

Correction to Supplemental Statement Notification

The Division of Water Rights is in the process of mailing a correction letter to diverters who received an original notification letter that was mailed to them on February 28, 2011. The original notice addressed the supplemental statement as an annual report. This is incorrect. The supplemental statement is a triennial report.

The notification letters were also inadvertently sent to some diverters that filed an Initial Statement in either 2009 or 2010 and are not required to file a supplemental statement at this time.

See an [example of the correction notice](#).
