

State Water Board Informational Meeting- March 4, 2019

The State Water Board March 1, 2019 Informational Meeting used a webservice called Slido. Slido is an audience interaction tool used for meetings and events. State Water Board staff asked those in the audience participating in the meeting in person or via the webcast to submit questions and participate in three polling questions using Slido. The three polling questions and results can be found below. The percentages represent the audiences answer to the polling question.

Polling Question 1: I'm interested in the Water Rights Enforcement Policy because I am a:

Water rights holder	24%
Attorney	14%
Consultant	10%
Public official	14%
Other	38%

A total of 21 individuals participated in this poll.

Polling Question 2: The Proposed Policy Element that would be most important to me is:

Regulatory strategy	13%
Statewide, regional, and program priorities	35%
Prioritization of investigations and enforcement cases	30%
Framework for calculating monetary penalties	17%
Process for Policy review and revision	4%
Identification of enforcement tools	0%

A total of 23 individuals participated in this poll.

Polling Question 3: I would like to see water rights enforcement focus more on:

Reporting violations	9%
Protection of public trust resources	48%
Protection of the water rights priority system	30%
Complaint investigations	4%
Compliance with terms and conditions of permits and licenses	9%

A total of 23 individuals participated in this poll.
