State Water Resources Control Board

To whom it may concern;

I am writing to let the SWRCB know I and my family disapprove of your plan to increase water exports out of the Tuolumne, Stanislaus, and Merced rivers. The effects of this action to alter the future water supply are terrible for all concerned.

Your plan has the potential to devastate 210,000 acres of farmland. It will increase our water and electricity rates. Water should stay here for our immediate needs.

I'm a lifelong resident of Stanislaus County for almost sixty years. I'm a home owner and my parents have 20 acres of farmland. They also disapprove of this plan.

I appreciate your time and consideration on the matter of keeping our water here.

Thank you very much,

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Warn". The signature is stylized with a large, sweeping initial "J" and "W".
