**Subject:** Anthony Serrano to Victor Vasquez re 1-18-2018 E-mail Time Extension re 12-20-2017 Nestle ROI and Request Copies of Sale Contracts Arrowhead Water to Nestle Year 1987 and Forest Permits Issued Since Year 1929

1-29-2018: Good afternoon Mr. Vasquez. I have read the documents associated with your December 20, 2017 Report of Investigation (ROI) of Nestlé Waters North America and your January 18, 2018 e-mail "**Subject: Time extension to comment on Nestle report of investigation.**"

I have reviewed the supporting documents but I do not see any comments based on your review of any sale contracts for:

1. The 1987 sale contract between Arrowhead Waters and Nestle, any of the other sale contracts dating back to 1909 when the Arrowhead Springs Bottle Company was first formed and since 1909 to date? Simply stated, the sale contracts would list exactly what "assets" were being exchanged in each sale contract?
2. Also, I do not see any comments based on your review of any sale contracts prior to year 1909 either? and
3. It is my understanding that the "Arrowhead Springs Permit" were first issued in year 1929 but again no copies for all of the "Arrowhead Springs Permits" since year 1929 have been provided? The permits list the name of the company, corporate office address, individual's name signing the permit, date, etc.

Based on this information and in an effort to submit comments for the items listed in your December 20, 2017 by the due date of February 9, 2018 can you provide me and everyone else on your mailing list with electronic copies for:

1. Any and all sale contracts or agreements between Arrowhead Waters (including the predecessor company) and other parties and up to the 1987 sale contract with Nestle (let's see exactly what Nestle was buying or thought they were buying?), and
2. Any and all "Arrowhead Springs Permits" (including the predecessor company) that have been issued since year 1929 (or before that date).

Please advise if and when I can expect to receive the information requested.

Thank you.

Anthony Serrano

**Subject: Time extension to comment on Nestle report of investigation**

The State Water Resources Control Board (State Water Board), Division of Water Rights, has received requests for additional time to submit comments on the Report of Investigation (ROI) of Nestlé Waters North America. **Staff will therefore extend the deadline for comments to February 9, 2018.** Staff will review comments and determine the most appropriate action.

References cited in the ROI are now available on the ROI web page at

[https://www.waterboards.ca.gov/waterrights/water\\_issues/programs/enforcement/complaints/nestle.html](https://www.waterboards.ca.gov/waterrights/water_issues/programs/enforcement/complaints/nestle.html).

This extension is not an order or decision of the State Water Board. As a result, it is not subject to a petition for review. Neither does it constitute a final agency action subject to judicial review.
