Dear Ms. Townsend,

I was outraged to see that the WRCB voted to take another 35% of our badly needed water. This will devastate our already suffering economy and farming community. I have been a resident in the central valley my entire life and I am tired of decisions being made by our local and federal politicians to take our most precious resource to save some fish, when our economy is hurting so badly. Not to mention the fact that they are basing their decision on opinion rather than facts. We are facing a drought and the Board wants to deplete our reservoirs? Get real.

I urge this board to reconsider their decision as this will cause major problems for our farms. Enough is enough!
