Board of State Water Resources Control Board  
P.O. Box 100  
Sacramento, CA 95814-0100

Commit Letter - Bay Delta Plan SED:

Eighty seven years ago I was born in the  
Tegora District of West Turlock on a Dairy Farm.  
My Father attended U.C. Davis until he  
was taken into World War II, when we  
irrigated in the summer we conserved our  
water and we survived by being careful.

We now have fifty acres of almonds  
but if we have to waste 35% of the stored  
water for non native fish (striped bass)  
we will fail.  
We also lose the development of electricity

during July - October.

I plead with you to reject the Plan  
Everett Johnson MD
