Important Notice
Please Read Carefully

The State Water Board is reviewing the online reports to evaluate continuous beneficial use of water and compliance with applicable laws. The State Water Board is also reviewing online reports for any misreporting or falsification. Many water right holders are reporting no amounts of water diverted and used. It is important that you report the amount of water diverted and used under your water right(s).

Reports of Permittee, Reports of Licensee, Reports of Registrants, and Annual Notices of Groundwater Extraction and Diversion:

Please note that you are submitting your report under penalty of perjury and the State Water Board can initiate enforcement without notice.

Any appropriative right may be lost due to non-use. If you do not divert or use water, be sure to identify the reason for no use in the remarks section.

Supplemental Statements:

The making of any willful misstatement on this form is a misdemeanor punishable by a fine not exceeding one thousand dollars ($1,000) or by imprisonment in the county jail for not to exceed six months, or both.
(Water Code Section 5107, subdivision (a).)

The State Water Board may also administratively impose civil liability upon any person who knowingly makes a material misstatement or who otherwise makes an unintentional misstatement on this form.
(Water Code Section 5107, subdivision (a).)

The Division of Water Rights would like to remind users of reporting deadlines via email. Please check the email listed above. If emails above are not current, provide email information to receive updates and reminders:

Owner email
Agent email

If you are assisting with reporting and would like to receive email reminders prior to annual reporting deadlines, please fill in the box below:

Email address

Is the primary owner information shown above correct?  ◯ Yes  ○ No
Is the agent information shown above correct?  ◯ Yes  ○ No

If the owner or agent information shown above is wrong or missing, click here to correct. Otherwise, please use the continue button to begin completing the online Progress Report.

Please allow up to four weeks for owner, address, or agent changes to be reflected on the Summary Information shown above.

The entries contained herein are for representational purposes only and do not reflect real reporting data.
Please answer all the questions. When finished, click “Continue” to go to the next page.

**Part 1 of 11: COMPLIANCE WITH PERMIT TERMS AND CONDITIONS**

This report is your record of actual water diversion and use made under the water right permit number shown above. The requested information is required pursuant to Title 23, Sections 847 and 925, of the California Code of Regulations. Information provided in the report may be used by the State Water Board to evaluate compliance with permit terms and conditions.

1. I have currently reviewed my water right permit.
   - Yes  ○ No

2. I am complying with all terms and conditions.
   - Yes

   ○ No - If no, identify term and reason for non-compliance: 

3. In this reporting year, were there changes to the project covered by this permit?
   - If NO, this field may be left blank.
   - If YES, indicate the changes. Check all that apply.

   - I have changed the diversion/intake location. Please explain:

   - I have changed the type(s) of use(s). Please explain:

   - I have changed the place of use. Please explain:

   - Other changes not listed. Please explain:

**Note:**

A Change Petition and associated fees are likely required for any significant changes to the permitted project. A Change Petition can be downloaded [here](http://www.statewaterboard.ca.gov/).
PROGRESS REPORT BY PERMITTEE FOR 2018

Water Right ID  Permit Number  Primary Owner
A031487        021366          U.S. BUREAU OF RECLAMATION

Part 2 of 11: PERMITTED PROJECT STATUS

California Water Code sections 1396 and 1397 requires a permittee(s) to exercise due diligence in developing an appropriative water right project so that the project is completed within the time period specified in the permit.

Check one of the following project statuses:

4. ☐ REVOCA TION

The project has been abandoned and I request revocation of the permit.

Revocation is not complete and you will continue to receive annual bills until a Revocation Request form is received and processed by the Division of Water Rights.

Please print a revocation request form and mail it to the address shown on the form.

5. ☐ PROJECT COMPLETE

The project has been completed. I have made full beneficial use of water as to the diversion rate, amount, and season specified in the permit and have complied with all terms and conditions. I am ready for (or have had) a licensing inspection by Division of Water Rights staff and request that a water right license be issued.

Please Note: Water Code section 1605 requires the State Water Board to conduct a full inspection and examination of the works constructed and the use of water as soon as practicable after receiving notification that a permitted project is completed. Unfortunately, the Division of Water Rights (Division) is unable to promptly inspect all projects reported ready for licensing due to limited resources. An inspector from this office will contact you when the Division schedules your project for inspection. To expedite the licensing process, for any permits that authorize diversion of water to a reservoir, you may retain a licensed land surveyor or civil engineer to:

(1) survey the reservoir and submit the certified survey to the Division along with your request for a licensing inspection; and
(2) submit any records of diversion or calculations of beneficial use of water under the permit.

Whenever possible, the Division will prioritize its field inspection based on the date that the survey and diversion/use information is submitted to the Division. Permittees delinquent on their annual water right fees will not be a high priority for licensing.

6. ☐ PROJECT HAS NOT BEEN COMPLETED

If the project has not been completed, please answer the following:
6a. Has construction work commenced?

☑ Yes ☐ No

6b. Is construction completed?

☐ Yes ☐ No

6c. Have the permitted beneficial uses of water commenced?

☐ Yes ☐ No

6d. Will you be able to beneficially use the maximum amount of water needed within the time period specified in the permit?

☑ Yes ☐ No

6e. Explain what additional steps are necessary to complete construction and/or beneficially use the maximum amount of water needed. (Input is limited to 4000 characters.)

(Please explain the status of the permit's construction and/or remaining process to bring diversion facility to maximum desired potential)

6f. Please provide the estimated date when you will beneficially use the maximum amount of water needed.

01/01/2019 (mm/dd/yyyy, example: 02/07/2009)

Note:

A Petition for Extension of Time and associated fees may be required if the project is not completed within the time period specified in the permit.
### Part 3 of 11: USE OF WATER

7. Check the appropriate boxes and explain how the water was used:

- **Water was not used under this permit in 2018**
- **Irrigation (Specify if Multiple Crops grown and provide the number of acres irrigated)**

Permit Number
021366

Primary Owner
U.S. BUREAU OF RECLAMATION

Part 4 of 11: SPECIAL USE CATEGORIES

This part of the form is intended for the reporting of information regarding special use categories, related to certain beneficial uses reported in Part 3 of the form, that have additional reporting requirements.

Cannabis Cultivation

C1. Are you using any water diverted under this right for the cultivation of cannabis?
   ☒ Yes  ☐ No

The total water use and total extent of any irrigated areas for all beneficial uses associated with this water right should be reported in Part 3 of this form. Click to confirm that all water use and beneficial uses associated with this water right are reported Part 3 of this form before proceeding. ☑

C2. Provide the total amount of water used under this water right for cannabis cultivation during the 12-month reporting period:
   0.093601 acre-feet

   If you have an amount in gallons, use this tool to convert gallons to acre-feet:

   30500 Gallons

   Convert to Acre-Feet

   30500 Gallons = 0.093601 Acre-Feet

C3. Provide the total irrigated acreage (in square feet) of cannabis cultivated under this water right during the 12-month reporting period:
   1000 square feet

C4. Provide the amount of cannabis cultivated under this water right during the 12-month reporting period by lighting condition type.

   Outdoor
   Cultivated Canopy Size 1000 square feet
   Total Number of Plants Harvested during 12-month reporting period: 100
   Number of Harvests 5
Indoor
Cultivated Canopy Size [ ] square feet
Total Number of Plants Harvested during 12-month reporting period: [ ]
Number of Harvests [ ]

Mixed Light
Cultivated Canopy Size [ ] square feet
Total Number of Plants Harvested during 12-month reporting period: [ ]
Number of Harvests [ ]

C5. Select all of the irrigation methods that are used to cultivate cannabis under this water right:

- [ ] Hand water
- [ ] Drip/micro spray irrigation
- [ ] Flood irrigation
- [x] Row irrigation
- [ ] Other [ ]

C6. Is your cultivation of cannabis a commercial cannabis activity?

If you intend to apply for a license under California Department of Food and Agriculture's Medical Cannabis Cultivation Program, your response will help the State Water Board to efficiently coordinate with the California Department of Food and Agriculture to verify your water source as required under Business and Professions Code section 19332.2.

- [x] Yes  [ ] No

---

**Part 5 of 11: MAXIMUM RATE OF DIVERSION FOR EACH MONTH (IF AVAILABLE)**

**Video - Diversion Rate and Amount**

The **Maximum Rate of Diversion** is the volume of water diverted per a specific unit of time, commonly expressed as cubic feet per second (cfs), gallons per minute (gpm), or gallons per day (gpd). The maximum rate of diversion would be the highest diversion rate measured/observed during a month. If you have this data, please record it for the appropriate months throughout the year. **If you do not, you may skip this section by clicking “Continue” at the bottom of the page.**

8a. The rate of diversion of water for each month entered in the table below is shown in units of:

- Cubic feet per second (cfs) ▼

8b. Enter numerals only. For months where no water was diverted, enter 0 (zero).

<table>

Part 6 of 11: AMOUNT OF WATER DIVERTED AND USED

Video: "Water Diversion Measurement"

9. Note: Please report the amounts diverted and used under this permit only. Do not report water diverted under other water rights, groundwater, or water supplied or purchased from others.

Water Use Averages Reference Chart

If you have an amount in gallons, use this tool to convert gallons to acre-feet:

<table>
<thead>
<tr>
<th>Gallons</th>
<th>Convert to Acre-Feet</th>
</tr>
</thead>
<tbody>
<tr>
<td>30500</td>
<td></td>
</tr>
</tbody>
</table>

30500 Gallons = 0.093601 Acre-Feet

9a. Type of diversion

- Water was only diverted from a stream and used immediately (Direct Diversion Only)
- Water was only diverted/collected from a stream to a storage reservoir to be used later (Diversion to Storage Only)
- Water was both directly diverted and diverted to storage
- No water was diverted

9b. Instructions;

**Amount Directly Diverted:** Water that is directly diverted (e.g. directly pumped from a stream and applied to land) should be reported in Column I.

**Amount Diverted or Collected to Storage:** Water that is diverted/collected to on-stream or off-stream storage/reservoir should be reported in Column II.

**Amount Used:** Column III represents the total amount of water beneficially used for the month. (It should include the value of water reported in Column I, Column II or the total value of both, if appropriate.)

NOTE: Please account for the water used/diverted in the column that is most appropriate. Do not double report the same amounts in Columns I. and II. below.

Enter numerals only (no commas or letters)

Add new or remove measurement device(s) to your report by selecting the appropriate action below. The first option allows you to enter one device at a time. If you have multiple devices for this water right, you can return to this page and add additional devices. The second option allows you to import a device that you have previously entered if you use the same device for multiple water rights. The last option allows you to remove any added devices from your report. After you have added your measurement device(s), click

the corresponding "Manage Data Files" to upload measurement data files. If you did not use a measuring device, select the "No" button.

- Provide measurement device information/certification
- Import a measurement device from a previously submitted report
- Remove selected measurement device(s) from this report

### Part 7 of 11: WATER DIVERSION MEASUREMENT

#### Video - "Water Diversion Measurement"

10a. ☐ I am required to measure as of the date this report is submitted  
      ☐ I am not required to measure as of the date this report is submitted  

Information on measurement requirements

#### SUMMARY OF MEASURING DEVICES / MEASUREMENT METHODS ASSOCIATED WITH THE DIVERSION OR STORAGE OF WATER

10b. ☐ I measure my diversion and/or storage of water  
      ☐ My diversion is measured by a watermaster assigned to the following service area:  
      ☐ I do not measure my diversion and/or storage of water

10c. An alternative compliance plan was submitted to the Division of Water Rights on:  (mm/dd/yyyy, example: 02/07/2009)

10d. A request for additional time was submitted to the Division of Water Rights on:  (mm/dd/yyyy, example: 02/07/2009)

10e. Manage Measuring Devices and Upload Measurement Data

<table>

Add new or remove measurement device(s) to your report by selecting the appropriate action below. The first option allows you to enter one device at a time. If you have multiple devices for this water right, you can return to this page and add additional devices. The second option allows you to import a device that you have previously entered if you use the same device for multiple water rights.
The last option allows you to remove any added devices from your report. After you have added your measurement device(s), click the corresponding "Manage Data Files" to upload measurement data files. If you did not use a measuring device, select the "No" button.

- Provide measurement device information/certification
- Import a measurement device from a previously submitted report
- Remove selected measurement device(s) from this report

### Part 8 of 11: WATER RIGHTS WITH STORAGE:

11. For water rights with storage only:

If more than one reservoir is covered under this permit, use the Add Another Reservoir button to add additional records.

<table>
<thead>
<tr>
<th>Delete</th>
<th>Reservoir Name (If the reservoir does not have a name, please create a name for your reservoir)</th>
<th>Did your reservoir spill this year?</th>
<th>If No, how many feet below the spillway vertically was the water level at maximum storage? (Enter numerals only)</th>
<th>Have you completely emptied the reservoir?</th>
<th>If No, how many feet below the spillway vertically was the water level at minimum storage? (Enter numerals only)</th>
<th>Describe the method used to measure water level. (For example, &quot;staff gauge reading&quot; or &quot;visual estimate&quot;)</th>
</tr>
</thead>
<tbody>
<tr>

Part 9 of 11: CREDITS

PLEASE ANSWER ONLY THOSE QUESTIONS BELOW WHICH ARE APPLICABLE TO YOUR WATER RIGHT PROJECT. Amendments to previously claimed credits are subject to review and may not be accepted.

An appropriative water right can be reduced or revoked through five continuous years of nonuse. However, the California Water Code specifies that under certain conditions no reduction or loss of the appropriative water right shall occur due to: (a) water conservation efforts; (b) use of recycled, desalinated, or polluted water; and/or (c) conjunctive use of groundwater and surface water. You must report the extent and amount of water claimed for credit below.

Failure to report the amounts may deprive you of the benefits allowed under the Water Code sections.

CONSERVATION OF WATER (Water Code section 1011)  
(Amendments to previously claimed credits are subject to review and may not be accepted.)

12. During the period covered by this Report, were you implementing any water conservation efforts?

☑ Yes    ☐ No

If YES, please describe:

(Describe methods of water conservation)

13. If YES and you want to claim credit for the amount of water conserved towards the water use authorized under your permit as allowed under Water Code section 1011, please show the amount of water conserved below:

☐ (specify the amount in acre-feet or gallons)

WATER QUALITY AND WASTEWATER RECLAMATION (Water Code section 1010)  
(Amendments to previously claimed credits are subject to review and may not be accepted.)

14. During the period covered by this Report, did you use reclaimed water from a wastewater treatment facility, water from a desalination facility, or water polluted by waste to a degree which unreasonably affects the water for other beneficial uses?
15. If YES and you want to claim credit for the substitution of this reclaimed, desalinated, or polluted water in lieu of available surface water authorized under your permit as allowed by Water Code section 1010, please show the amount of reclaimed, desalinated, or polluted water used below:

(specify the amount in acre-feet or gallons)

CONJUNCTIVE USE OF GROUNDWATER AND SURFACE WATER (Water Code section 1011.5)
(Amendments to previously claimed credits are subject to review and may not be accepted.)

16. During the period covered by this Report, were you using groundwater in lieu of available surface water authorized under your permit?

Yes  No

17. If YES and you want to claim credit for the groundwater used in lieu of available surface water authorized under your permit as allowed under Water Code section 1011.5, please show the amount of groundwater used below:

(specify the amount in acre-feet or gallons)
