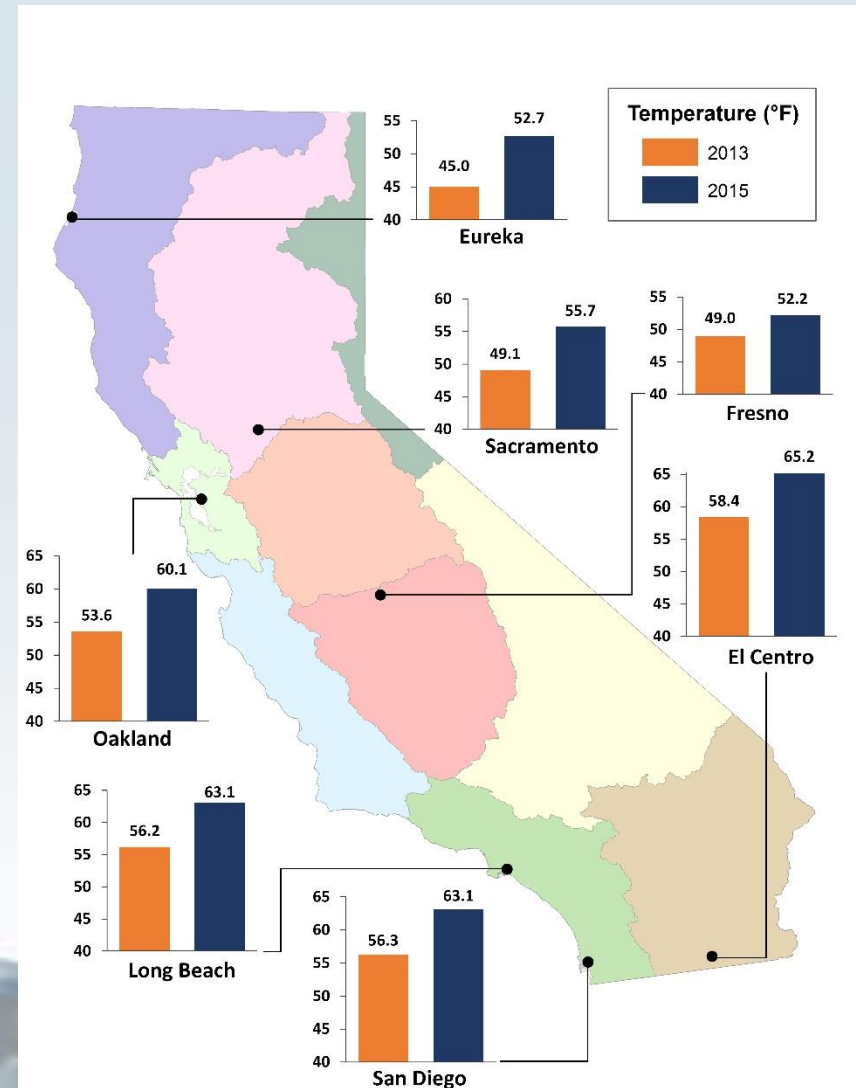

# February Weather Conditions

(Select Cities)

## Precipitation

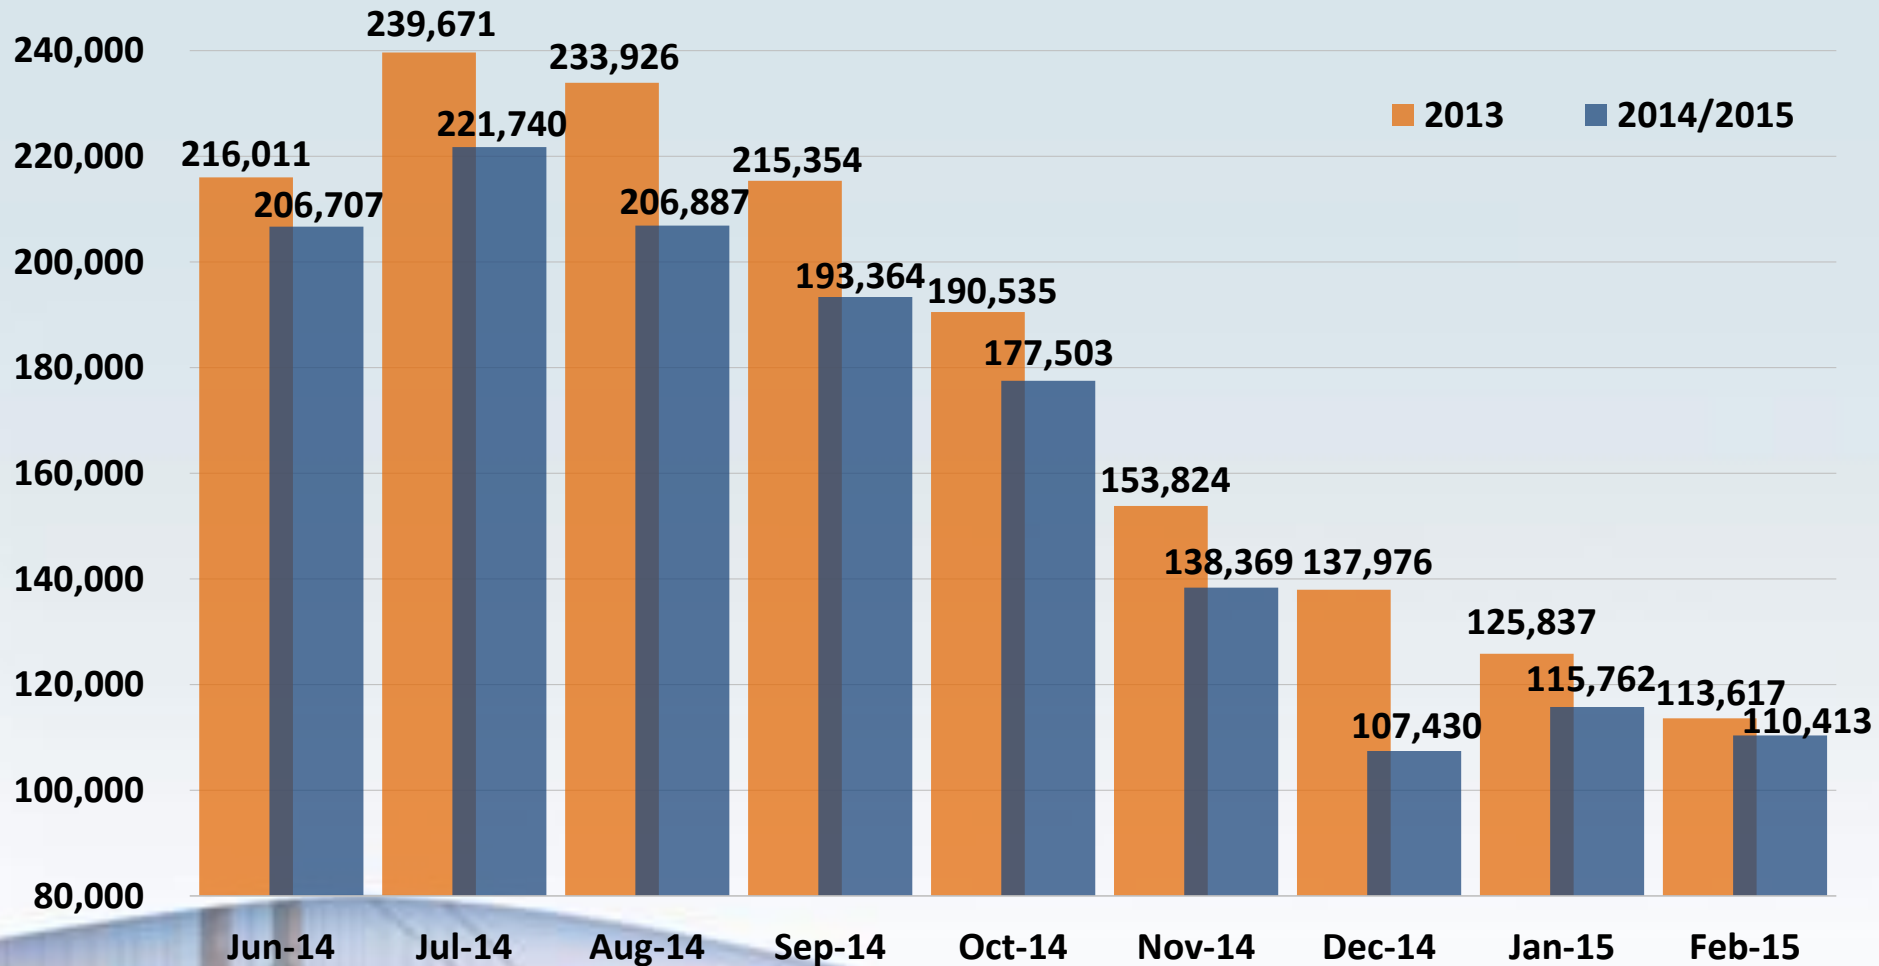

## Temperature

# Statewide Water Conservation Results

## Water Production June 2014 - February 2015 (Million Gallons)

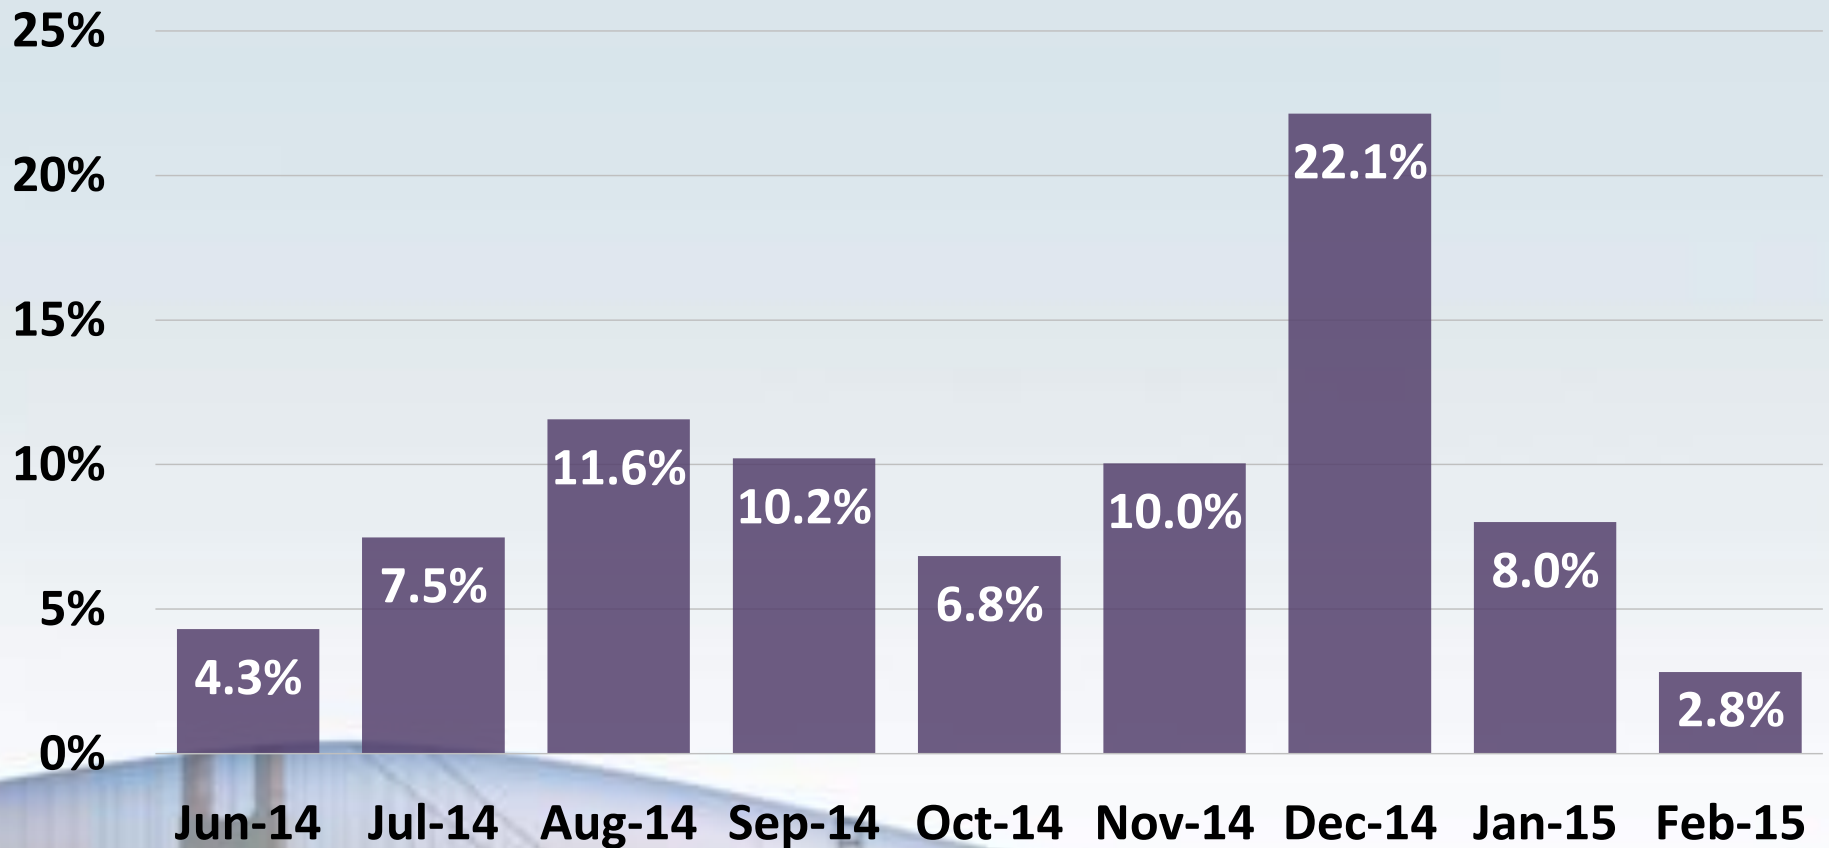

**Over 148 Billion Gallons Saved June 2014 – February 2015, enough to provide 1.99 million Californians with water for 1 year**

# Statewide Water Conservation Results

## Water Production Percentage Reduction

(Compared to 2013)

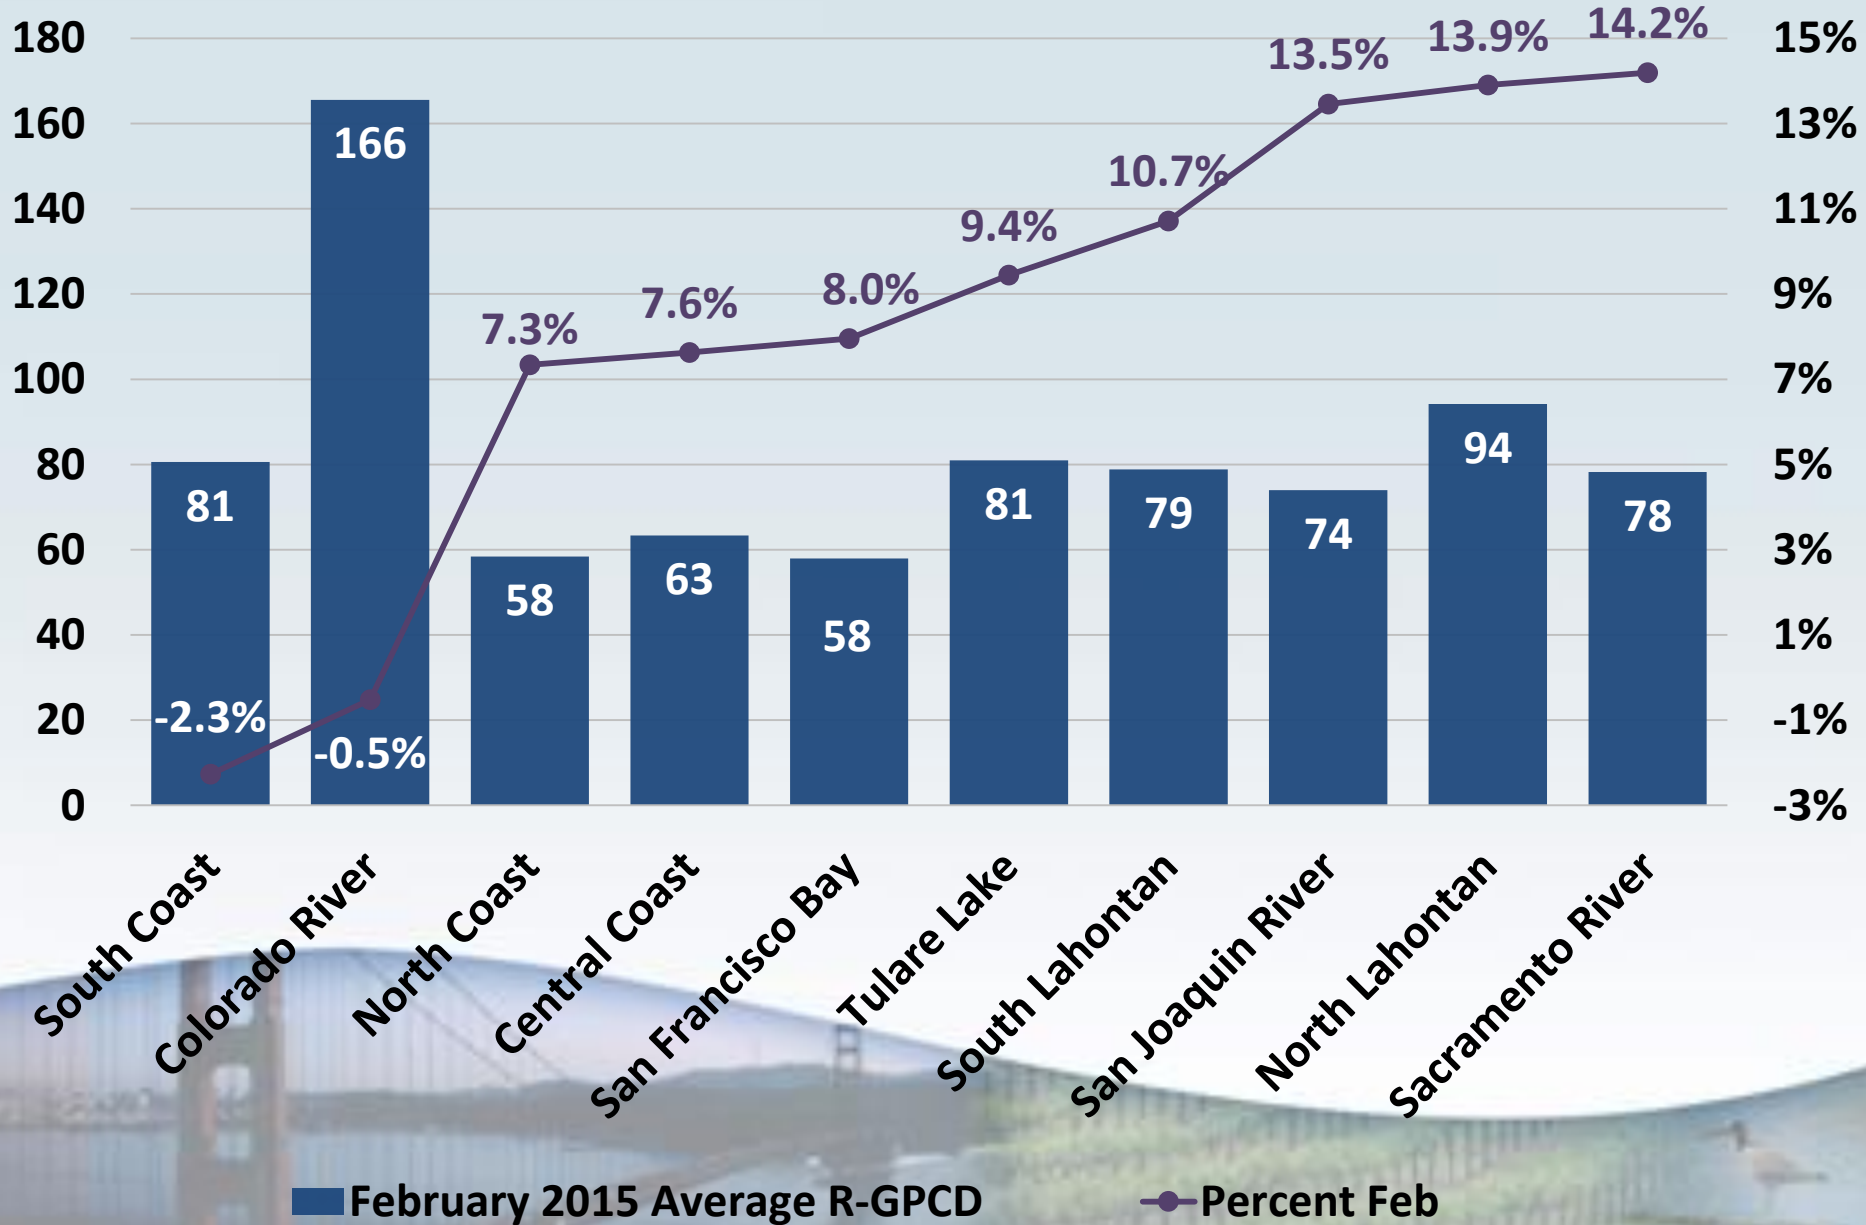

# February 2015 Residential Gallons per Capita per Day

- Highest R-GPCD figures = 379
- Lowest R-GPCD figures = 37
- Average February 2015 R-GPCD = **77**, up from **73** in January
- 55 GPCD is the performance standard for **indoor** use
  - 43 suppliers representing about 3.4 million people report February total (indoor and outdoor) GPCD less than 55

# February 2015 Water Conservation Results

# Noteworthy February 2015 Conservation Achievements

**Conservation greater than 15% and R-GPCD less than 60 gallons**

- Stockton, City of
- Sunnyvale, City of
- Roseville, City of
- Daly City, City of
- South Gate, City of
- Santa Cruz, City of
- Santa Barbara, City of
- Tracy, City of
- Mountain View, City of
- Fountain Valley, City of
- California Water Service Company Livermore
- Soquel Creek Water District
- Adelanto, City of
- Burlingame, City of
- East Palo Alto, City of
- City of Big Bear Lake, Dept of Water & Power
- California Water Service Company Oroville
- Sweetwater Springs Water District
- California Water Service Company Redwood Valley

# Governor's Executive Order

- 25% statewide reduction in potable urban water use
- Additional specific use prohibitions
- Use of rates and pricing
- Additional conservation incentive programs

# Implementation Timeline

- Draft regulatory framework and request for public comment - **April 7, 2015**
- Release of draft regulation for informal public comment - **April 17, 2015**
- Emergency rulemaking formal notice – **April 28, 2015**
- Board hearing and adoption – **May 5 or 6, 2015**

# Regulatory Framework Considerations

- Tiers for percent reduction requirements
- Reporting requirements
- Enforcement
- Applicability to small water systems (< 3,000 connections)
- Large water users not served by urban water suppliers
