**Subject:** Nestle's and robbery

Please know, I have been following the Nestle's story for some time, trying hard to read credible sources.

I also am a resident of Crestline and love the mountains and TRUTH.

Please also know that Nestle's is to be shamed as an outrageous robber of water that should belong to all of us.

I have been a proud Californian and have looked to our State govt. to protect us against greed and misuse.

Please Mr. Vasquez. We need your help and your courage to do the right thing.

Respectfully,

Judith Hansen
